Kennedy, Marina Warner, 2013-11-08 Scheherazade s Children gathers together leading scholars to explore the reverberations of the tales of the Arabian Nights across a startlingly wide and transnational range of cultural endeavors The contributors drawn from a wide array of disciplines extend their inquiries into the book s metamorphoses on stage and screen as well as in literature from India to Japan from Sanskrit mythology to British pantomime from Baroque opera to puppet shows Their highly original research illuminates little known manifestations of the Nights and provides unexpected contexts for understanding the book s complex history Polemical issues are thereby given unprecedented and enlightening

interpretations Organized under the rubrics of Translating Engaging and Staging these essays view the Nights corpus as a uniquely accretive cultural bundle that absorbs the works upon which it has exerted influence In this view the Arabian Nights is a dynamic living and breathing cross cultural phenomenon that has left its mark on fields as disparate as the European novel and early Indian cinema While scholarly the writers approach is also lively and entertaining and the book is richly illustrated with unusual materials to deliver a sparkling and highly original exploration of the Arabian Nights radiating influence on world literature performance and culture Catalogue of the Library of the Late Richard Heber, Esq. international conference on the medieval chronicle was held again in the vicinity of Utrecht the Netherlands There are several reasons why the chronicle is particularly suited as the topic of an international conference In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions This third volume of conference papers again aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds     Perceval le Gallois ou le Conte du Graal Chrétien de Troyes, 1866     *Catalogue of the Library of the Late Richard Heber* ,1834
