

Arthur Koestler

THE ROOTS OF COINCIDENCE

An Excursion Into Parapsychology

Roots Of Coincidence

Roderick Main

Roots Of Coincidence:

The Roots of Coincidence Arthur Koestler, 1972 Mr Koestler's main concern is with demonstrating that contrary to what one might expect namely that paranormal events are most disturbing because they seem to break what most of us think are the laws of the real world it is precisely modern physics that offers a rapprochement between the real world and parapsychology even if the rapprochement is negative in the sense that the unthinkable phenomena of ESP appear somewhat less preposterous in the light of the unthinkable propositions of physics As Mr Koestler so lucidly and wittily demonstrates modern physics depicts a world of noncausal paradoxes a wonderland of Heisenbergian Principles of Uncertainty of mysterious elementary particles of psi fields anti electrons multi dimensionality and time running forward and backward And unlike Newton's clockwork universe this new world is not at all uncongenial to the dice shooter convinced that he has a hot hand or the sensitive who insists that his dreams are premonitory by Christopher Lehmann Haupt New York Times August 11 1972 *The Roots of Coincidence* Arthur Koestler, 1972 *The Many Faces of Coincidence* Laurence Browne, 2017-11-10 Although much has been said and written about coincidences there is a marked absence when it comes to the development of a comprehensive model that incorporates the many different ways in which they can be understood and explained One reason for this omission is undoubtedly the sharp divide that exists between those who find coincidences meaningful and those who do not with the result that the conclusions of the many books and articles on the subject have tended to fall into distinct camps *The Many Faces of Coincidence* attempts to remedy this impasse by proposing an inclusive categorisation for coincidences of all shapes and sizes At the same time some of the implications arising from the various explanations are explored including the possibility of an underlying unity of mind and matter constituting the ground of being

Demystifying Meaningful Coincidences (Synchronicities) Gibbs A. Williams, 2010-02-15 *Demystifying Meaningful Coincidences Synchronicities The Evolving Self the Personal Unconscious and the Creative Process* offers an original theory of the nature of meaningful coincidences synchronicities and their practical use from a naturalistic nonsupernatural and non Jungian perspective The findings are the outgrowth of Gibbs A Williams's forty year investigation both as a professional observer of some of his synchronicity prone patients receiving psychoanalytic psychotherapy as well as of his own intimate experience of these intellectually challenging and emotionally powerful occurrences His naturalistic perspective is in marked contrast to the findings of Jung and his followers who view these odd events as channeled messages from a transcendent realm of spiritual reality Instead Williams concludes that meaningful coincidences are the surface manifestations of an individual's unique creative process accommodating the best available resolution of a problem for a person initially feeling stuck in a seemingly intractable dilemma While his analysis robs the magic associated with only reacting to the numinous uncanny aura associated with synchronicities it nevertheless affirms a wondrous appreciation for the creative capacities of each person to order his or her own chaos Readers are treated to a rich mine of historical data novel concepts and theoretical

insights drawn from speculative philosophy depth psychology and esoteric occult and spiritual traditions and they are shown how to decode their own synchronicities in order to be able to use their embedded messages for increased self awareness cohesiveness and expanding consciousness

The Improbability Principle David J. Hand, 2014-02-11 In *The Improbability Principle* the renowned statistician David J Hand argues that extraordinarily rare events are anything but In fact they re commonplace Not only that we should all expect to experience a miracle roughly once every month But Hand is no believer in superstitions prophecies or the paranormal His definition of miracle is thoroughly rational No mystical or supernatural explanation is necessary to understand why someone is lucky enough to win the lottery twice or is destined to be hit by lightning three times and still survive All we need Hand argues is a firm grounding in a powerful set of laws the laws of inevitability of truly large numbers of selection of the probability lever and of near enough Together these constitute Hand s groundbreaking Improbability Principle And together they explain why we should not be so surprised to bump into a friend in a foreign country or to come across the same unfamiliar word four times in one day Hand wrestles with seemingly less explicable questions as well what the Bible and Shakespeare have in common why financial crashes are par for the course and why lightning does strike the same place and the same person twice Along the way he teaches us how to use the Improbability Principle in our own lives including how to cash in at a casino and how to recognize when a medicine is truly effective An irresistible adventure into the laws behind chance moments and a trusty guide for understanding the world and universe we live in *The Improbability Principle* will transform how you think about serendipity and luck whether it s in the world of business and finance or you re merely sitting in your backyard tossing a ball into the air and wondering where it will land

