## **Roman Silver Coins Vol 2 Tiberius To Commodus:**

Roman silver coins Vol.2 Tiberius to Commodus, arranged according to Cohen Herbert Allen Seaby,1968      **Roman Silver Coins** Herbert Allen Seaby,1968      **Roman Coins and Their Values Volume 2** David Sear,2002-12-31 Volume II now extends coverage of the Imperial series from Nerva the thirteenth Caesar and first of the Adoptive emperors down to the overthrow of the Severan dynasty in 235 It encompasses what may justifiably be termed the golden age of the Roman imperial coinage The full development of the Augustan system of coin denomination and perfection of the method by which government propaganda was communicated to the citizenry through the medium of coinage both reached their peak during these fourteen decades      **Roman Silver Coins: Tiberius to Commodus** Herbert Allen Seaby,1967 The purpose behind the publication of this volume is three fold Firstly to introduce new collectors to this fascinating series which for historical interest and variety is unsurpassed in the whole range of numismatics Secondly to give collectors and dealers a quick and ready help in identifying and classifying their coins Thirdly to give a guide to present day values I have continued to use Cohen s *Medailles Imperiales* as the basis as it is still used by most dealers and auction sale cataloguers as a reference Introductions      *Roman Silver Coins* Seaby,1954      **Roman Coins and Their Values Volume 1** David Sear,2000-12-31 The original edition of Sear s *Roman Coins and Their Values* was published by Seaby thirty six years ago and has been through four revisions 1970 1974 1981 and 1988 However the publication of the Millennium Edition of this popular work makes a radical departure from previous editions      *Classical Numismatic Auctions XX* ,      **Roman Coins and Their Values Volume 4** David Sear,2011-12-31 This fourth volume contains a comprehensive listing of the Roman coinage of the period AD 284-337 together with background information on the history of each reign and the principal characteristic of its coinage The catalogue is organized primarily by ruler with the issues then subdivided by denomination and by reverse legend and type      Roman Coins and Their Values David Sear,2004-12-31 The original edition of this volume was published by Seaby thirtysix years ago and has been through three revisions 1970 1974 and 1981 The only onevolume price guide to the coinage of Republican and Imperial Rome It is an indispensable listing of all major types of gold silver and bronze issued over some seven hundred and fifty years by the greatest militaristic state the world has ever known Over 4 300 coins are included with detailed description and valuations and all major and minor personalities are listed by means of their portrait coins This fourth revised edition takes note of recent work in the field especially that of Professor Michael Crawford      **From Tiberius to the Antonines (Routledge Revivals)** Albino Garzetti,2014-06-17 The first two centuries of the Christian era were largely a period of consolidation for the Roman Empire However the history of the heyday of Roman imperium is far from dull for Augustus successors ranged from capable administrators Tiberius Claudius and Hadrian to near madmen like Caligula and the amateur gladiator Commodus who might have wrecked the system but for its inherent strength Albino Garzetti s classic *From Tiberius to the Antonines* first published in 1960 presents a definitive account of this fascinating period which

combines a clear and readable narrative with a thorough discussion of the methodological problems and primary sources Regarding difficult historical questions it can be relied upon for careful and reasonable judgments based on a full mastery of an immense amount of material Nearly three hundred pages of critical notes and a comprehensive bibliography complement the text ensuring its continuing relevance for all students of Roman history Roman Coins and Their Values Volume 5 David Sear,2014-12-31 The current revision of this popular work marks a radical departure from the envisioned aims of the original edition This fifth and final volume of the Millennium edition contains a comprehensive listing of the Roman coinage of the period AD 337 491 together with background information on the history of each reign and the principal characteristics of its coinage The catalogue is organized primarily by ruler with the issues then subdivided by denomination and by reverse legend and type *Classical Numismatic Auctions XIV* , **Roman Silver Coins** Herbert Allen Seaby,1900 *History Today* Peter Quennell,1974 *Archaeological Bibliography for Great Britain & Ireland* ,1950 The Viking Age (Vol. 1&2) Paul B. Du Chaillu,2021-02-19 The Viking Age in two volumes as a broad study of the early history manners and customs of the ancestors of the English speaking nations He labored for eight and a half years and carefully read hundreds of Sagas that describe the life of the people who inhabited the Scandinavian Peninsula from the Stone Age to the Middle Ages including literary remains This scholarly work demonstrates what is now generally recognized the importance of the Norse including Norway Sweden and Denmark to the cultural dimension and transformation of British Isles during the fifth to eleventh centuries *Moneda Antigua y Vías Romanas en el Noroeste de Hispania* M. Isabel Vila Franco,2016-07-10 The main objective of this work was to obtain an overview of the Roman monetary circulation in Gallaecia following the road network that crossed this territory in Roman times **Roman Silver Coins** Herbert Allen Seaby,1968 Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library.
