holistic manner which has rarely before been attempted in a full report on the excavation of a Romano Egyptian house The primary aim of this volume is to combine an architectural and material based study with an explicitly contextual and theoretical analysis In so doing it develops a methodology and presents a case study of how the rich material remains of Romano Egyptian houses may be used to investigate the relationship between domestic remains and social identity **The Architecture and Material Culture of 29SJ1360, Chaco Canyon, New Mexico** Peter J.
