The Art of Love Peter L. Allen, 2015-09-30 Two major French medieval literary works that claim to teach their readers the art of love are virtually torn apart by the contradictions and conflicts they contain In Andreas Capellanus's late twelfth-century Latin *De amore* the author instructs his friend Walter in the amatory art in the first two books but then harshly repudiates his own teachings and love itself in a third and final book In Jean de Meun's encyclopedic continuation of

the Romance of the Rose written in French in the 1270s a succession of allegorical figures alternately promote and excoriate the lover's amatory pursuits Jean's romance moreover virtually rewrites the dream vision of Guillaume de Lorris which it claims simply to extend and ends with the depiction of a sexual act that seems to throw the book's whole structure into confusion The more closely one reads this work Peter L Allen contends the harder it is to understand them Didactic heavy handed and problematic they teach would be lovers how to behave in order to have others accomplish their desires yet they also contain vociferous passages that dissuade their protagonists from the practice of this art which they claim leads not only to earthly destruction but also to eternal damnation Readers from the Middle Ages to the present have been troubled by the fact that these texts are both radically self contradictory and fundamentally at odds with the accepted morality of medieval Christian Europe And for decades scholars have tried to determine how these two works are related to what is often referred to as courtly love In *The Art of Love* Allen persuasively argues that the *De amore* and the Romance of the Rose are central to the courtly tradition Allen contends that their conflicts and contradictions are not signs of confusion or artistic failure but are instead essential clues which show that the medieval works follow the disruptive structural model of Ovid's first century elegiac *Ars amatoria* Art of Love and *Remedia amoris* Cures for Love Andreas's and Jean's works no less than Ovid's teach not the art of love for practicing lovers but the literary art of love poetry and fiction Based squarely on Ovid's poems which were among the most widely read classical texts in medieval Europe the *De amore* and the Romance of the Rose use the classical tradition in a particularly assertive fashion and suggest a way for fantasies of love to exist even against a background of ecclesiastical prohibition
