Ropemakers Of Plymouth:

The Ropemakers of Plymouth Samuel Eliot Morison, 1950 The Ropemakers of Plymouth, by Samuel Eliot Morison
Samuel Eliot Morison, 1950 *Rope* Tim Queeney, 2025-08-12 A unique and compelling adventure through the history of rope and its impact on civilization in the vein of single subject bestsellers like *Salt and Cod* Tim Queeney is a sailor who knows more about rope and its importance to humankind than most In *Rope* Queeney takes readers on a ride through the history of rope and the way it weaves itself through the story of civilization From Magellan's world circling ships to the 15th century fleet of Admiral Zheng He to Polynesian multihulls with crab claw sails he shows how without rope none of their adventurous voyages and discoveries would have been possible Time traveling he describes the building of the pyramids the Roman Coliseum Hagia Sofia Notre Dame the Sultan Hasan Mosque the Brooklyn Bridge and countless other constructions that would not have been possible without rope Not content to just look at rope's past Queeney looks at its present and possible future and how the re-invention of rope with synthetic fibers will likely provide the strength for cables to support elevators into space Making the story of rope real for readers Queeney tells remarkable nautical stories of his own reliance on rope at sea *Rope* is history adventure and the story of one of the world's most common tools that has made it possible for humans to advance throughout the centuries **Manufacturers Record**, 1924 **125 Years of Rope-making in Plymouth (1824-1949)** Ellis Wethrell Brewster, 1949 **British Naval Administration in the Age of Walpole** Daniel A. Baugh, 2015-12-08 This historical analysis of the problems faced by the British navy during the War of 1739-1748 also sheds light on the character limitations and potentialities of eighteenth century British administration Originally published in 1965 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Pacific Marine Review, 1923 *Printers' Ink*, 1923 *Marine Review and Marine Record*, 1926 Includes section Book Reviews **Hoard's Dairyman**, 1923 **Advertisement Illustration** William Livingston Larned, 1929 **The Log**, 1933 *The Rotarian*, 1950-12 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Gandhi to Kurt Vonnegut Jr have written for the magazine **A Century in Captivity** Denis R. Caron, 2006 The riveting reconstruction of an eighteenth century slave's life and imprisonment **Louis XV's Navy, 1748-1762** James Pritchard, 1987-08-01 Pritchard's chief concern is to explain why Bourbon France the richest and most powerful state in Europe in the middle of the eighteenth century failed to exercise its power at sea Through a close examination of naval organization the secretaries of

state for the navy central bureaus officers of the sword and pen seamen arsenals workers problems of shipbuilding ordnance production and material acquisition and finances he shows the navy as both an institution embedded in society and an instrument of government The tensions arising from the contradiction between an institution composed of individuals who sought to advance their own and group interests and an instrument that existed to fulfil government ends were aggravated by an administration of men rather than norms Pritchard traces many of the shortcomings of naval administration to the intensely personal bonds and idiosyncratic behaviour of the individuals who ran it Many of Pritchard's conclusions run counter to the generally accepted accounts of problems in the French navy during this period and to the usual view of Choiseul as the saviour of French maritime power The first complete study of this period of French naval administration Pritchard's work parallels Baugh's on the British navy

A History of the Hemp Industry in Kentucky James F. Hopkins, 2021-10-21 It is hard to believe that at one time burley tobacco was not the chief cash crop in Kentucky Yet for more than half a century hemp dominated the state's agricultural production James Hopkins surveys the hemp industry in Kentucky from its beginning through its complete demise at the end of World War II describing the processes of seeding and harvesting the plant and marketing manufactured goods made of the fiber With debate presently raging over the legalization of industrial hemp it is essential that an accurate portrait of this controversial resource be available Although originally published in 1951 Hopkins's work remains remarkably current as hemp manufacturing today is little changed from the practices the author describes This edition includes an updated bibliography of recent publications concerning the scientific economic and political facets of industrial hemp

Sacco and Vanzetti Paul Avrich, 2020-07-21 The Sacco Vanzetti affair is the most famous and controversial case in American legal history It divided the nation in the 1920s and it has continued to arouse deep emotions giving rise to an enormous literature Few writers however have consulted anarchist sources for the wealth of information available there about the movement of which the defendants were a part Now Paul Avrich the preeminent American scholar of anarchism looks at the case from this new and valuable perspective This book treats a dramatic and hitherto neglected aspect of the cause célèbre that raised according to Edmund Wilson almost every fundamental question of our political and social system
