**Natural Disaster and Nuclear Crisis in Japan** Jeff Kingston, 2012-03-12 The March 2011 earthquake and tsunami in Japan plunged the country into a state of crisis. As the nation struggled to recover from a record-breaking magnitude 9 earthquake and a tsunami that was as high as thirty-eight meters in some places, news trickled out that Fukushima had experienced meltdowns in three reactors. These tragic catastrophes claimed some 20,000 lives, initially displacing some 500,000 people and overwhelming Japan's formidable disaster preparedness. This book brings together the analysis and insights of a group of distinguished experts on Japan to examine what happened, how various institutions and actors responded, and what lessons can be drawn from Japan's disaster. The contributors, many of whom experienced the disaster first-hand, assess the wide-ranging repercussions of this catastrophe and how it is already reshaping Japanese culture, politics, energy policy, and urban planning.

**Cultural and Social Division in Contemporary Japan** Yoshikazu Shiobara, Kohei Kawabata, Joel Matthews, 2019-07-30 The recent manifestation of exclusionism in Japan has emerged at a time of intensified neoliberal economic policies, increased cross-border migration brought on by globalization, the elevated threat of global terrorism, heightened tensions between East Asian states over historical and territorial conflicts, and a backlash by Japanese conservatives over perceived historical apologism. The social and political environment for minorities in Japan has shifted drastically since the 1990s, yet many studies of Japan still tend to view Japan through the dominant discourses of ethnic homogeneity, *tanitsu minzoku shakai* (middle-class society), and *churyu shakai* (middle-class society), which positions the exclusion of minorities as an exceptional phenomenon. While exclusionism has been recognized as a serious threat to minority groups, it has not often been considered a representative issue for the whole

of Japanese society This tendency will persist until the discourses of tanitsu minzoku shakai and so churyu shakai are systematically debunked and Japan is widely recognized as both multiethnic and socio economically stratified Today as with most advanced capitalist countries serious social divides occasioned by the impacts of globalization and neoliberalism have destabilized Japanese society This book explores not only how Japanese society is diversified and unequal but also how diversity and inequality have caused people to divide into separate realities from which conflict and violence have emerged It empirically examines the current situation while considering the historical development of exclusionism from the interdisciplinary viewpoints of history policy studies cultural studies sociology and cultural anthropology In addition to analyzing the realities of division and exclusionism the authors propose theoretical alternatives to overcome such cultural and social divides

**Criminalization and Prisoners in Japan** Elmer Hubert Johnson, 1997 In his second book to deal with Japanese corrections Elmer H Johnson explores the cultural heritage and structure of the criminal justice administration that underlies Japan's reluctance to use imprisonment which he first examined in *Japanese Corrections* Managing Convicted Offenders in an Orderly Society Here Johnson introduces the concept of criminalization its implications and its two versions that differentiate four of the six cohorts who have entered prison in increasing numbers in recent decades yakuza Japanese mafia adult traffic offenders women drug offenders and juvenile drug and traffic offenders Foreigners and elderly inmates the other two cohorts elude criminalization as groups but also have become prisoners in greater numbers for other reasons
