are fleeting and a region's history can easily be forgotten. This book features over 200 unique and interesting historical postcards that vividly capture San Diego County's forgotten past from 1890 to 1990. From bowling alleys to military bases, from giant dirigibles to sleek airplanes, from billionaires to bulldogs, San Diego has changed so fundamentally that much of its charming history has faded from our memories. *Forgotten San Diego* showcases the unique evolution of San Diego and its neighboring cities, making sure that the triumphs, tragedies, and oddities of this region live on. *The Cybernetic Border* Iván Charr López, 2024-03-04 Iván Charr López argues that the United States uses a combination of drone surveillance and informational technologies to protect the US-Mexico border in ways that mark border crossers as racialized others that must be policed. *Remarkable Women of San Diego* Hannah S. Cohen, Gloria G. Harris, 2016-11-21 San Diego enjoys a diverse legacy of formidable female leaders. Ellen Browning Scripps financed and established the groundbreaking Scripps Oceanography Institute. Guatemalan activist and advocate Luisa Moreno established the United Fish Cannery Workers Union to protect the rights of workers during World War II. Ruth Alexander set new altitude records for light planes at the peak of the city's aviation boom. Bertha Pendleton became the first female and first African American San Diego school superintendent. Early Alaskan military and bush pilots navigated some of the highest and most rugged terrain on earth, taking off and landing on glaciers, mudflats, and active volcanoes. Although they were consistently portrayed by industry leaders and lawmakers alike as cowboys, and their planes compared to settlers' covered wagons, the reality was that aviation catapulted Alaska onto a modern global stage. The federal government subsidized aviation's growth in the territory as part of the Cold War defense against the Soviet Union. Through personal stories, industry publications, and news accounts, historian Katherine Johnson Ringsmuth uncovers the ways that Alaska's aviation growth was downplayed in order to perpetuate the myth of the cowboy spirit and the desire to tame what many considered to be the last frontier. **Little Italy** Peter Corona, 2009-12 In *Little Italy: The Way It Was*, Peter Corona Ph.D. shares personal stories of the early days during the first half of the twentieth century when San Diego's Little Italy had more than 6,000 families living within its boundaries.
