Included in this bibliography originally published in 1989 are books pamphlets dissertations and articles from periodicals and collections published for the most part since 1900 which present Catholic development in the nineteenth century as its major theme Each entry is annotated with the major idea or theme of the work as expressed by its author or editor This title will be of interest to students of European History and Religious Studies Charlotte Mason Margaret Coombs, 2015-09-24 As the acknowledged founder and philosopher of the Parents National Educational Union PNEU Charlotte Mason was revered by her followers as a saintly Madonna figure She died in 1923 at the peak of her fame having achieved mythic status as the Principal of her House of Education and wide recognition after the introduction of her liberal educational programmes into state schools Yet her early life and heritage remained shrouded in mystery Drawing upon insubstantiated sources the official biography released in 1960 confused rather than illuminated Charlotte s background contributing to several enduring misapprehensions In her new and definitive biography Margaret Coombs draws on years of research to reveal for the first time the hidden backdrop to Charlotte Mason s life tracing the lives of her previously undiscovered Quaker ancestors to offer a better understanding of the roots of her personality and ideas Coombs charts her rise from humble beginnings as an orphaned pupil teacher to great heights as a lady of culture venerated within prestigious PNEU circles illustrating how with determination she surmounted the Victorian age s rigid class divisions to achieve her educational vision A thorough analysis of Charlotte Mason s educational influences and key friendships challenges longstanding notions about the roots of her philosophy offering a more realistic picture of her life and work than ever accomplished before With a growing following in the USA and Australia Charlotte Mason s ideas have a clear relevance to the continuing educational debate today Admirers of her philosophy and scholars of the history of education will find much to enthral and instruct them in these pages **The Cambridge History of Christianity: Volume 9, World Christianities C.1914-c.2000** Hugh McLeod, 2006-01-12 A comprehensive history of Christianity in the century when it truly became a global religion **Christendom Awake** Aidan Nichols, 1999-01-01 Aidan Nichols shows how recovering the Church s traditional mission will re energise its witness in such areas as philosophy ethics aesthetics the family economics gender relations and politics Providing insight into the forces of mainstream culture this volume will enlighten and embolden all those concerned for the renewal of Christendom in today s world **History of Universities: Volume XXXV / 1** Mordechai Feingold, 2022 This special edition of History of Universities Volume XXXV 1 studies and reappraises the often ignored history of eighteenth century Oxford caught as it is

between the upheavals of the Stuart century and the reformation of the Victorian era *The Mental Universe of the English Nonjurors* John William Klein, 2021-09-21 The Glorious Revolution of 1688 which pushed James II from the throne of England was not glorious for everyone in fact for many it was a great disaster Those who had already taken an oath of allegiance to James II and to his heirs and lawful successors now pondered how they could take a second oath to William and Mary Those who initially refused to swear the oaths were called Nonjurors In 1691 Archbishop Sancroft eight bishops and four hundred clergy of the Church of England as well as a substantial number of scholars at Oxford and Cambridge were deprived removed from their offices and their license to practice removed The loss of this talent to the realm was incalculable Ten different paradigms shaped the English Nonjurors worldview Passive Obedience was paramount the Apostolic Succession essential a Cyprianist mentality colored everything they held a conscientious regard for oaths the Usages Controversy brought Tradition to the fore printing presses replaced lost pulpits patronage was a means of protection and proliferation they lived with a hybridized conception of time creative women spiritual writers complemented male bishops and a global ecumenical approach to the Orthodox East was visionary These ten operated synergistically to create an effective tool for the Nonjurors survival and success in their mission The Nonjurors influence out of all proportion to their size was due in large measure to this mentality Their unique circumstances prompted creative thinking and they were superb in that endeavor These perspectives constituted the infrastructure of the Nonjurors world and they help us to see the early eighteenth century not only as a time of rapid change but also as an era of persistent older religious mentalities adapted to new circumstances

The Destruction of the Christian Tradition, Updated and Revised Rama P. Coomaraswamy, 2006-01-27

Concentrating on the post Vatican II revisions of its teachings this book tells the story of the destruction of the Roman Catholic tradition a defining event of the twentieth century Catholic Devotion in Victorian England Mary Heimann, 1995 Heimann offers a controversial analysis of the influence of long established recusant devotions and attitudes in the new context of the reestablishment of Roman Catholicism in England from the mid nineteenth century **The Tory World**