Psychology and the Paranormal David F. Marks, 2020-06-08 The field of research on the paranormal has changed enormously in the last 20 years Examining experiences of ESP psychokinesis precognition ganzfeld dissociative states out of the body experiences alien abductions and near death experiences David Marks appraises the best available evidence to date on scientific claims of the paranormal Each chapter also provides a description of the psychological processes that are likely to contribute to these experiences and to the high prevalence of paranormal beliefs Importantly this book does not take a fixed sceptical or disbelieving view of the phenomena but as far as possible offers a neutral gaze which will equip readers to make up their own minds as well as providing them with the critical skills to defend their conclusions

Showdown at Big Sandy Greg Doudna, 2006-10-01 Inside story of Herbert Armstrong s Worldwide Church of God as told by a student at the church run Ambassador College Big Sandy Texas 1972 75 Story of youthful naivete and creativity in a world of biblical fundamentalism Difficult to put down Mac Overton *The Journal* It s priceless Gavin Rumney *Ambassador Watch*

Transformational analysis in practice: Music-analytical studies on composers and musicians from around the world Bozhidar Chapkanov, 2024-01-16 Transformational analysis in practice is a Must Have for everyone working in the field or aspiring to develop their music analytical and theoretical skills in transformational theory This co authored book puts

together a plethora of analytical studies diverse both in the repertoires covered and the methodologies employed It is a much needed anthology in this sub field of music analysis which has been developing and growing in recent years reaching ever wider outlets in English speaking countries and beyond from dedicated conference panels to YouTube videos The book is divided into four parts based on the repertoires under discussion Part I encompasses four analytical studies on familiar composers from the European Romanticism of the nineteenth century Part II analyzes the music of less familiar composers from Brazil and Turkey Part III offers four contrasting ways to adapt the analytical capabilities of neo Riemannian theory to the post tonal music of the twentieth century Catering to the interests of jazz performers and researchers as well as those into popular music production Part IV offers transformational analytical approaches to both notated and improvised jazz emphasizing John Coltrane s performance Providing an invaluable synthesis of a wide range of analytical studies this book will be an essential companion for many musicology students as well as for performers and composers *New*

Developments in Behavioral Research: Theory, Method and Application Barbara C. Etzel, Judith M. LeBlanc, Donald M.

Baer, 2020-09-10 Originally published in 1977 these examples of research and scholarly argument were collected in honor of Professor Sidney W Bijou In the language of academics they constitute a Festschrift a festival of scholarly writing performed to celebrate the career of a person who produced and stimulated others to produce exactly such contributions throughout a long valuable and productive professional history Since 1955 Dr Bijou had worked almost exclusively within the approach variously labelled as the functional analysis of behavior the experimental analysis of behavior operant conditioning or Skinnerian psychology From his point of view it seems clear the first of these labels was the correct one It was the principle of objective direct observable analysis that attracted him **This May Hurt a Bit** Stephen Skyvington, 2019-02-02 Some

painful news Canada no longer has the best health care system in the world How might we fix Canada s health care system Why would we want to What s stopping us from doing so These three questions lie at the heart of this in depth exploration of one of the biggest political and personal issues facing Canadians Skyvington explains why change has to occur in light of the implications of doing nothing and describes how Canadians can and must get involved to save our health care system This *May Hurt a Bit* is meant to provide a blueprint for change once those in charge finally acknowledge the most inconvenient truth namely that Canada s health care system is in poor health Beliefs, Rituals, and Symbols of the Modern World Dean

Miller, 2014-08-01 Learn about the ethereal the other worldly and the unknown of the twentieth and twenty first centuries in this fascinating look at the supernatural in the modern world *What Does That Mean?* Eldon Taylor, 2010-09

Enlightenment is not something that can just be handed to you The closest thing to it that you can receive are thoughts and questions that can lead you inward in the search for meaning *What Does That Mean* is full of thoughts and questions that do just that Some insights you may have thought of and then forgotten and others you may have experienced but simply haven t appreciated An old saying asserts that the value of a book is not in what it says but rather in what it does *What Does That*

