Legend Reality is a compelling narrative about the legendary Silk Road down the ages. It takes us back to the nearly forgotten times when the dusty long road was discovered by herders and nomads in search of pastures and oases. It was a long trek into the unknown. This gradually turned into the fabled Silk Road spanning from China and across Central Asia with its numerous trade routes staging posts, caravanserais on the one hand and the rugged landscape through steppes across mountains, deserts and nations on the other. The Silk Road stood out like a great artery that sustained for centuries. The Road with its routes conveyed not only commerce but also ideas and philosophy of the far east China to the far flung Roman Empire in the west, drawing from and contributing to other regions and countries that fell along the way: Turkestan, Afghanistan, India, Persia, Mesopotamia, Palestine, Phoenicia and Anatolia, thus linking the ancient and the medieval worlds. It was an enterprise of gigantic proportions; the great highway witnessed trade in almost all products with silk, precious stones, porcelain, metals and horses as chief commodities. Of these, silk was the foremost merchandise that merchants transported on camel caravans and upon mules from the Land of Serica. Slaves too were traded. Monks and warriors also walked along the trodden path. Merchants exchanged goods which made trade possible, bringing in a flow of wealth while monks and warriors exchanged philosophy, ideas and statecraft despite conflicts and wars. The narrative travels back to the times when the road started making history by joining imperial Xi'an with imperial Rome, a distance of more than 8,000 kms during the period of China's Han Dynasty, sometime around 200 BC. This strangely endured till the present days of Communist China and OBOR, deliberating the Chinese Puzzle. The book is an adventurous amalgamation of history, travel and the unanticipated and not merely a clichéd travel account. It presents a fascinating story of realms, rulers, travellers and merchants, both ancient and modern, with a captivating collection of anecdotes, lore and current realities from far and wide. Its brilliant web makes the book immensely readable.

The Limits of Sexuality Education Ketaki Chowkhani, 2023-12-19. This book explores different strands of thinking about sexuality education in contemporary urban India. It interrogates the limits of sexuality education as we know it today by rethinking adolescent masculinities in middle class urban India. This book contributes to the wide gap in theorising sexuality education and adolescent masculinities in urban India. It presents an adolescent perspective on sexuality education, looks at adolescent love from the school teachers' perspective and tries to understand a teacher's negotiations with student romance. It unravels the sexual and romantic lives of adolescents and examines the circulation of sexual knowledge and sources of information on sex that adolescent boys in India have access to. This book uncovers the limits of sexuality education by examining State, feminist, Christian and sexological materials on sexuality education in Mumbai and Delhi. Based on detailed research and narratives from teachers, young men and women, the book explores adolescent male romance and its affective registers, adolescent male sexual knowledge and the regulation of romance in school spaces. This book will be of interest to students and researchers of education, sexuality and gender studies, masculinity studies, sex education as well as those interested in education policy, education politics, educational research and inclusion and special education. The complete canal boat guide for India , 2025-08-15 *Trade and Romance* Michael Murrin, 2013-12-16 In Trade and Romance Michael Murrin examines the complex relations between the expansion of trade in Asia and the production of heroic romance in Europe from the second half of the thirteenth century through the late seventeenth century He shows how these tales of romance ostensibly meant for the aristocracy were important to the growing mercantile class as a way to gauge their own experiences in traveling to and trading in these exotic locales Murrin also looks at the role that growing knowledge of geography played in the writing of the creative literature of the period tracking how accurate or inaccurate these writers were in depicting far flung destinations from Iran and the Caspian Sea all the way to the Pacific With reference to an impressive range of major works in several languages including the works of Marco Polo Geoffrey Chaucer Matteo Maria Boiardo Lu's de Cam'es Fern'o Mendes Pinto Edmund Spenser John Milton and more Murrin tracks numerous accounts by traders and merchants through the literature first on the Silk Road beginning in the mid thirteenth century then on the water route to India Japan and China via the Cape of Good Hope and finally the overland route through Siberia to Beijing All of these routes originally used to exchange commodities quickly became paths to knowledge as well enabling information to pass if sometimes vaguely and intermittently between Europe and the Far East These new tales of distant shores fired the imagination of Europe and made their way with surprising accuracy as Murrin shows into the poetry of the period

Quest for Love in Central Morocco Laura Menin, 2024-04-15 Following the 2011 wave of revolutions and protests in North Africa and the Middle East new discussions of individual freedoms emerged in the Moroccan public sphere and human rights discourse A segment of the public rallied around the removal of an article in the penal code that punished sexual relationships outside of marriage As debates about personal and

sexual freedom gain momentum love and intimacy remain complex issues Moving between public clandestine and online interactions Quest for Love in Central Morocco explores the creative ways young women navigate desire and morality Menin s ethnography focuses on young women living in the low income and lower middle class neighborhoods of a midsized town in Central Morocco far from the overt influence of city life At the heart of the book Menin draws upon ideas of love as an ethnographic object and source of theoretical examination She demonstrates that love as a complex cultural and historical phenomenon shaped through intersecting socioeconomic and political developments is crucial in thinking through generational changes and debates in Morocco and the Middle East more broadly What is at stake in the quest for love she argues is not only the making of gendered selves and intimate relationships but also the imagination of social and political life
