Iconoclastic Sex Henry Walter Spaulding III, 2024-03-13 Christian sexual ethics operates from a place of privilege when it does not consider those impacted by its moral prescriptions A large majority of publications on Christian sexual ethics consider choices and images abstracted from lived conditions of the people called to make these decisions As such it leaves out many for whom sex is neither welcome nor a choice As such these same texts present images of sexual subjects that marginalize those that do not fit As the book presents sexuality both Christian and otherwise prioritizes a language of purity

that strangles the life of those imaged impure The present book remedies this emphasis through the language of iconoclasm that blasphemes these images and opens theological reflection beyond the boundary of image based approaches Utilizing a qualitative study of survivors of trafficking and those who grew up under evangelical purity teachings Spaulding narrates sexual ethics in light of their testimonies and the theological resources of iconoclasm to articulate a more just and loving sexuality The new emphasis on sexual ethics not only resists the prescriptions that create the conditions of sex trafficking but the creation of new communities capable of solidarity and mutuality with those caught in the web of trafficking

Icons and Aliens John J. Costonis, 1989 In *Icons and Aliens* John Costonis looks at such pairings and probes why they evoke outrage why the outraged seek the protection of the legal system to prevent the pairings and what the law can and cannot do in response Bridging the fields of law and design Costonis discards conventional rationales for aesthetics policymaking in favor of a compelling account of the psychological forces driving America's support for historic preservation neighborhood conservation and environmentalism Numerous New Yorker cartoons and black and white photographs accompany the text depicting the strength and foibles of legal aesthetics

BOOK JACKET **Anamnesis and the Eucharist** Revd Dr Julie Gittoes, 2013-05-28 Engaging with contemporary Anglican theology of the Eucharist through the concept of anamnesis this book seeks to enrich the Church's understanding of transformation and mission Eucharistic theology finds its place in the midst of much contemporary Anglican theology but little attention has been given to the interrelationship between mission and the Eucharist Julie Gittoes engages with the work of David Ford Rowan Williams and Catherine Pickstock who share a common concern to engage with the way in which the Eucharist shapes the life of the worshipping community as the body of Christ Focusing on the concept of anamnesis remembrance or memorial Gittoes highlights a language of connection in the way in which anamnesis describes the integration of historical sacramental and ecclesial embodiments of Christ The Eucharist looks back to the saving events of Christ's life death and resurrection through it the Church is nourished with the body of Christ participating in it anticipates the eschatological fulfilment of the Kingdom This book explores the connection between the source event of the Church's life and the transformative encounter with Christ in the Eucharist the effects of which are seen in social ethical political action and the Church's mission

Heavenly Bodies Sigurdson, 2016 Deep and wide study of 2 000 years of Christian thought on the human body Does Christianity scorn our bodies Friedrich Nietzsche thought so and many others since him have thought the same Ola Sigurdson contends to the contrary that Christianity understood properly in fact affirms human embodiment Presenting his constructive contributions to theology in relation to both historical and contemporary conceptions of the body Sigurdson begins by investigating the anthropological implications of the doctrine of the incarnation He then delves into the concept of the gaze and discusses a specifically Christian gaze of faith that focuses on God embodied in Jesus Finally he weaves these

strands into a contemporary Christian theology of embodiment Sigurdson s profound engagement with the whole history of Christian life and thought not only elucidates the spectrum of Christian perspectives on the body but also models a way of thinking historically and systematically that other theologians will find stimulating and challenging **Five Albanian Villages** Antonio Lauria,Valbona Flora,Kamela Guza,2020-12-27 This book is the result of a research project designed and carried out at the Department of Architecture University of Florence This research was based on the transfer of knowledge from members of the Albanian Diaspora in Italy university students young architects and researchers to their home country This unique process blazed a trail in the Albania related studies by creating a methodology which could be replicated not only in Albanian rural contexts but also elsewhere The book constitutes a structured tool for generating sustainable and socially inclusive territorial development processes in five lesser known Albanian cultural sites Their tangible and intangible cultural heritage was seen as a driving factor for triggering development processes aimed at improving the inhabitants quality of life and strengthening local identity and social networks Through concrete proposals and strategies the book offers scenarios and solutions capable of enhancing the potential of each village and at the same time counteracting the effects of land abandonment that so often characterise them Rowan's Rule Rupert Shortt,2009-02-24 A fascinating fair minded depiction of Archbishop Rowan Williams Rowan Williams is a complex and controversial figure Widely revered for his personal qualities he is also an intellectual giant who towers over almost all his predecessors as Archbishop of Canterbury Among other achievements he has trounced the atheist Richard Dawkins and published over twenty well regarded books including several volumes of poetry and a major study of Dostoevsky Yet he is also one of the most reviled church leaders in modern history Long before facing calls to step down after his lecture on sharia law in early 2008 he had been accused of heresy on account of his pro gay views He has disappointed many of his own supporters as well So how has high office changed Rowan Williams Has he been bullied and manipulated Or is he perhaps playing a long game obliged to rate church unity above the pursuit of his own vision at a time when the Anglican Communion has never looked more unstable Rupert Shortt already the author of an acclaimed introduction to the Archbishop s thought offers answers to these and other questions in this authoritative biography He explores how the events of the Archbishop s remarkable life have shaped his beliefs and practices today Of particular interest is the riveting account of Williams s experience near the World Trade Center towers on the morning of September 11 201 Written with Williams s cooperation Rowan s Rule not only elucidates his ideas but gives a compelling portrait of a private and in some ways surprisingly vulnerable man Making See C. M. A. van Ekris,2018-06-20 What is theologically and homiletically happening in prophetic sermons This empirical theological study offers an analysis of the prophetic dimension in contemporary practices of preaching including sermons from Bonhoeffer King and Tutu and from Dutch local contexts After a phenomenological opening five theological concepts are extracted from the studied sermons exposing destructiva interrupting dominant discourses recognising the Word overcoming destructiva and edifying the

