Nelson,2019-06-04 Among communist states Romania is in several respects a unique case Romania has been the only Warsaw Pact member to deviate consistently from Soviet foreign policy norms and alone within Eastern Europe to avoid oil imports from the USSR The leadership of Nicolae Ceausescu since 1965 has meanwhile governed through a studious commitment to socio economic centralization and control often reminiscent of Stalinist orthodoxy Intellectual freedom artistic liberty and workers rights have changed little relative to Poland Hungary or the transient Prague Spring Such international and domestic policy distinctions as well as a record of impressive industrial growth necessitate an effort to understand the dynamics of Romania s socio economic and political life This volume is meant to delineate trends in political social and economic life which will constitute dynamic elements for the Romanian system during the 1980s and beyond Contributors all scholars with lengthy research experience in Romania the Balkans and communist states generally have sought to identify factors likely to be influential during this and ensuing decades In that sense this is a predictive volume containing not crystal ball gazing but the careful identification and assessment of trends influencing Romanian foreign and domestic policies economic and political performance and societal transformations By suggesting elements crucial to socio economic and political change in Romania we hope to make observing this intriguing communist state somewhat less haphazard and more systematic *Romania 1944* Grant Harward,2024-09-26 The complex and fascinating story of Romania s turning of arms against Nazi Germany and the battle for Romania an important but overlooked and misunderstood episode of World War II The battle for Romania from March to September 1944 is a multifaceted story involving German Romanian Soviet American and British forces Romania s defection from the Axis denied Nazi Germany not just resources especially oil but also turned the Romanian Army formerly its most important support on the Eastern Front from friend to foe The fighting witnessed the German Sixth Army being destroyed for a second time after Stalingrad This in depth work explores the strategic struggle within German Romanian relations and the tactical development of the Battle of Romania The detailed 2D maps and 3D diagrams guide you step by step through the Axis defence of Romania in March May during the first Iasi Chisinau offensive the Allied campaign in April August to assist the Soviets the Axis collapse in August during the second Iasi Chisinau offensive the Romanian defeat of the attempted German counter coup and the final Soviet occupation of Romania Period photographs from the Romanian archives and private collections many never before seen and stunning battlescene artworks bring to life the soldiers and materiel of the wide range of forces involved in this rarely explored Eastern Front campaign **National-Socialist Archaeology in Europe and its Legacies** Martijn Eickhoff,Daniel Modl,Katie Meheux,Erwin Nuijten,2023-08-14 This edited volume is

dedicated to national socialist archaeology as a Europe wide phenomenon It analyses national socialist attempts to denationalize the archaeologies of European nations by creating a new unifying European archaeology on a racial basis From the beginning of the nineteenth century archaeology began to develop into an important force behind processes of nation building At the same time structures of transnational academic collaboration contributed strongly to the internal dynamics of the research field which was primarily organized on a national basis In those European countries that were confronted with national socialist occupation and repression between 1939 and 1945 these transnational archaeological networks were to prove crucial for the development of national socialist archaeological policies This volume will reveal how national socialist archaeology was to an extent valued positively in its time as highly innovative even influencing the archaeology of non occupied countries Although in the final instance it generally failed to displace the national archaeologies in Europe the volume also analyses the long term impact of national socialist rule on the development of European archaeology How did the attempts to create a unified European archaeology after 1945 continue to influence networks methods and terminologies institutional structures or popular representations of the early past

Capitalism in Chaos

Máté Rigó, 2022-08-15 Capitalism in Chaos explores an often overlooked consequence and paradox of the First World War the prosperity of business elites and bankers in service of the war effort during the destruction of capital and wealth by belligerent armies This study of business life amid war and massive geopolitical changes follows industrialists and policymakers in Central Europe as the region became crucially important for German and subsequently French plans of economic and geopolitical expansion in the late nineteenth and early twentieth centuries Based on extensive research in sixteen archives five languages and four states M t Rigó demonstrates that wartime destruction and the birth of war millionaires were two sides of the same coin Despite the recent centenaries of the Great War and the Versailles peace treaties knowledge of the overall impact of war and border changes on business life remains sporadic based on scant statistics and misleading national foci Consequently most histories remain wedded to the viewpoint of national governments and commercial connections across national borders Capitalism in Chaos changes the static historical perspective by presenting Europe s East as the economic engine of the continent Rigó accomplishes this paradigm shift by focusing on both supranational regions including East Central and Western Europe as well as the eastern and western peripheries of Central

Europe Alsace Lorraine and Transylvania from the 1870s until the 1920s As a result Capitalism in Chaos offers a concrete lively history of economics during major world crises with a contemporary consciousness toward inequality and disparity during a time of collapse
