Fieldworks Lytle Shaw, 2013-01-22 Fieldworks offers a historical account of the social rhetorical and material attempts to ground art and poetry in the physicality of a site Arguing that place oriented inquiries allowed poets and artists to develop new experimental models of historiography and ethnography Lytle Shaw draws out the shifting terms of this practice from World War II to the present through a series of illuminating case studies Beginning with the alternate national genealogies unearthed by William Carlos Williams in Paterson and Charles Olson in Gloucester Shaw demonstrates how subsequent poets sought to ground such inquiries in concrete social formations to in effect live the poetics of place Gary Snyder in his back to the land familial compound Kitkitdizze Amiri Baraka in a black nationalist community in Newark Robert Creeley and the poets of Bolinas California in the capacious now of their poet run town Turning to the work of Robert Smithson who called one of his essays an appendix to Paterson and who in turn has exerted a major influence on poets since the 1970s Shaw then traces the emergence of site specific art in relation both to the poetics of place and to the larger linguistic turn in the humanities considering poets including Clark Coolidge Bernadette Mayer and Lisa Robertson By putting the poetics of place into dialog with site specificity in art Shaw demonstrates how poets and artists became experimental explicators not just of concrete locations and their histories but of the discourses used to interpret sites more broadly It is this dual sense of fieldwork that organizes Shaw's groundbreaking history of site specific poetry

Left of Poetry Sarah Ehlers, 2019-04-11 In this incisive study Sarah Ehlers returns to the Depression era United States in order to unsettle longstanding ideas about poetry and emerging approaches to poetics By bringing to light a range of archival materials and theories about poetry that emerged on the 1930s left Ehlers reimagines the historical formation of modern poetics Offering new and challenging readings of prominent figures such as Langston Hughes Muriel Rukeyser and Jacques Roumain and uncovering the contributions of lesser known writers such as Genevieve Taggard and Martha Millet Ehlers illuminates an aesthetically and geographically diverse matrix of schools and movements Resisting the dismissal of thirties left writing as mere propaganda the book reveals how communist affiliated poets experimented with poetic modes such as lyric and documentary and genres including songs ballads and nursery rhymes in ways that challenged existing frameworks for understanding the relationships among poetic form political commitment and historical transformation As Ehlers shows Depression left movements and their international connections are crucial for understanding both the history of modern poetry and the role of poetic thought in conceptualizing historical change

Beyond the Nation Martin Joseph Ponce, 2012-02 Part of the American Literatures Initiative Series Beyond the Nation charts an expansive history of Filipino

literature in the U S forged within the dual contexts of imperialism and migration from the early twentieth century into the twenty first Martin Joseph Ponce theorizes and enacts a queer diasporic reading practice that attends to the complex crossings of race and nation with gender and sexuality Tracing the conditions of possibility of Anglophone Filipino literature to U S colonialism in the Philippines in the early twentieth century the book examines how a host of writers from across the century both imagine and address the Philippines and the United States inventing a variety of artistic lineages and social formations in the process Beyond the Nation considers a broad array of issues from early Philippine nationalism queer modernism and transnational radicalism to music influenced and cross cultural poetics gay male engagements with martial law and popular culture second generational dynamics and the relation between reading and revolution Ponce elucidates not only the internal differences that mark this literary tradition but also the wealth of expressive practices that exceed the terms of colonial complicity defiant nationalism or conciliatory assimilation Moving beyond the nation as both the primary analytical framework and locus of belonging Ponce proposes that diasporic Filipino literature has much to teach us about alternative ways of imagining erotic relationships and political communities *Philosophies of Nature: The Human Dimension* Robert S. Supplement** Bancroft Library, 1974 Postmodern Belief Amy Hungerford, 2010-07-01 How can intense religious beliefs coexist with pluralism in America today Examining the role of the religious imagination in contemporary religious practice and in some of the best known works of American literature from the past fifty years Postmodern Belief shows how belief for its own sake a belief absent of doctrine has become an answer to pluralism in a secular age Amy Hungerford reveals how imaginative literature and religious practices together allow novelists

poets and critics to express the formal elements of language in transcendent terms conferring upon words a religious value independent of meaning Hungerford explores the work of major American writers including Allen Ginsberg Don DeLillo Cormac McCarthy Toni Morrison and Marilynne Robinson and links their unique visions to the religious worlds they touch She illustrates how Ginsberg's chant infused 1960s poetry echoes the tongue speaking of Charismatic Christians how DeLillo reimagines the novel and the Latin Mass why McCarthy's prose imitates the Bible and why Morrison's fiction needs the supernatural Uncovering how literature and religion conceive of a world where religious belief can escape confrontations with other worldviews Hungerford corrects recent efforts to discard the importance of belief in understanding religious life and argues that belief in belief itself can transform secular reading and writing into a religious act Honoring the ways in which people talk about and practice religion Postmodern Belief highlights the claims of the religious imagination in twentieth century American culture
