## **Rooted In The Land Essays On Community And Place:**

**Rooted in the Land** William Vitek, Wes Jackson, 1996-01-01 This book is dedicated to the notion that human lives are enriched by participation in a social community that is integrated into the natural landscape of a particular place The writers explore the loss of community the philosophical foundations of communities Amish communities and the current renewal of community life

**The Church and the Crisis of Community** Theresa F. Latini, 2011 Contemporary society is in crisis its structures broken and fragmented and its people overstimulated overstressed and thirsty for true communion with the sacred and with one another Yet although more than eighty five percent of congregations in the United States conduct small group ministry too many of these groups begin with no clear sense of purpose structure or spiritual focus and end by veering away from Christian tradition and unknowingly settling for shallow versions of popular Christianity In *The Church and the Crisis of Community* Theresa Latini lays out both a theoretical groundwork and a practical guideline for successful small group ministry Examining the latest sociological research and the real life practices of small groups in six congregations she shows how well developed groups those with mission statements leadership training and solid organizational structure can be a truly effective tool in the church's work of transforming broken and shallow forms of community into life giving life sustaining relationships with God and others

*The Essential Agrarian Reader* Norman Wirzba, 2003-01-01 Combining insights from the disciplines of education law history urban and regional planning economics philosophy religion ecology politics and agriculture these essays develop a sophisticated critique of modern culture's relationship with the land while offering practical alternatives

**Liberal Learning and the Art of Self-Governance** Emily Chamlee-Wright, 2015-11-19 Concerns over affordability and accountability have tended to direct focus away from the central aims of liberal learning such as preparing minds for free inquiry and inculcating the habits of mind practical skills and values necessary for effective participation in civil society The contributors to this volume seek to understand better what it is that can be done on a day to day basis within institutions of liberal learning that shape the habits and practices of civil society The central argument of this volume is that institutions of liberal learning are critical to a developing and flourishing civil society It is within these civil society incubators that the habits of open discourse are practiced and honed that a collaborative often contentious commitment to truth seeking serves as the rules that govern our work together that the rules of personal and widespread social cooperation are established practiced and refined Many have made this argument as it relates to community based learning and we explore that theme here as well But acquiring and practicing the habits of civil society recur within and throughout the college context in the classrooms in college governance structures in professional associations in collaborative research in the residence halls and on the playing field To put it another way when they are at their best institutions of liberal learning are contexts in which students learn how to live in a free society and learn the art of self governance

*Narnia and the Fields of Arbol* Matthew Dickerson, David O'Hara, 2008-12-19 An exploration of the Chronicles

of Narnia and the Space Trilogy that enriches our understanding of how to care for our world Alan Jacobs author of *Breaking Bread with the Dead* In Narnia and the Fields of Arbol The Environmental Vision of C S Lewis authors Matthew Dickerson and David O Hara illuminate an important yet overlooked aspect of the author s visionary work They go beyond traditional theological discussions of Lewis s writing to investigate themes of sustainability stewardship of natural resources and humanity s relationship to wilderness The authors examine the environmental and ecological underpinnings of Lewis s work by exploring his best known works of fantasy including the seven books of the Chronicles of Narnia and the three novels collectively referred to as the Space Trilogy Taken together these works reveal Lewis s enduring environmental concerns and Dickerson and O Hara offer a new understanding of his pioneering style of fiction Narnia and the Fields of Arbol the first book length work on the subject finds the author s legacy to have as much in common with the agrarian environmentalism of Wendell Berry as it does with the fantasy of J R R Tolkien In an era of increasing concern about deforestation climate change and other environmental issues Lewis s work remains as pertinent as ever The widespread adaption of his work in film lends credence to the author s staying power as an influential voice in both fantastical fiction and environmental literature With Narnia and the Fields of Arbol Dickerson and O Hara have written a timely work of scholarship that offers a fresh perspective on one of the most celebrated authors in literary history Both revelatory and a pleasure to read Robert Siegel award winning author of *The Whalesong Trilogy* *Sharing the Harvest* Elizabeth Henderson, Robyn Van En, 2007 Looks at partnerships between local small farms and nearby consumers who become members or subscribers in support of the farm offering advice on acquiring land organizing handling the harvest and money and legal matters **The Earth Only Endures** Jules Pretty, 2012-05-04 A blend of clear eyed science and poetic eloquence The Earth Only Endures follows in the tradition of Jared Diamond and E O Wilson Jules Pretty too is hopeful but on the condition that we understand the nature of the self imposed threats to our future and the rational basis for human survival To say that this is essential reading is rather like saying that a compass is essential to navigation David W Orr author of *Design on the Edge* Jules Pretty s remarkable new book is both universal and parochial by turn and beautifully written It is a philosophical inventory of what we have recentl

