**Natural City** Stephen B. Scharper,Ingrid Leman-Stefanovic,2012-01-01 Urban and natural environments are often viewed as entirely separate entities human settlements as the domain of architects and planners and natural areas as untouched wilderness This dichotomy continues to drive decision making in subtle ways but with the mounting pressures of global climate change and declining biodiversity it is no longer viable New technologies are promising to provide renewable energy sources and greener designs but real change will require a deeper shift in values attitudes and perceptions A timely and important collection The Natural City explores how to integrate the natural environment into healthy urban centres from philosophical religious socio political and planning perspectives Recognizing the need to better link the humanities with public policy The Natural City offers unique insights for the development of an alternative vision of urban life *The Insurance Industry* United States. This report from the Transport Committee examines London Underground and the Public Private Partnership Agreements The Government originally announced proposals for modernising the London Underground network system via Public Private Partnership PPP agreements in 1998 Three contracts were drawn up with i Tube Lines for the maintenance and renewal of the Jubilee Piccadilly and Northern Lines ii with Metronet Rail BVC for the maintenance and renewal of the Bakerloo Central Victoria iii with Metronet Rail SSL responsible for the maintenance and renewal of the sub surface lines the Circle District Hammersmith stations that were supposed to cost Metronet SSL 2m cost 7 5m with only 65% of schedule track renewal accomplished the Committee criticises the consequences of the imposition of PPP on Transport for London as a lamentable state of affairs with the future of most of London Underground s upgrade and maintenance work in doubt the Committee states that the Government should remember the failure of Metronet before it considers entering similar arrangements that the Government should publish a candid analysis of the events preceding Metronet s collapse and its consequences the Committee believe that the PPP model was flawed and probably inferior to traditional public sector management that the Government needs to prioritise transparency and clarity to taxpayers and ensure that any future contracts result in clear accountability      **Thinking Northern** Christoph Ehland,2007 Thinking Northern offers new approaches to the processes of identity formation which are taking place in the diverse fields of cultural economic and social activity in contemporary Britain The essays collected in this volume discuss the changing physiognomy of Northern England and provide a mosaic of recent thought and new critical thinking about the textures of regional identity in Britain Looking at the historical origin of Northern identities and at current attitudes to them the book explores the way received mental images about the North are re deployed and re contained in the ever changing socio cultural set up of society in Northern England The contributors address representation of Northernness in such diverse fields as the music scene multicultural spaces the heritage industries new architecture the arts literature and film      *Letitia Elizabeth Landon - Selected Writings* Letitia Elizabeth Landon,1997-10-07