Jeremy Black, 2016-03-03 Political decisions are never taken in a vacuum but are shaped both by current events and historical context In other words long term developments and patterns in which the accumulated memory of what came earlier can greatly and sometimes subconsciously influence subsequent policy choices Working forward from the later seventeenth century this book explores the deep history of the changing and competing understandings within the Tory party of the role Britain has aspired to play on a world stage Conservatism has long been one of the major British political tendencies committed to the defence of established institutions with a strong sense of the national interest and embracing both liberal and authoritarian views of empire The Tory party has moreover at several times been deeply divided if not convulsed by different perspectives on Britain's international orientation and different positions on foreign and imperial policy Underlying Tory beliefs upon which views of Britain's global role were built were often not stated but assumed As a result they tend to

be obscured from historical view This book seeks to recover and reconsider those beliefs and to understand how the Tory party has sought to navigate its way through the difficult pathways of foreign and imperial politics and why this determination outlasted Britain's rapid decolonisation and was apparently remarkably little affected by it With a supporting cast from Pitt to Disraeli Churchill to Thatcher the book provides a fascinating insight into the influence of history over politics Moreover it argues that there has been an inherent politicisation of the concept of national interests such that strategic culture and foreign policy cannot be understood other than in terms of a historically distorted political debate

The Church's Worship Thaddaeus A. Schnitker, 2009-11-01 **A Bibliography of British History, 1914-1989** Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index *Edward Bouverie Pusey and the Oxford Movement* Rowan Strong, Carol Engelhardt Herringer, 2012-10-15 The Oxford Movement initiating what is commonly called the Catholic Revival of the Church of England and of global Anglicanism more generally has been a perennial subject of study by historians since its beginning in the 1830s But the leader of the movement whose name was most associated with it during the nineteenth century Edward Bouverie Pusey has long been neglected by historical studies of the Anglican Catholic Revival This collection of essays seeks to redress the negative and marginalizing historiography of Pusey and to increase current understanding of both Pusey and his culture The essays take Pusey's contributions to the Oxford Movement and its theological thinking seriously most significantly they endeavour to understand Pusey on his own terms rather than by comparison with Newman or Keble The volume reveals Pusey as a serious theologian who had a significant impact on the Victorian period both within the Oxford Movement and in wider areas of church politics and theology This reassessment is important not merely to rehabilitate Pusey's reputation but also to help our current understanding of the Oxford Movement Anglicanism and British Christianity in the nineteenth century *The Oxford Dictionary of the Christian Church* Andrew Louth, 2022-02-17 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable reference work on all aspects of the Christian Church It contains over 6 500 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject from theology churches and denominations patristic scholarship and the bible to the church calendar and its organization popes archbishops other church leaders saints and mystics In this new edition great efforts have been made to increase and strengthen coverage of non Anglican denominations for example non Western European Christianity as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe In particular there have been extensive additions with regards to the Christian Church in Asia Africa Latin America North America and Australasia Significant updates have also been included on topics such as liturgy Canon Law recent international developments non

The Papacy in the Age of Totalitarianism, 1914-1958 John Pollard, 2014-10-30 The Papacy in the Age of Totalitarianism 1914 1958 examines the most momentous years in papal history Popes Benedict XV 1914 1922 Pius XI 1922 1939 and Pius XII 1939 1958 faced the challenges of two world wars and the Cold War and threats posed by totalitarian dictatorships like Italian Fascism German National Socialism and Communism in Russia and China The wars imposed enormous strains upon the unity of Catholics and the hostility of the totalitarian regimes to Catholicism lead to the Church facing persecution and martyrdom on a scale similar to that experienced under the Roman Empire and following the French Revolution At the same time these were years of growth development and success for the papacy Benedict healed the wounds left by the modernist witch hunt of his predecessor and re established the papacy as an influence in international affairs through his peace diplomacy during the First World War Pius XI resolved the Roman Question with Italy and put papal finances on a sounder footing He also helped reconcile the Catholic Church and science by establishing the Pontifical Academy of Sciences and took the first steps to move the Church away from entrenched anti-Semitism Pius XI continued his predecessor's policy of the indigenisation of the missionary churches in preparation for decolonisation Pius XII fully embraced the media and other means of publicity and with his infallible promulgation of the Assumption in 1950 he took papal absolutism and centralism to such heights that he has been called the last real pope Ironically he also prepared the way for the Second Vatican Council
