American Culture, American Tastes Michael Kammen,2012-10-03 Americans have a long history of public arguments about taste the uses of leisure and what is culturally appropriate in a democracy that has a strong work ethic Michael Kammen surveys these debates as well as our changing taste preferences especially in the past century and the shifting perceptions that have accompanied them Professor Kammen shows how the post traditional popular culture that flourished after the 1880s became full blown mass culture after World War II in an era of unprecedented affluence and travel He charts the influence of advertising and opinion polling the development of standardized products shopping centers and mass marketing the separation of youth and adult culture the gradual repudiation of the genteel tradition and the commercialization of organized entertainment He stresses the significance of television in the shaping of mass culture and of consumerism in its reconfiguration over the past two decades Focusing on our own time Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen As a result of this diminution of cultural authority he says definitive pronouncements have been replaced by divergent points of view and there is as well a tendency to blur fact and fiction reality and illusion An important commentary on the often conflicting ways Americans have understood defined and talked about their changing culture in the twentieth century

**Cannibal Tours and Glass Boxes** Michael M. Ames, 2010-10-01. *Cannibal Tours and Glass Boxes* poses a number of probing questions about the role and responsibility of museums and anthropology in the contemporary world. In it, Michael Ames, an internationally renowned museum director, challenges popular concepts and criticisms of museums and presents an alternate perspective which reflects his experiences from many years of museum work. Based on the author's previous book *Museums the Public and Anthropology*, the new edition includes seven new essays which argue, as in the previous volume, that museums and anthropologists must contextualize and critique themselves; they must analyse and critique the social, political, and economic systems within which they work. In the new essays, Ames looks at the role of consumerism and the market economy in the production of such phenomena as world fairs and McDonald's hamburger chains, referring to them as museums of everyday life and indicating the way in which they like museums transform ideology into commonsense, thus reinforcing and perpetuating hegemonic control over how people think about and represent themselves. He also discusses the moral, political ramifications of conflicting attitudes towards Aboriginal

art is it art or artifact censorship is it liberating or repressive and museum exhibits are they informative or disinformative The earlier essays outline the development of museums in the Western world the problems faced by anthropologists in attempting to deal with the often conflicting demands of professional as opposed to public interests the tendency to both fabricate and stereotype and the need to establish a reciprocal rather than exploitative relationship between museums anthropologists and Aboriginal people Written during the course of the last decade these essays offer an accessible often anecdotal journey through one professional anthropologist s concerns about and hopes for his discipline and its future
