Roots of Character Wendell Smith,1994-01-01 *The Roots of Character* Antonio L. McDaniel,2011-10-25 The most elaborate and impressive building built with the highest quality materials will not stand if its foundation is weak Like wise before a hurricane there is comfort in the strength of design and construction Similarly large trees with huge trunks can be toppled due to shallow roots People are no different unless your roots are well developed then the storms of life may have you blowing in the wind or cracking under pressure The Roots of Character details this development process to help individuals create and maintain a stable and productive life Additionally this book includes character development exercises that will allow you to discover who you are while simultaneously documenting who you want to become These exercises are thought provoking and will give you a personal revelation about why you do what you do more importantly it will start you on the path to do what you need you to do to maintain a lifestyle of development [The Roots of Character](#) Wendell Smith,1987-01-01 [The Roots of Character](#) Wendell Smith,Gini Smith,1980 **The History and Character of Calvinism** John Thomas McNeill,1923 This is a masterful historical portrait of the whole movement of Calvinism for general readers and scholars alike *The Country Church and Its Program* Earl A. Character Assassination Jason Jay Smart,2019-06-26 In the contemporary world that is ever more complex and interdependent international relations take place within the permanent confrontation of states we are witnessing the more frequent use of character assassination as a common tactic of international politics After examining how character assassination has been used in the historic context and continues to be used in daily life especially in politics this book delves into how international actors have used diverse tools to defame political leaders in different countries Of the many current examples are the numerous attacks on US President Donald Trump those against Russian President Vladimir Putin and other political leaders in France Great Britain etc As today s news shows that the increasingly popular and effective mechanism for defamation is via electronic media resources such as Twitter Facebook etc through which hearty attacks on individuals are commonly conducted transnationally It is worth noting that though the instruments of character assassination may differ as time passes some tropes have existed for many generations Today there is an entire industry built around finding humor in attacks or the multitude of video materials that have the purpose of attacking and destroying the reputation of political leaders in the international arena Importantly this book thoroughly reviews common character assassination tactics and strategies which can be applied in a variety of contexts outside of international politics By understanding the genesis of character attacks and how the target of an attack should best react in defending themselves the reader will be able to apply these lessons to a wide variety of settings outside of politics expanding to the realms of business academia or in day to day life This is the first in depth research book ever written on character assassination with a focused study of cases in international politics
