## **Romanesque Frieze And Its Spectator:**

*The Romanesque Frieze and Its Spectator* Deborah Kahn,1992 This volume provides an introduction to the much neglected topic of sculptural friezes ranging from England to Normandy the Loire Valley and Northern Italy Frieze sculpture has until now been one of the least studied aspects of Romanesque art though examples are to be found all over Europe set in facades and external walls of many churches The essays collected here reflect the diversity of aspects considered problems of narrative and iconography regional groups filiations and conservation Summarized in English and in French the papers have further significance in establishing a record of the present state of some of the great architectural decoration in the medieval European tradition     Romanesque Sculpture An Ecstatic Art Susan Marcus,2014 Architectural sculpture virtually

abandoned for five hundred years following the demise of the Roman Empire was revived on the portals of Romanesque churches in eleventh and twelfth century France and Spain Long overdue is a reappraisal of those images whose aesthetic of rendering the invisible visible establish them as valuable witnesses to the culture of Europe in the Middle Ages Countless losses mutilation through wilful destruction centuries of accumulated grime and a dearth of studies in English have impeded the deserved realization and appreciation of these magnificent works of art Through illustration and illuminative interpretation *Romanesque Sculpture An Ecstatic Art* fills the void by tracing the beginnings maturation and efflorescence of monumental sculptured facades in the short lived Romanesque era Depictions on them are mirrors of the age sophisticated theological messages monastic life the cult of relics pilgrimages crusades and politics The survey considers too the sculptors mostly anonymous who in adapting models from several media both antique and current created a unique visual vocabulary The beauty of the sculptures comes to the fore The stones live     **Pictorial Narrative in the Romanesque Cloister**

Pamela Anne Patton,2004 Praised as paradisiacal or denounced as impious fantasy the sculpture of Romanesque cloisters played a powerful role in medieval monastic life This book demonstrates how sculpture in the cloister the physical and spiritual heart of the religious foundation could be shrewdly configured to articulate the most influential ideals and experiences of its individual community Taking as its focus the visually rich highly organized narrative programs of three twelfth century Spanish cloisters this book reveals the power of such imagery to reflect and reinforce the social and spiritual preoccupations of its age     **Romanesque Architecture and Its Sculptural Decoration in Christian Spain, 1000-1120**

Janice Mann,2009-01-01 Mann examines how the financial patronage of newly empowered local rulers allowed Romanesque architecture and sculptural decoration to significantly redefine the cultural identities of those who lived in the frontier kingdoms of Christian Spain     *Devotional Interaction in Medieval England and its Afterlives* ,2018-06-05 *Devotional Interaction in Medieval England and its Afterlives* examines the interaction between medieval English worshippers and the material objects of their devotion The volume also addresses the afterlives of objects and buildings in their temporal journeys from the Middle Ages to the present day Written by the participants of a National Endowment for the Humanities funded

seminar held in York U K in 2014 the chapters incorporate site specific research with the insights of scholars of visual art literature music liturgy ritual and church history Interdisciplinarity is a central feature of this volume which celebrates interactivity as a working method between its authors as much as a subject of inquiry Contributors are Lisa Colton Elizabeth Dachowski Angie Estes Gregory Erickson Jennifer M Feltman Elisa A Foster Laura D Gelfand Louise Hampson Kerilyn Harkaway Krieger Kathleen E Kennedy Heather S Mitchell Buck Julia Perratore Steven Rozenski Carolyn Twomey and Laura J Whatley