congregation In this study prophetic speech is reconstructed as an illuminative interplay between epiphanic and inductive aspects

Becoming by Beholding Lanta Davis,2024-07-02 This book restores the imagination to its central role in spiritual formation by recovering key works from the Christian tradition enabling us to experience the formative power of the imagination for ourselves It also revives the art of fashioning the soul as an essential aspect of Christian spiritual formation and character development Award winning professor and scholar Lanta Davis explains that many of the problems at the heart of the Christian church today such as nationalism consumerism and partisan politics stem from a crisis of the imagination She encourages us to reorient our gaze from diseased cultural imaginations and fix our eyes instead on works from the historic Christian imaginative tradition that better reflect the love joy and wonder of the gospel Each chapter introduces a different work of the Christian imagination icons sacred architecture imaginative prayer bestiaries and personifications of the virtues and vices An insert features numerous full color images

The Old Rugged Cross Ben Pugh,2016-10-10 A lot has been said about the atonement theology of the theologians but what of ordinary believers and their church leaders What if anything have they done with penal substitution or with Christus Victor How if at all have these doctrinal approaches helped ordinary Christians to live more devoted lives or lead good church services Ben Pugh takes the temperature of the church at various points in its history right up to the present day noting particular emphases that can be detected in various expressions of personal and corporate faith whether these be hymns sermons magazines or devotional texts The book aims not only to describe what the implied atonement theologies of the church have in reality been but also to explore why these have taken the forms that they have This exploration will shed some fresh light on current debates building on the findings of the author s earlier work *Atonement Theories A Way through the Maze*

Why Rousseau was Wrong Frances Ward,2013-01-31 A significant and lively contribution to current debates about the role of religion in a society dominated by secular humanism Post Olympic Britain looks like a very different country from the brittle post riot Britain of 2011 However despite the successes of 2012 Frances Ward argues that underlying tensions remain in our society because we have forgotten how to nurture belonging and trust Tracing the origins of modern identity politics back to key Enlightenment thinkers she offers an alternative model of citizenship to the excessive individualism of secular humanism She examines the Church s role in shaping Western society in ways which are reflected in the Olympic spirit belonging together corporate rather than individualistic identity about doing things as ends and not means non utilitarian non instrumental and about developing character and virtue rather than a sense of identity Writing in an accessible and engaging style drawing on contemporary literature and particularly the work of Alexander McCall Smith and his fictional character Isabel Dalhousie Ward explores ways in which twenty first century society can be rebuilt and strengthened for the future

Prominent thinkers writers and well known voices in the Episcopal Church come together to present a very broad spectrum of Christian thought and eschatology Ultimately what they have in common is the belief that the choice Christian must make is not between the now and the eternal it is between being forward looking and being back ward looking Unless we look with eagerness and longing toward the future we will stay stranded in the past To live the Christian life today we need a heart for the future Anton Chekhov's Life and Thought Anton Pavlovich Chekhov,1997 First published in 1973 this collection of Chekhov s correspondence is widely regarded as the best introduction to this great Russian writer Weighted heavily toward the correspondence dealing with literary and intellectual matters this extremely informative collection provides fascinating insight into Chekhov s development as a writer Michael Henry Heim s excellent translation and Simon Karlinsky s masterly headnotes make this volume an essential text for anyone interested in Chekhov
