Roots Of A Black Future Family And Church:

Roots of a Black Future J. Deotis Roberts, 2008-06-30 A vital look at the nature destiny and mission of the black family and the black church today Roots of a Black Future Family and Church seeks to continue a discussion revolving around families and church in the black experience both to their symbolic and actual relationship It explores the deeper meaning of church as family and family as church Grounded in the context of black families and churches within American society this book also acknowledges that black communities are affected by society as a whole a society largely controlled by the white community But those societal circumstances do not control or determine how the black community unites The book s main focus is upon the nature destiny and mission of black families and churches in this country in the hopes of unifying these two parts of life *Roots of a Black Future* James Deotis Roberts, 1980 *Women, Knowledge, and Reality* Ann Garry, Marilyn Pearsall, 2015-07-17 This second edition of *Women Knowledge and Reality* continues to exhibit the ways in which feminist philosophers enrich and challenge philosophy Essays by twenty five feminist philosophers seventeen of them new to the second edition address fundamental issues in philosophical and feminist methods metaphysics epistemology and the philosophies of science language religion and mind body This second edition expands the perspectives of women of color of postmodernism and French feminism and focuses on the most recent controversies in feminist theory and philosophy The chapters are organized by traditional fields of philosophy and include introductions which contrast the ideas of feminist thinkers with traditional philosophers The collected essays illustrate both the depth and breadth of feminist critiques and the range of contemporary feminist theoretical perspectives *The African American Experience* Arvarh E. Strickland, Robert E. Weems Jr., 2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed *Making Black Los Angeles* Marne L. Campbell, 2016-09-27 *Black Los Angeles* started small The first census of the newly formed Los Angeles County in 1850 recorded only twelve Americans of African descent alongside a population of more than 3 500 Anglo Americans Over the following seventy years however the African American founding families of Los Angeles forged a vibrant community within the increasingly segregated and stratified city In this book historian Marne L Campbell examines the intersections of race class and gender to produce a social history of community formation and cultural expression in Los Angeles Expanding on the traditional narrative of middle class uplift Campbell demonstrates that the black working class largely through the efforts of women fought to secure their own economic and social freedom by forging communal bonds

with black elites and other communities of color This women led black working class agency and cross racial community building Campbell argues was markedly more successful in Los Angeles than in any other region in the country Drawing from an extensive database of all African American households between 1850 and 1910 Campbell vividly tells the story of how middle class African Americans were able to live work and establish a community of their own in the growing city of Los Angeles

The Cambridge Companion to Black Theology Dwight N. Hopkins,Edward P. Antonio,2012-07-26 A comprehensive look at black theology and its connection with major doctrinal themes within Christianity from a global perspective

From Strength to Strength Robert London Smith,2007 Drawing on his experience as a member of the clergy and the questions and concerns that arose in the course of ministering to congregants Robert London Smith Jr explores exactly what function the black church performs and importantly why In this provocative work he argues that much black church praxis is less authentic relevant and constructive today because it continues to be implicated by certain values and meanings that are themselves rooted in a historical black thematic universe that is fading and being replaced by a new set of values and meanings located within a contemporary black thematic universe Using a practical theology method Smith develops a theological framework context praxis to create an approach to understanding and creating an informed praxis for the black church He then sets forth a bold project that calls for the critical engagement of black church praxis and what he calls the black thematic universe in its historical and contemporary manifestations The goal is to transform this praxis so that it remains authentic to the Gospel and the religious traditions and history of those who come to interpret and live out its message in the world while being relevant to the issues and challenges of the present historical context in which the black church lives out its meaning and purpose and constructive for the building up and equipping of the Body of Christ Smith s creation of a black existential and theological hermeneutic is an approach that moves toward the realization of this ambitious goal This book challenges many traditional views of black church praxis including pastoral care worship and fellowship and creates a space for a renewed and much needed dialogue about the acts of the black church within contemporary America As such it is an important text for students of practical theology and African American religion as well as those interested in developing a critical understanding of the implications of the intersection of faith and culture

Theology for a Violent Age Woody Carter, PhD, 2010-12-28 Any politician or pundit will agree we live in a violent and dangerous age Our pent up anger and rage fills our households and spills over into our neighborhoods and streets leaving African American families who live in poverty and with limited capability to ward off shame and self contempt as its unfortunate victims **ADVANCED PRAISE FOR THEOLOGY FOR A VIOLENT AGE** There are many ideas in this little volume and they are meaningful They set the stage for an interpretation of certain African American youth and by implication other youth who are similarly situated in American Society **ARCHIE SMITH Jr PhD** James and Clarice Foster Professor of Pastoral Psychology and Counseling Pacific School of Religion In attempting to uncover the self knowledge of African American people as reflected in Black dramatic literature as conviction or secular theology Woody Carter simultaneously reveals the dominant forces that influence Black life and the critical necessity to stand on our own African cultural ground All Black

Our Southern Zion Erskine Clarke,2014-08-15 An exploration of the ways a particular religious tradition and a distinct social context have interacted over a 300 year period including the unique story of the oldest and largest African American Calvinist community in America The South Carolina low country has long been regarded not only in popular imagination and paperback novels but also by respected scholars as a region dominated by what earlier historians called a cavalier spirit and by what later historians have simply described as a wholehearted devotion to amusement and the neglect of religion and intellectual pursuits Such images of the low country have been powerful interpreters of the region because they have had some foundation in social and cultural realities It is a thesis of this study however that there has been a strong Calvinist community in the Carolina low country since its establishment as a British colony and that this community including in its membership both whites and after the 1740s significant numbers of African Americans contradicts many of the images of the received version of the region Rather than a devotion to amusement and a neglect of religion and intellectual interests this community has been marked throughout most of its history by its disciplined religious life its intellectual pursuits and its work ethic *Leading the Race* Jacqueline M. Moore,1999 Moore reevaluates the role of this black elite by examining how
