The Roots of Prejudice Walter F. Zeltmann, 1993-01-01 A concise overview of prejudice. Explores those aspects of human nature including our instincts, the learning process, the leap to judgments, the fear, suspicion, ignorance that make us prone to prejudice. It shows the deep-seated universal roots that make prejudice pandemic in human society. It illustrates the many diverse ways that prejudice manifests itself; the way these manifestations frequently reinforce each other, create a many-stranded web which traps us, is difficult to break. I have never known a person, including myself, who was not at the same time prejudiced, a victim of prejudice. Finally, it reviews the various methods used to fight prejudice, reduce it to a minimum, demonstrating what will work, what will not, what is counterproductive. Those who accept the ideology, myths, lies of prejudice cannot fight it; inevitably, they become prejudiced themselves.
