Disappearing Witness Gretchen Garner, 2003-07-25 In documenting this transformation in American photography Disappearing Witness forcefully rethinks the history of photography itself **Harlem Crossroads** Sara Blair, 2007-09-16

The Harlem riot of 1935 not only signaled the end of the Harlem Renaissance it made black America's cultural capital an icon for the challenges of American modernity. Luring photographers interested in socially conscious journalistic and aesthetic representation post Renaissance Harlem helped give rise to America's full blown image culture and its definitive genre documentary. Arguing for Harlem as a crossroads between writers and the image Sara Blair explores its power for canonical writers whose work was responsive to the changing meanings and uses of photographs. She examines literary engagements with photography from the 1930s to the 1970s and beyond. Book Jacket

Seeing America University of Rochester. Memorial Art Gallery, 2006 A stunning full color volume that examines 82 pieces in the University of Rochester Memorial Art Gallery's American collection and their connections to American history culture literature and politics. Seeing America is the first ever catalog of the University of Rochester Memorial Art Gallery's American collection. Founded in 1913 the Memorial Art Gallery was created in conjunction with the University of Rochester so that it would function within a scholarly milieu yet at the same time perform service as a community museum. From its conception it has been an ardent advocate for American art which so many counterpart institutions snubbed until at least the 1930s and more often until well after World War II in favor of European and Asian art. The 336 page full color volume examines 82 objects and their connections to American history culture literature and politics. The 73 articles present a running commentary on each piece by knowledgeable and thoughtful contemporary scholars and artists writing with expertise and insight ultimately presenting a new and deeper understanding that enhances the reader viewer's appreciation of the work. The tour ranges from Colonial times to the twenty first century from Maine to Florida to the far West from mighty historical subjects to intimate byways from august figures and events to the humblest and most anonymous. The diversity of American experience on display here reminds us that the best American art is inextricably bound up with the essential truths of American experience.

The Uses of Photography Jill Dawsey, Pamela M. Lee, Benjamin Young, Judith Rodenbeck, David Antin, 2016-09-21 The Uses of Photography examines a network of artists who were active in Southern California between the late 1960s and early 1980s and whose experiments with photography opened the medium to a profusion of new strategies and subjects. These artists introduced urgent social issues and themes of everyday life into the seemingly neutral territory of conceptual art through photographic works that took on hybrid forms from books and postcards to video and text and image installations. Tracing a crucial history of photoconceptual practice The Uses of Photography focuses on an artistic community that formed in and around the young University of California San Diego founded in 1960 and its visual arts department founded in 1967. Artists such as Eleanor Antin Allan Kaprow Fred Lonidier Martha Rosler Allan Sekula and Carrie Mae Weems employed photography and its expanded forms as a means to dismantle modernist autonomy to contest notions of photographic truth and to engage in political critique. The work of these artists shaped emergent accounts of postmodernism in the visual arts and their
