long tradition Del Nevo emphasizes the aesthetic experience of listening to art music as it has developed and disintegrated in Western civilization He recognizes a deep psychological element to what he calls soul or more accurately sensibility He addresses music in a non technical way taking up the powerful art theory of Charles Baudelaire the music philosophy of Schopenhauer and Richard Wagner and takes a strong critical stand against modernist intellectual art music The importance of this book for the musically literate reader is its insight into the metaphysics of nostalgia This comprehension is missing from nearly all musical instruction because we have lost sight of it Del Nevo asserts that this understanding must be brought back into our culture And since this is a book about listening to art music it is no less about sensibility and its cultivation which in its object form we call culture An engaging book Art Music will appeal to those interested in music culture and philosophy
