Los Angeles A View From Crown Hill:

Los Angeles, a View from from Crown Hill Virginia Linden Comer, 1986-01-01 **Los Angeles a View from Crown Hill** Virginia Comer, 1986-06 *Chronicles of Old Los Angeles* James Roman, 2015-03-01 There s more to Los Angeles than lights camera action From the city s early devilish days populated by missionaries robber barons oil wells and orange groves *Chronicles of Old Los Angeles* explains how the Wild West became the Left Coast Learn how Alta California became the 31st state and how ethnic waves built Los Angeles from Native Americans to Spaniards Latinos and Asians followed by gangsters surfers architects and the Hollywood pioneers who brought fame to the City of the Angels Then discover the city yourself with six guided walking driving tours of LA s historic neighborhoods profusely illustrated with color photographs and period maps *Los Angeles, California* Jeffrey Samudio, Portia Lee Ph.D., 2001-04-12 Los Angeles was founded in 1781 as one of the two original Spanish pueblos in California At the time of statehood in 1851 Los Angeles began to reconsider its cow town condition and gradually transformed an American city into the magnificent metropolis we know today Drawn from the collections of the University of Southern California the Los Angeles Public Library and the Los Angeles City Archives Jeffrey Samudio and Portia Lee record the history of a community that established itself culturally as it grew exponentially By 1945 the small town that had begun with 28 square miles in the late 19th century had grown to 450 square miles through almost 100 annexations Businessmen constructed a downtown streetscape whose architecture elicited envy in other cities hotels catered to visitors with such enthusiasm that guests eventually returned with ambitious schemes of their own and the construction of an elaborate freeway system suddenly made Los Angeles a drive in city *Historic Hotels of Los Angeles and Hollywood* Linda McCann, Dace Taube, Claude Zachary, Curtis C. Roseman, 2008 This volume presents a pictorial history of Los Angeles hotels downtown in Hollywood and along the Wilshire Boulevard corridor from the late 19th through the mid 20th centuries By the early 1900s many hotels including luxury ones had been established in downtown Los Angeles to cater to business travelers and tourists In the late 19th century after the arrival of the Southern Pacific Railroad hotels were built to encourage tourism and sell real estate in the agricultural Hollywood area And with the growth of the motion picture studios in the early decades of the 20th century grander hotels were erected to accommodate the new industry As the city expanded westward luxury and residential hotels were also placed in the Westlake District and along the fashionable Wilshire Boulevard corridor connecting to Beverly Hills *The Muleskinner and the Stars* Ronald L. Voller, 2015-08-28 This is the story of the astronomer Milton La Salle Humason whose career was integral to developing our understanding of stellar and universal evolution and who helped to build the analytical basis for the work of such notable astronomers and astrophysicists as Paul Merrill Walter Adams Alfred Joy Frederick Seares Fritz Zwicky Walter Baade and Edwin Hubble Humason s unlikely story began on the shores of the Mississippi River in Winona Minnesota in 1891 and led to the foot of Mount Wilson outside Los Angeles California twelve years later It is there where he first attended summer camp in 1903 and was captivated by its

surroundings The mountain would become the backdrop for his life and career over the next six decades as he helped first build George Ellery Hale's observatory on the summit and then rose to become one of that institution's leading figures through the first half of the twentieth century The story chronicles Humason's life on Mount Wilson from his first trip to the mountain to his days as a muleskinner leading teams of mules hauling supplies to the summit during the construction of the observatory and follows him through his extraordinary career in spectroscopy working beside Edwin Hubble as the two helped to reconstruct our concept of the universe A patient knowledgeable and persistent observer Humason was later awarded an honorary doctorate for his work despite having no formal education beyond the eighth grade His skill at the telescope is legendary During his career he photographed the spectra of stars galaxies and other objects many thousands of times fainter than can be seen with the naked eye and pushed the boundary of the known universe deeper into space than any before him His work which included assisting in the formulation of Hubble's Law of redshifts helped to set the field of cosmology solidly on its foundation Milton Humason was one of the most charismatic characters in science during the first half of the 20th century Uneducated streetwise moonshining roguish humble and thoroughly down to earth he rose by sheer chance innate ability and incredible will to become the leading deep space observer of his day The Renaissance man of Mount Wilson as Harlow Shapley once referred to him Humason's extraordinary life reminds us that passion and purpose may find us at any moment

Film Noir and Los Angeles Sean W. Maher, 2020-08-31 This book combines film studies with urban theory in a spatial exploration of twentieth century Los Angeles Configured through the dark lens of noir the author examines an alternate urban history of Los Angeles forged by the fictional modes of detective fiction film noir and neo noir Dark portrayals of the city are analyzed in Raymond Chandler's crime fiction through to key films like *Double Indemnity* 1944 and *The End of Violence* 1997 By employing these fictional elements as the basis for historicising the city's unrivalled urban form the analysis demonstrates an innovative approach to urban historiography Revealing some of the earliest tendencies of postmodern expression in Hollywood cinema this book will be of great relevance to students and researchers working in the fields of film literature cultural and urban studies It will also be of interest to scholars researching histories of Los Angeles and the American noir imagination
