million copy seller *The Immense Journey* 1957 he produced an astonishing succession of books that won acclaim both as science and as art Now for the first time the Library of America presents his landmark essay collections in a definitive two volume set This first volume begins with Eiseley's debut collection which displays his far reaching knowledge and boundless curiosity about the mysteries of the natural world Here are vivid accounts of prehistoric ecosystems the origins of consciousness the search for living fossils at the bottom of the sea and the complexities of our evolutionary inheritance Here too are literary qualities and aspirations that led many to hail Eiseley as a modern Thoreau his quest for the ultimate meanings and cosmological significance of natural phenomena along with his immense expressive gifts *The Firmament of Time* 1960 a lyrical and meditative tour de force looks back at the many ways in which the sciences have been shaped by the changing cultures in which they developed Examining the role of metaphor in scientific thought anticipations of scientific discoveries in the works of poets and novelists and the unconscious conformity of scientific theory to prevailing orthodoxies Eiseley argues provocatively for the ongoing relevance to scientific progress of dreams the imagination and the irrational In his wide ranging collection *The Unexpected Universe* 1969 Eiseley turns to the theme of the voyage of discovery accounts of the mythical and historic journeys of Odysseus Captain Cook and Darwin frame his own more modest wanderings in the environs of Philadelphia Sometimes he travels no farther than the local dump and yet like Homer's hero or these great explorers he continually finds a universe not only queerer than we suppose but queerer than we can suppose As an added feature this volume presents a selection of Eiseley's uncollected prose including early autobiographical sketches vivid and haunting entries from his private notebooks and his 1957 lecture *Neanderthal Man and the Dawn of Human Paleontology* A companion volume presents *The Invisible Pyramid* 1970 *The Night Country* 1971 and the essays gathered after his death in *The Star Thrower* 1978 LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing and keeping permanently in print America's best and most significant writing The Library of America series includes more than 300 volumes to date authoritative editions that average 1 000 pages in length feature cloth covers sewn bindings and ribbon markers and are printed on premium acid free paper that will last for centuries

must squeeze the slave out of myself drop by drop Perhaps surprisingly Gornick found particular inspiration for this challenge in the work of male writers talented but locked in perpetual rage self doubt or social exile From these men who had infinitely more permission to do and be than women had ever known she learned what it really meant to wrestle with demons In the essays collected here she explores the work of V S Naipaul James Baldwin George Gissing Randall Jarrell H G Wells Loren Eiseley Allen Ginsberg Hayden Carruth Saul Bellow and Philip Roth Throughout the book Gornick is at her best interpreting the intimate interrelationship of emotional damage social history and great literature Artifacts & Illuminations Tom Lynch, Susan Naramore Maher, 2012-04-01 Loren Eiseley 1907-77 is one of the most important American nature writers of the twentieth century and an admired practitioner of creative nonfiction A native of Lincoln Nebraska Eiseley was a professor of anthropology and a prolific writer and poet who worked to bring an understanding of science to the general public incorporating religion philosophy and science into his explorations of the human mind and the passage of time As a writer who bridged the sciences and the humanities Eiseley is a challenge for scholars locked into rigid disciplinary boundaries Artifacts and Illuminations the first full length collection of critical essays on the writing of Eiseley situates his work in the genres of creative nonfiction and nature writing The contributing scholars apply a variety of critical approaches including ecocriticism and place oriented studies ranging across prairie urban and international contexts Contributors explore such diverse topics as Eiseley's use of anthropomorphism and Jungian concepts and examine how his work was informed by synecdoche Long overdue this collection demonstrates Eiseley's continuing relevance as both a skilled literary craftsman and a profound thinker about the human place in the natural world **The Unexpected Universe** Loren Eiseley, 1972-10-01 **The Firmament of Time** Loren Eiseley, 2016-11-15 A lyrical and meditative tour de force that traces the evolution of man and science including the rise of scientific inquiry In *The Firmament of Time* nominated for a National Book Award Loren Eiseley offers a series of brilliant provocative excursions through the history of science A paleontologist with the soul and skill of a poet he reflects on the many ways in which the quest for knowledge has been shaped by the changing cultures in which it emerged and developed Examining the role of metaphor in scientific thought anticipations of scientific discoveries in the works of poets and novelists and the unconscious conformity of scientific theory to prevailing orthodoxies he argues for the ongoing relevance of dreams the imagination and the irrational to scientific progress
