**Out of the Melting Pot, Into the Fire** Jens Kurt Heycke, 2023-04-11 The melting pot has been the prevailing ideal for integrating new citizens through most of America's history yet contemporary elites often reject it as

antiquated and racist. Instead they advocate multiculturalism which promotes ethnic boundaries and distinct group identities. Both models have precedents across the centuries as Jens Heycke demonstrates in a contribution to the debate that incorporates an international historical perspective. Heycke surveys multiethnic polities in history focusing on societies that have shifted between the melting pot and multicultural models. Beginning with ancient Rome he demonstrates the appeal of a unifying syncretic identity that diverse individuals can join regardless of their ethnic or racial origins. He details how early Islam with its ideal of an inclusive ummah integrated diverse groups and even different faiths into a cohesive and flourishing society. Both civilizations eventually abandoned their integrative ideals in favor of a multicultural paradigm. The consequences of that paradigm shift are instructive for societies that seek to emulate it. In the modern era many nations have implemented multicultural policies like group preferences to compensate for past injustices or current disparities. Heycke examines some notable examples: Yugoslavia, Rwanda, and Sri Lanka. These nations were on a rough trajectory toward ethnic tolerance and comity, a trajectory that multicultural policies altered dramatically. They contrast with Botswana, a country that opposes group distinctions so resolutely that it prohibits the collection of racial and ethnic statistics. Since World War II ethnic conflicts have killed over ten million people. But the consequences of ethnic division go far beyond that. Heycke analyzes those consequences in an international statistical survey of ethnic fractionalization. This survey combined with the extensive historical record of multiethnic societies illustrates the staggering costs of accentuating group differences and the benefits of a unifying identity that transcends those differences.

The Discovery of Freedom in Ancient Greece Kurt Raaflaub, 2004-02. Although there is constant conflict over its meanings and limits, political freedom itself is considered a fundamental and universal value throughout the modern world. For most of human history, however, this was not the case. In this book Kurt Raaflaub asks the essential question: when, why, and under what circumstances did the concept of freedom originate? To find out, Raaflaub analyses ancient Greek texts from Homer to Thucydides in their social and political contexts. Archaic Greece, he concludes, had little use for the idea of political freedom; the concept arose instead during the great confrontation between Greeks and Persians in the early fifth century BCE. Raaflaub then examines the relationship of freedom with other concepts such as equality, citizenship, and law, and pursues subsequent uses of the idea, often paradoxically as a tool of domination, propaganda, and ideology. Raaflaub's book thus illuminates both the history of ancient Greek society and the evolution of one of humankind's most important values, and will be of great interest to anyone who wants to understand the conceptual fabric that still shapes our world views.

Reconnecting the City Francesco Bandarin, Ron van Oers, 2014-12-15. Historic Urban Landscape is a new approach to

urban heritage management promoted by UNESCO and currently one of the most debated issues in the international preservation community. However, few conservation practitioners have a clear understanding of what it entails and more importantly what it can achieve. Examples drawn from urban heritage sites worldwide from Timbuktu to Liverpool. Richly illustrated with colour photographs. Addresses key issues and best practice for urban conservation. *Uncovering the Theme of Revelation in Romans 1:16-3:26* Marcus A. Mininger, 2017-09-19. Past study of Rom 1:16-3:26 focuses on individual salvation or on social relations and also produces a host of interpretative quandaries. Marcus A. Mininger develops a new approach which includes but goes beyond these foci by unearthing the theme of revelation that runs throughout Paul's argument largely unnoticed. More than a proof of sin or of social equality, Paul provides a survey of numerous visible revelations in which otherwise invisible realities like God's wrath, the power of sin and God's righteousness are seen through the observable effects they produce in different people. Read this way, the rationale of Paul's argument becomes quite clear, including for problem texts like Rom 2 and 3:1-8, as Paul proves that the gospel, not the law, overcomes sin's power and that God's righteousness always exists in contrast to the human condition in this age. From publisher's description. **The Archaeological Journal**, 1903. **The Discovery of the Popish Plot, Being the Several Examinations of Titus Oates D.D. Livorno fu una creazione postmedievale di notevole successo. Diventò il più grande porto di transito del Mediterraneo e creò il concetto di porto franco in Europa. Costruita dai Granduchi Medici prosperò come la più importante base commerciale nel Mediterraneo per i Poteri nord atlantici. Tra questi il principale fu inglese, la cui Royal Navy garantì il suo successo commerciale e il predominio britannico nel Mediterraneo, un'area che era ancora la fonte di prodotti e beni di lusso e che forniva un mercato popoloso per le manifatture, i metalli, il pesce, le riesportazioni coloniali ed i servizi di trasporto inglesi. Questo volume raccoglie quattordici contributi che danno prove materiali della relazione della Gran Bretagna con Livorno e la Toscana. Livorno was a remarkably successful post medieval creation which became the greatest transit port in the Mediterranean and pioneered the concept of the free port in Europe. Built by the Medici Grand Dukes it prospered as the main commercial base in the Mediterranean for north Atlantic powers. Principal amongst these were the English whose Royal Navy ensured their commercial success and Britain's dominance of the Mediterranean, an area which was still the source of luxury produce and goods and provided a populous market for British manufactures, metals, fish, colonial re-exports and shipping. This volume brings together fourteen papers highlighting the material evidence of Britain's relationship with Livorno and Tuscany. **Exploring Human Geography** Stephen Daniels, Roger Lee, 2014-05-01. A lively and stimulating resource for all first year students of human geography, this

introductory Reader comprises key published writings from the main fields of human geography Because the subject is both broad and necessarily only loosely defined a principal aim of this book is to present a view of the subject which is theoretically informed and yet recognises that any view is partial contingent and subject to change The extracts selected are accessible and raise issues of method and theory as well as fact The editors have chosen articles that not only represent main currents in the present flow of academic geography but which are also responsive to developments outside of the discipline Their selection contains a mixture of established and recent writings and each section features a contextualizing introduction and detailed suggestions for further reading      Library of Congress Catalog Library of Congress,1965