Mean is one of those books that will have a lifetime impact on all who read it The book squarely faces the many inconsistencies held in our systems of belief from the sciences to psychic phenomena Eldon Taylor is willing to speak out without reservation and without avoiding any so called sanctities The result is absolutely thought provoking at every level as this work addresses the meaning of life and the ultimate humanness of the human being If you have ever questioned the nature of life the power of the mind unexplained events and other mysteries you will find this book totally riveting Throughout these pages Eldon shares life experiences that will lead you to revelations about your own life Perhaps this book's greatest value is that it assists you in remembering who you really are and thereby places you firmly back on the path to personal enlightenment English writer and poet Joseph Addison said Reading is to the mind what exercise is to the body If that is the case then this book is the perfect workout to enrich your thinking You may not always like what you read but you will always find the depth of thought wholly provocative Jack Chambers' Red and Green Tom Smart,2013-07-01 In 1968 Canadian artist and filmmaker Jack Chambers was diagnosed with leukemia Faced with his own mortality Chambers began a programme of research into the nature of his own immortality From that starting point the artist embarked on a nine year journey that would ultimately take him to the end of his days In his search Chambers consulted many sources philosophers scientists poets priests mystics and clairvoyants Using the metaphor of the complementary colour contrast of red and green Chambers examined life's inherent paradoxes resolutely searching for synthesis What resulted was Red and Green a collage of quotations and ideas a visual and literary mosaic photocopied and diligently pasted into ring binders The manuscript called Red and Green has spent the greater part of its existence closeted in a studio a basement and an archive Today Tom Smart with remarkable care and persistence presents Jack Chambers' Red and Green Chambers' final thoughts on the purpose of the artist in society *Birding and Mysticism Volume 2* George E. Lowe,2009-09-29 In volume 2 of *Birding and Mysticism* Enlightenment Through Bird Watching there is no traditional table of contents rather there are the five main parts and their sections and subsections which contain the substantive ideas and memes of volume 2 followed by six appendices The main thrust of volume 2 concerns the many aspects faces and forms of mysticism religious spiritual rational scientific personal and practical *Arthur Koestler* Frank Day,1987 *Advances in Imaging and Electron Physics* ,2000-06-08 *Advances in Imaging Electron Physics* merges two long running serials *Advances in Electronics* *Electron Physics* and *Advances in Optical Electron Microscopy* The series features extended articles on the physics of electron devices especially semiconductor devices particle optics at high and low energies microlithography image science and digital image processing electromagnetic wave propagation electron microscopy and the computing methods used in all these domains John Constantine, Hellblazer Vol. 21: The Laughing Magician Andy Diggie,Jason Aaron,2019-07-30 In these stories from HELLBLAZER 239-249 when the war mage Mako carves a bloody swath through London's occult underworld John Constantine tries to rally his former allies despite all the bridges he's burned Plus when something goes horribly wrong in a

secret room in the Vatican a priest is forced to turn to Constantine for help And in a story from HELLBLAZER SPECIAL LADY CONSTANTINE 1 4 Johanna Constantine 18th century ancestor of Hellblazer lands a job that promises a future of wealth and entitlement and almost certain death and damnation in the frozen North Sea **The Syntax of Roots and the Roots of**

Syntax Artemis Alexiadou, Hagit Borer, Florian Schäfer, 2014 This book investigates the nature and properties of roots the core elements of word meaning In particular chapters examine the interaction of roots with syntactic structure and the role of their semantic and morpho phonological properties in that interaction Issues addressed in the book include the semantics and phonology of roots in isolation and in context the categorial specification of roots and the role of phases in word formation Internationally recognized scholars approach these topics from a variety of theoretical backgrounds drawing on data from languages including German Hebrew and Modern Greek The book will be of interest to linguistics students and researchers of all theoretical persuasions from graduate level upwards Silly Verse for Grown Ups Gary

Twynam, 2013-10-25 Reviews of Silly Verse for Grown Ups Wonderful witty warm and wise KD Bristol Not very silly not very grown up and quite often not even verse ST London A pocket full of lollipops LL Shropshire **Revelations of Chance** Roderick Main, 2007-03-08 Explores the plausibility and value of viewing synchronicity as a form of spiritual experience

Roots Of Coincidence Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Roots Of Coincidence**," published by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve to the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
