and at what points that process is weighted against complainants of sexual assault in order to make evidence based suggestions for reform She argues that this justice gap is a result of a moralisticadversarial culture which fosters myths and misconceptions about rape and child sexual assault thus requiring the prosecution to prove a complainant s moral worthiness She argues this culture can only be eliminated by a radical replacement of the adversarial system with a trauma informed system By reviewing the relevant psychological literature this book documents the triggers for re traumatisation within an adversarial trial and discusses the reform measures that would be necessary to transform the sexual assault trial from one where the complainant s moral worthiness is on trial to a fully functioning trauma informed system It speaks to students and academics across subjects including law criminology gender studies and psychology and practitioners in law and victim services as well as policy makers

**The New Philosophy of Criminal Law** Chad Flanders,Zachary Hoskins,2015-12-16 There is no more vivid example of a state s power over its citizens than the

criminal law By criminalizing various behaviours the state sets boundaries on what we can and cannot do And the criminal law is in many ways unique in the harshness of its sanctions But traditional criminal law theory has for too long focussed on the questions what is a crime and what is the justification of punishment The significance of the criminal law extends beyond these questions indeed critical philosophical questions underlie all aspects of the criminal justice system The criminal law engages us not just as offenders or potential offenders but also as victims suspects judges and jurors prosecutors and defenders and as citizens The authors in this volume go beyond traditional questions to challenge our conventional understandings of the criminal law In doing so they draw from a number of disciplines including philosophy history and social science

**Child Pornography** Alisdair A. Gillespie, 2012-02 Child Pornography Law and Policy draws on interdisciplinary work in order to critically address the law relating to child pornography Child pornography is recognized as a specific form of child abuse and there are now many national and international efforts to tackle it Yet despite these efforts the volume of child pornography particularly on the internet is increasing The law has reacted to this situation by adapting its definitions increasing sentences and providing new powers to law enforcement It is however unclear how far the law should extend What should the relationship be between criminalization and free speech Is there a link between the use of child pornography and contact offending The issue of child pornography has been the subject of considerable literature in the areas of psychology sociology and psychiatry These studies provide the basis for a greater understanding of the nature of child pornography as well as the profiles and behaviour of those who access or produce such material Child Pornography Law and Policy brings this wider literature to bear on the legal and policy frameworks relating to child pornography questioning both the appropriateness and the effectiveness of the law in this context

**Landmark Cases in Criminal Law** Philip Handler, Henry Mares, Ian Williams, 2017-05-04 Criminal cases raise difficult normative and legal questions and are often a consequence of compelling human drama In this collection expert authors place leading cases in criminal law in their historical and legal contexts highlighting their significance both in the past and for the present The cases in this volume range from the fifteenth to the twenty first century Many of them are well known to modern criminal lawyers and students others are overlooked landmarks that deserve reconsideration The essays often based on extensive and original archival research range over a wide spectrum of criminal law covering procedure and doctrine statute and common law individual offences and general principles Together the essays explore common themes including the scope of criminal law and criminalisation the role of the jury and the causes of change in criminal law

**Criminal Sentencing as Practical Wisdom** Graeme Brown, 2017-06-01 How do judges sentence In particular how important is judicial discretion in sentencing Sentencing guidelines are often said to promote consistency but is consistency in sentencing achievable or even desirable Whilst the passing of a sentence is arguably the most public stage of the criminal justice process there have been few attempts to examine judicial perceptions of and attitudes towards the sentencing process Through interviews with Scottish

judges and by presenting a comprehensive review and analysis of recent scholarship on sentencing including a comparative study of UK Irish and Commonwealth sentencing jurisprudence this book explores these issues to present a systematic theory of sentencing Through an integration of the concept of equity as particularised justice the Aristotelian concept of phronesis or practical wisdom the concept of value pluralism and the focus of appellate courts throughout the Commonwealth on sentencing by way of instinctive synthesis it is argued that judicial sentencing methodology is best viewed in terms of a phronetic synthesis of the relevant facts and circumstances of the particular case The author concludes that sentencing is best conceptualised as a form of case orientated concrete and intuitive decision making one that seeks individualisation through judicial recognition of the profoundly contextualised nature of the process **Smith, Hogan, and Ormerod's**

**Criminal Law** David C. Ormerod, David Ormerod, Karl Laird, 2021 Rightly regarded as the leading doctrinal textbook on criminal law in England and Wales this resource owes its consistent popularity to its accessible style depth of analysis and breadth of coverage Over 50 years since the publication of the first edition Professor David Ormerod and Karl Laird continue the tradition set down by Professors Sir John Smith and Brian Hogan by producing a textbook of unrivalled quality

**Managing Fear** Bernadette McSherry, 2013-10-23 Managing Fear examines the growing use of risk assessment as it relates to preventive detention and supervision schemes for offenders perceived to be at a high risk of re offending individuals with severe mental illness and suspected terrorists It outlines a number of legislative regimes in common law countries that have broadened civil as opposed to criminal powers of detention and supervision Drawing on the disciplines of criminology and social psychology it explores how and why such schemes reflect a move towards curtailing liberty before harm results rather than after a crime has occurred Human rights and ethical issues concerning the role of mental health practitioners in assessing risk for the purposes of preventive detention and supervision are explored and regimes that require evidence from mental health practitioners are compared with those that rely on decision makers notions of reasonable belief concerning the risk of harm Case studies are used to exemplify some of the issues relating to how governments have attempted to manage the fear of future harm This book aims to educate mental health practitioners in the law relating to preventive detention and supervision schemes and how the legal requirements differ from clinical assessment practices examine the reasons why there has been a recent renewal of preventive detention and supervision schemes in common law countries provide a comparative overview of existing preventive detention and supervision schemes and analyse the human rights implications and the ethics of using forensic risk assessment techniques for preventive detention and supervision schemes **Feminist Perspectives on Criminal Law** Lois Bibbings, Donald Nicolson, 2013-03-04 Criminal law has traditionally been taught and analysed as if the gender of criminals and their victims is irrelevant It has also been taught and analysed as if criminal law doctrine has no connection with questions of criminalisation crime detection decisions to charge and prosecute lawyers trial tactics decisions as to guilt and sentencing policy and practice all of which are significantly affected

by gender This book seeks to fill these gaps by looking at the major areas in which gender affects the way that suspected criminals and their victims are treated by the criminal justice system However this book is not just a supplement to traditional criminal law discourse It is a dangerous supplement in that the focus on gender challenges laws claim to neutrality and even handed justice The essays in this book establish that not only does the law frequently fail to offer women the sort of protection from male violence and sexual invasion that they need but it continues to discriminate on grounds of gender Even when discriminating in favour of women it does so in ways that reinforce dangerous gender stereotypes More specifically both criminal law doctrine and criminal justice personnel apply and reinforce ideas on the one hand of female passivity irrationality and proneness to illness and on the other of natural male aggression both physical and sexual