**Seeds of the Kingdom** Anna L. Peterson, 2005-11-17 In these skeptical and disillusioned times there are still groups of people scattered throughout the world who are trying to live out utopian dreams These communities challenge the inevitability and morality of dominant political and economic models By putting utopian religious ethics into practice they attest to the real possibility of social alternatives In *Seeds of the Kingdom* Anna L Peterson reflects on the experiences of two very different communities one inhabited by impoverished former refugees in the mountains of El Salvador and the other by Amish farmers in the Midwestern U S What makes these groups stand out among advocates of environmental protection political justice and sustainable development is their religious orientation They aim without apology to embody the reign of God on earth The Salvadoran community is grounded in Roman Catholic social thought while the Amish adhere to Anabaptist

tradition Peterson offers a detailed portrait of these communities history social organization religious life environmental values and agricultural practices She discovers both practical and ideological commonalities in these two comparatively successful and sustainable communities including a strong collective identity deep attachment to local landscapes a desire to preserve non human as well as human lives and perhaps unexpectedly a utopian horizon that provides both goals and the hope of reaching them By examining the process by which people struggle to live according to a transcendent value system she sheds light on both the actual and the potential place of religion in public life Peterson argues that the Amish and Salvadoran communities geographically and culturally removed from the industrialized West have relevance for the political and environmental problems of the developed world These communities have succeeded in the face of significant internal and external challenges offering important practical and theoretical lessons on how to achieve ecological sustainability and social justice in the wider world

*From the Farm to the Table* Gary Holthaus,2014-04-23 A portrait of the realities of agricultural life in today s world based on interviews with more than forty farm families In this book dozens of farm families from America s heartland detail the practices and values that relate to their land work and communities Their stories reveal that those who make their living in agriculture despite stereotypes of provincialism perpetuated by the media are savvy to the influence of world politics on local issues Gary Holthaus demonstrates how outside economic governmental legal and business developments play an increasingly influential if not controlling role in every farmer s life The swift approval of genetically modified crops by the federal government the formation of huge agricultural conglomerates and the devastating environmental effects of chemical fertilizers pesticides and herbicides are just a few issues buffeting family farms From the Farm to the Table explores farmers experiences to offer a deeper understanding of how we can create sustainable and vibrant land based communities by adhering to fundamental agrarian values Tells the story of modern agriculture through engaging interviews with men and women who make a living farming in southeastern Minnesota In a tone reminiscent of Wendell Berry s *A Place on Earth* he examines the far reaching effects of genetically modified organisms free trade agreements that nurture transnational corporate profit dependence on fossil fuel derived chemicals and the toll all this has taken on the land and farmers Library Journal

*Civic Communion* David E. Procter,2006-05-12 Blending theory and case studies Civic Communion looks at community building in rural America and how civic minded people come together through a variety of ways such as hosting and attending festivals addressing conflict planning the community and maintaining heritage mu

**Conversations In The Rainforest** Richard Peterson,2019-03-06 A rich interdisciplinary study of Central African land ethics incorporating conversations with local rainforest inhabitants that yield vibrant new insights into the dilemmas of sustaining Africa s rainforests and its people In *Conversations in the Rainforest* Richard B Peterson combines interdisciplinary research and intimate first hand convers

*Community Social Work Practice in an Urban Context* Melvin Delgado,1999-09-16 Community social work practice based on a capacity enhancement model offers tremendous potential for

unifying communities consisting of groups from very different cultural backgrounds and in the process of doing so make physical changes in the community Community Social Work Practice in An Urban Context aims to teach graduate students with an emphasis on community and urban social work how to create positive community environments in marginalized urban based communities The use of murals gardens playgrounds and sculptures for example provide social workers with an opportunity to identify engage and plan services with communities These projects in turn are based upon a community s strengths and represent an effort at developing a community s capacity to help itself with assistance from professionals

Community Practice in the Network Society Peter Day,Douglas Schuler,2004 Community Practice in the Network Society looks at the broad context in which this is happening presents case studies of local projects from around the world and discusses community ICT research methodologies **Plan C** Pat Murphy,2008-06-01 A sustainability expert goes beyond renewables calling on us to combat the climate crisis with a new low energy way of life Concerns over climate change and energy depletion are increasing exponentially Mainstream solutions still assume that some miracle will cure our climate ills without requiring us to change our energy intensive lifestyle But switching from fossil fuels to renewable energy sources isn t enough We need a Plan C In response to the converging crises of Peak Oil climate change and increasing inequity sustainability expert Pat Murphy offers an inspiring vision of community and curtailment Where cooperation replaces competition we can deliberately reduce consumption of consumer goods Plan C shows how each person s individual choices can dramatically reduce CO2 emissions offering specific strategies in the areas of food transportation and housing Food & Faith Michael Schut,2010-05 From the creator of the bestseller Simpler Living Compassionate Life A Christian Perspective comes Food Faith Food is itself a joyful gift recall how the gift of food so often mediates the sanctity and preciousness of life This collection of reflections by Wendell Berry Bill McKibben Elizabeth Johnson Alan Durning and others helps you start thinking about the moral spiritual and economic implications of eating Readings focus on the enjoyment and spirituality of good food ways in which eating connects us to the land and to each other and on the economic environmental and cultural impacts of daily food choices Food Faith includes an eight week study guide for groups or individuals which leads to action setting a table that is healthy joyful and just *Participatory Governance* W. Robert Lovan,Michael Murray,Ron Shaffer,2017-03-02 In recent years a new participatory governance dynamic has been redefining relationships and responsibilities in the planning and implementation of policies and programs Participatory governance not only crosses public private and associational sectors but is also intra organizational It allows for individual and collective participation and challenges longstanding norms of institutional behavior This book examines fresh evidence relating to planning conflict mediation and public decision making processes in civil society by bringing together a multi disciplinary team of practitioners and scholars from North America Europe Africa and Australia In an analysis which spans institutional perspectives and operational concerns the contributors explore the dynamics of stakeholder involvement as deliberative processes constructed

around the core idea of shared responsibility The book draws out important principles as to how this diversity of engagement can translate itself into more effective public decision making
