Roman Military Equipment from the Punic Wars to the Fall of Rome M. C. Bishop, J. C. Coulston, 2006 **Rome's Armies to the Death of Augustus** Tony McArthur, 2024-09-30 National armies as we know them today are a comparatively recent development It has been assumed that the Romans had an army similar to the national institutions of advanced almost exclusively European powers at the end of the nineteenth century But the assumption was wrong as is the belief that changes seen in the armies can be explained because the Romans reformed their armies Up to the death of Augustus the Romans had no permanent military forces Roman armies were raised for particular campaigns and disbanded at their conclusion Repeated campaigns were conducted in places like northern Italy and Spain but the armies were always disbanded These armies were not seen by Romans as part of a national institution as modern armies are they were simply a part of the life of a Roman citizen like religion or elections These armies were more like a militia than a national army There is little evidence even of systematic training and what changes can be detected can be better explained by contingent adaptation to circumstances rather than reform The emperor Augustus is commonly seen as the originator of the imperial armies but it was an unintended outcome of a long life Roman Military Disasters Paul Chrystal, 2015-11-30 Over some 1200 years the Romans proved adept at learning from military disaster and this was key to their eventual success and hegemony Roman Military Disasters covers the most pivotal and decisive defeats from the Celtic invasion of 390 BC to Alaric's sack of Rome in AD 410 Paul Chrystal details the politics and strategies leading to each conflict how and why the Romans were defeated the tactics employed the generals and the casualties However the unique and crucial element of the book is its focus on the aftermath and consequences of defeat and how the lessons learnt enabled the Romans usually to bounce back and win
