Romanian Nationalists and the Holocaust Randolph L. Braham, 1998 The highly publicized obscenity trial of Radclyffe Hall's *The Well of Loneliness* 1928 is generally recognized as the crystallizing moment in the construction of a visible modern English lesbian culture marking a great divide between innocence and deviance private and public New Woman and Modern Lesbian Yet despite unreserved agreement on the importance of this cultural moment previous studies often reductively distort our reading of the formation of early twentieth century lesbian identity either by neglecting to examine in detail the developments leading up to the ban or by framing events in too broad a context against other cultural phenomena Fashioning Sapphism locates the novelist Radclyffe Hall and other prominent lesbians including the pioneer in women's policing Mary Allen the artist Gluck and the writer Bryher within English modernity through the multiple sites of law sexology fashion and literary and visual representation thus tracing the emergence of a modern English lesbian subculture in the first two decades of the twentieth century Drawing on extensive new archival research the book interrogates anew a range of myths long accepted without question and still in circulation concerning to cite only a few the extent of homophobia in the 1920s the strategic deployment of sexology against sexual minorities and the rigidity of certain cultural codes to denote lesbianism in public culture

The Fascist Faith of the Legion "Archangel Michael" in Romania, 1927-1941 Constantin Iordachi, 2022-12-30 The Fascist Faith of the Legion Archangel Michael in Romania 1927 1941 engages critically with recent works on fascism totalitarianism and religion and advances an original theoretical and methodological approach to fascism as a political faith On this basis the book constructs an innovative comparative research framework for reconceptualizing the history of the Legion Archangel Michael in Romania 1927 1941 It contends that the Legion put forward a palingenetic political faith of a theological type called Legionarism To provide a comprehensive analysis of the origins main features mechanisms of institutionalization and demise of this self proclaimed salvific political faith the book documents the palingenetic foundations of the Legionary faith the syncretism between fascist and Christian rites and rituals and the intricate relationship between the Legion and the Orthodox Church and its dogma The book documents three main sacrificial strategies employed by the Legion to re evangelize the people in the new faith 1 the appropriation of the cult of the fallen soldiers 2 terrorist missions meant to create fascist heroes through violent sacrifice and 3 sanctification through heroic fight for Christianity in the Spanish Civil War in an attempt to link Legionarism with the transnational crusade against Judeo Bolshevism As well as providing a detailed historical and interpretive account of the Legion the book makes a significant contribution to debates about defining fascism and its relation to religion It also provides novel comparative perspectives for studying other attempts at constructing fascist faiths in interwar Europe most notably in Fascist Italy and Nazi Germany but also in Central and Eastern Europe This book will be of interest to students and scholars of fascism Romanian studies politics and religion political theory totalitarianism youth radicalization violence and the emergence of terrorism

Fascism and

Neofascism E. Weitz, A. Fenner, 2016-09-27 The dramatic transformations of the the 1990s the end of the Cold War the establishment of political liberties and market economies in Eastern Europe German unification quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism Just as quickly however right wing extremism began a surge in Europe that has not significantly abated to this day Fascism and Neofascism is a collection of essays that is distinctive in two important ways First unlike most volumes which cover either historical fascism or the recent radical right Fascism and Neofascism spans both periods Secondly this volume also aims to bring newer modes of inquiry rooted in cultural studies into dialogue with more traditional ways of viewing fascism The editors approach is deliberately interdisciplinary even eclectic

Hitler's Foreign Executioners Christopher Hale, 2011-04-11 In Hitler s Foreign Executioners Heinrich Himmler s secret master plan for Europe is revealed an SS empire that would have no place for either the Nazi Party or Adolf Hitler His astonishingly ambitious plan depended on the recruitment of tens of thousands of Germanic peoples from every corner of Europe and even parts of Asia to build an SS Europa This revised and fully updated book researched in archives all over Europe and using first hand testimony exposes Europe s dirty secret nearly half a million Europeans and more than a million Soviet citizens enlisted in the armed forces of the Third Reich to fight a deadly crusade against a mythic foe Jewish Bolshevism Even today some apologists claim that these foreign SS volunteers were merely soldiers like any other and fought a decent war against Stalin s Red Army Historian Christopher Hale demonstrates conclusively that these surprisingly common views are mistaken By taking part in Himmler s murderous master plan these foreign executioners hoped to prove that they were worthy of joining his future SS Europa But as the Reich collapsed in 1944 Himmler s monstrous scheme led to bitter confrontations with Hitler and to the downfall of the man once known as loyal Heinrich

Varieties of Antisemitism Murray Baumgarten, Peter Kenez, Bruce Allan Thompson, 2009 The essays in this volume articulate the historical ground on which this artistic exploration of the Holocaust and anti Semitism depends They also elaborate the spectrum that connects them in terms of their historical location and ideological emphases and thus suggest the ways in which they are connected in terms of

rhetorical discourse The essays are governed by the sense that anti-Semitism has not been a unitary experience or event Rather it is its varieties that are explored exactly those aspects that have made it so difficult to grasp and that led to the wide ranging events and murdering methods of the Holocaust Thus the editors eschew the causal explanation of Hitler's Willing Executioners as they seek to provide more nuanced understanding Murray Baumgarten directs the Jewish Studies program at the University of California Santa Cruz Peter Kenz teaches at the University of California Santa Cruz Bruce Thompson is a lecturer in History and Literature at the University of California Santa Cruz Facing the Catastrophe Beate Kosmala, Georgi Verbeeck, 2011-02-15 Covering Western and Eastern Europe this book looks at the Holocaust on the local level It compares and contrasts the behavior and attitude of neighbors in the face of the Holocaust Topics covered include deportation programs relations between Jews and Gentiles violence against Jews perceptions of Jewish persecution and reports of the Holocaust in the Jewish and non Jewish press *Territorial Revisionism and the Allies of Germany in the Second World War* Marina Cattaruzza, Stefan Dyroff, Dieter Langewiesche, 2012-12-01 A few years after the Nazis came to power in Germany an alliance of states and nationalistic movements formed revolving around the German axis That alliance the states involved and the interplay between their territorial aims and those of Germany during the interwar period and World War II are at the core of this volume This territorial revisionism came to include all manner of political and military measures that attempted to change existing borders Taking into account not just interethnic relations but also the motivations of states and nationalizing ethnocratic ruling elites this volume reconceptualizes the history of East Central Europe during World War II In so doing it presents a clearer understanding of some of the central topics in the history of the war itself and offers an alternative to standard German accounts of the period and East European national histories *The Encyclopedia of Jewish Life Before and During the Holocaust: Sederot-Buda-Z* Shmuel Spector, Geoffrey Wigoder, 2001 This three volume encyclopedia abridged from a 30 volume set in Hebrew and with a foreword by Elie Wiesel chronicles Jewish life before and during the Holocaust Arranged alphabetically by town thousands of entries explore centuries of Jewish life Some entries particularly for large cities provide information on Jewish residents as early as the Middle Ages and discuss the fate of Jews during the Black Death persecutions 1348 1349 and various pogroms from the 17th to 20th centuries Each entry provides information on the town's Jewish inhabitants on the eve of German occupation gives the dates of Jewish roundups and mass executions and estimates how many Jews from that community survived the war Includes more than 600 black and white photographs The Treatment of the Holocaust in Hungary and Romania During the Post-communist Era Randolph L.