**Canterbury Cathedral, Trinity Chapel** David S. Neal, Warwick Rodwell, 2022-09-15 Canterbury Cathedral possesses a unique marble mosaic pavement dating from the early twelfth century which has long intrigued scholars and been the subject of speculation and debate It forms part of the floor of the Trinity chapel adjacent to the site where the shrine of St Thomas Becket stood prior to the Reformation Since the mosaic is older than the chapel itself and partly destroyed a pavement of figurative roundels laid c 1215 it must have been moved here from elsewhere in the cathedral This volume explores the history and archaeology of the Trinity chapel the pavement and the physical remains of the cult of Becket based largely on hitherto unrecorded and unpublished evidence In the early twelfth century Archbishop Anselm rebuilt the eastern arm of the cathedral introducing architectural elements from his native Italy and these included a magnificent mosaic pavement composed of the most expensive marbles which lay in front of the high altar In 1170 Archbishop Becket was murdered in the cathedral and his body rested overnight on the pavement before being buried in the crypt Thomas was immediately revered as a martyr and in 1173 was canonized by the pope a simple shrine was erected over his tomb In the following year a fire arson destroyed the eastern arm of the cathedral precipitating the construction of the present Trinity and Corona chapels wherein St Thomas s remains were enshrined After decades of delay and political strife the enshrinement took place in 1220 in the presence of Henry III The shrine comprised a great marble table supported on six clusters of columns On top of the table was a marble sarcophagus containing the saint s body in an iron bound timber coffin over which stood the sumptuous feretory a gabled timber roof plated with sheets of gold and adorned with jewels East of the shrine lies the small Corona chapel in which a fragment of Becket s skull was separately encased in a head shrine and to the west a large area was paved with forty eight figurative stone roundels created by French artisans All around stained glass windows display the early miracles of Becket The layout of the Trinity chapel underwent transmutations first around 1230 when the mosaic pavement was taken up from the old presbytery reduced in size and relaid in front of Becket s shrine where is it today Second the chapel was reordered in c 1290 when the podium carrying the shrine was enlarged and the paving around it reconfigured Medieval tombs were now being installed in the chapels including those of the Black Prince and Henry IV The end came in 1538 when Henry VIII ordered the thorough destruction of Becket s shrines but a great deal of archaeological evidence remained in the floors walls and a few surviving fragments of the shrines all now recorded and discussed in this volume for the first time

Whereas twelfth century pilgrims flocked to the church of St Lazare in Autun to visit the relics of its patron saint present day pilgrims journey there to admire its superb sculpture said to have been created by the artist Gislebertus whose name is inscribed above one of the church doors These two cults of sculptor and of saint form points of departure and arrival for Linda Seidel s study *Legends in Limestone* reveals how Gislebertus sculptor was discovered and subsequently sanctified over the course of the last century Seidel makes a compelling case for the identification of the name with an ancestor of the local ducal family invoked for his role in the acquisition of the precious relics With the aid of evidence drawn from the richly carved decoration of the building she demonstrates how medieval visitors would have read a different holy narrative in the church fabric one that constructed before their eyes an account of their patron saint s life *Legends in Limestone* an absorbing study of one of France s most revered medieval monuments provides fresh insights into modern and medieval interpretive practices      *Sculpted Thresholds and the Liturgy of Transformation in Medieval Lombardy* Gillian B.

Elliott,2022-06-24 This book explores the issue of ecclesiastical authority in Romanesque sculpture on the portals and other sculpted gateways of churches in the north Italian region of Lombardy Gillian B Elliott examines the liturgical connection between the ciborium over the altar the most sacred threshold inside the church and the sculpted portals that appeared on church exteriors in medieval Lombardy In cities such as Milan Civate Como and Pavia the liturgy of Saint Ambrose was practiced as an alternative to the Roman liturgy and the churches were constructed to respond to the needs of Ambrosian liturgy Not only do the Romanesque churches in these places correspond stylistically and iconographically but they were also linked politically in an era of intense struggle for ultimate regional authority The book considers liturgical and artistic links between interior church furnishings and exterior church sculptural programs and also applies new spatial methodologies to the interior and exterior of churches in Lombardy The book will be of interest to scholars working in art history medieval studies architectural history and religious studies      **The Long Twelfth-Century View of the Anglo-Saxon Past** Martin

Brett,David A. Woodman,2016-03-03 Scholars have long been interested in the extent to which the Anglo Saxon past can be understood using material written and produced in the twelfth century and simultaneously in the continued importance or

otherwise of the Anglo Saxon past in the generations following the Norman Conquest of England In order to better understand these issues this volume provides a series of essays that moves scholarship forward in two significant ways Firstly it scrutinises how the Anglo Saxon past continued to be reused and recycled throughout the longue dur e of the twelfth century as opposed to the early decades that are usually covered Secondly by bringing together scholars who are experts in various different scholarly disciplines the volume deals with a much broader range of historical linguistic legal artistic palaeographical and cultic evidence than has hitherto been the case Divided into four main parts The Anglo Saxon Saints Anglo Saxon England in the Narrative of Britain Anglo Saxon Law and Charter and Art history and the French Vernacular it scrutinises the majority of different genres of source material that are vital in any study of early medieval British history In so doing the resultant volume will become a standard reference point for students and scholars alike interested in the ways in which the Anglo Saxon past continued to be of importance and interest throughout the twelfth century
