**Locus Solus** Selen Ansen, Süreyya Evren, 2022-06-01 Arter initiated a new publication series *ARTER BACKGROUND* in 2019 to accompany exhibitions drawn from its collection which holds more than 1 400 works of art The fourth book of the series accompanies *Locus Solus* which brings together selected works from the Arter Collection with several large scale installations including site specific new productions with an aim to explore the idea of nature through the lens of facts fictions and emotions In the book excerpts of textual and visual contents selected around the ideas active in the curatorial process of the exhibition are complemented by new works produced specifically for this context While the exhibition curated by Selen Ansen deals with the ways in which nature and culture permeate and affect each other the accompanying publication through its distinctive editorial structure features texts pointing towards extinct territories subconscious landscapes foreign lands fictive rooms heres elsewheres and nowheres wonderlands heavenly earthly and subterranean realms alongside commissioned essays by Sena Baş, Pascal Janovjak and Su Pola This book reflects the exhibition which it accompanies and whose spaces and reflections on the idea of nature it extends It amounts to a territory the contours of which are fluid semi autonomous inhabited by a variety of spaces and times One may peruse it while sitting standing or lying down in broad daylight or when the night has fallen in clear or foul weather in or outdoors just as one would with any other book that fell into one's hands One will probably make one's way into it unaccompanied since it is customary to read alone and in silence Once inside it will be preferable to keep one's eyes open in order to understand where one sets foot yet not to neglect to close them so as to be able to wander off beyond its borders This neither too long neither too short book is also a body a hybrid body composed of heterogeneous worlds and points of view assembled according to the good neighbour principle so cherished by Aby Warburg It compiles fragments of texts uprooted from their original context some of which are published as a whole others devised within the framework of the exhibition It also contains images some speechless others quite talkative which again have been deterritorialised moved out of their original context in order to become reterritorialised in new surroundings One will find less theory here than fiction fewer essays than narrations

**Explorers of Ararat and the Search for Noah's Ark** B. J. Corbin,1999 This books is a compilation of accounts written by experienced explorers who have searched for Noah s Ark since the 1960 s Each explorer conveys his unique experiences and insights regarding the search     **From the Ashes of Angels** Andrew Collins,2001-09-01 Provides convincing evidence that

angels demons and fallen angels were flesh and blood members of a giant race predating humanity spoken of in the Bible as the Nephilim Indicates that the earthly paradise of Eden was a realm in the mountains of Kurdistan By the author of Gateway to Atlantis Our mythology describes how beings of great beauty and intelligence who served as messengers of gods fell from grace through pride These angels also known as Watchers are spoken of in the Bible and other religious texts as lusting after human women who lay with them and gave birth to giant offspring called the Nephilim These religious sources also record how these beings revealed forbidden arts and sciences to humanity transgressions that led to their destruction in the Great Flood Andrew Collins reveals that these angels demons and fallen angels were flesh and blood members of a race predating our own He offers evidence that they lived in Egypt prior to the ancient Egyptians where they built the Sphinx and other megalithic monuments before leaving the region for what is now eastern Turkey following the cataclysms that accompanied the last Ice Age Here they lived in isolation before gradually establishing contact with the developing human societies of the Mesopotamian plains below Humanity regarded these angels described as tall white haired beings with viperlike faces and burning eyes as gods and their realm the paradise wherein grew the tree of knowledge Andrew Collins demonstrates how the legends behind the fall of the Watchers echo the faded memory of actual historical events and that the legacy they have left humanity is one we can afford to ignore only at our own peril     *Ancient Aliens and Secret Societies* Mike Bara,2015-03-17

Did ancient visitors of extraterrestrial origin come to Earth long long ago and fashion man in their own image Did they then lift the human race out of the ashes of a great global catastrophe around 10 500 BC Were the science and secrets that they taught the ancients intended to be a guide for all humanity to the present era Was this crucial information about our future and our true past hijacked by secretive cabals some with bad intent and some with altruistic designs who have held these secrets over the millennia New York Times bestselling author Mike Bara says the answer to each of these questions is yes He examines ancient documents including the Bible to delve into the true story of the beginnings of mankind He establishes the

reality of the major catastrophe that jolted the human race and traces the history of secret societies from the priesthood of Amun in Egypt to the Templars in Jerusalem and the Scottish Rite Freemasons He shows how the spiritual wisdom and scientific knowledge the ETs sought to bestow on all humanity were kept by these secret societies for their own benefit The influence of these sects and their extraterrestrial ties are said to be the stuff of myth but Bara will show readers that this influence is all too real extending even into the political arena He has a very interesting take on the Kennedy assassination Bara also reveals the true origins of NASA and exposes the bizarre triad of secret societies in control of that agency since its inception In the end Bara shows how NASA is manipulating the space program to fulfill occult purposes which may lead to our meeting the very ETs we have been inextricably linked with since the beginning     Noah's Ark and the Ziusudra Epic Robert M. Best,1999     Reflections on Biblical Histories Robert N. Palmer,2005-02-10 The book is a re examination of the Old Testament and historic figures contained therein plus a glimpse into the life of Jesus The author finds fault with the chronologies of both archbishops Usher and Edwin Thiele while showing a more accurate one for the Hebrew histories to have occurred using various disciplines Such as archeology Assyriology astronomy Biblical studies church history Egyptology Historic Geology and Paleography     *Is There Evidence for the Christian Faith?* Craig A. Williams,2001-11     **Judgment and Salvation** Dustin G. Burlet,2022-11-03 This book contends the text of the Noachian deluge narrative categorically underscores all God did to preserve life in spite of the disaster Despite the picture of devastation that the narrative depicts the prominent emphasis of the text is on deliverance and redemption i e salvation not judgment The focus of the Genesis flood is acutely bent towards God s salvific rather than punitive purposes The arc of salvation within the flood narrative can be broken down into two main ideas Firstly God s intention for creation is not thwarted and secondly God commits himself to his intentions of creation God s intention for creation can be stated thus the establishment of order via covenant showing the sanctity of human life and the upholding of all life This involves in particular humanity as his image bearers including the lex talionis life for life principle     Noah's Ark L. Patricia Kite,1989 Presents opposing viewpoints on the legendary Ark and Flood discussing research done to prove one way or another if there is a historical basis to the great mystery     **Strange Secrets** Nick Redfern,Andy Roberts,2003-05-20 IF YOU THOUGHT THAT THE X FILES WAS ONLY FICTION THINK AGAIN For as long as extraterrestrial and paranormal phenomena have been investigated the official government response to any events deemed otherworldly or unexplainable has been well documented DENIAL Not because they aren t interested in UFOs monsters and psychic abilities but because they have their own secret agendas for using this knowledge In this thoroughly researched compendium of conspiracies and cover ups the remarkable findings that have been documented and supposedly debunked by the governments of the United States Great Britain and the former Soviet Union are finally revealed including Attempts by the U S Air Force to build a fleet of nuclear powered flying saucers The British military s files on the Loch Ness monster and other mysterious beasts The Cold War race between the CIA and the KGB to create the perfect psychic spy

assassin The real story behind the enigmatic Men in Black who terrify UFO witnesses into silence For anyone who wants to know the truth or the truth behind the truth Strange Secrets is the ultimate resource to understanding exactly what the government doesn't want us to know and why they want to keep us in the dark     *RESCUE MISSION* Stephen S.
