Many enthusiasts dream of finding a Bugatti or a Bentley in a barn or a long disused building In reality such finds are more likely to be an Austin 7 Ford Popular or a Mini This book is stuffed with these so called barn finds The author has tried to find out the background to the abandonment and the previous history of the as found car when it was in regular use Why was it put away and apparently forgotten Many of the stories have appeared in his Lost and Found column in Classic and Sports Car magazine but a book gives a chance for the expanded story to be told The cars featured date from 1900 through till the 1980's most come from Great Britain and Europe but there are plenty from Australasia and USA There are well over 200 different cars plus collections featured Each story has at least one illustration to go with it Some of the locations are bizarre a Daimler buried under a rockery a Porsche sunk in Lake Lucerne a Rolls Royce on the roof of a high rise building in Karachi or a Morris 8 special in a Gloucestershire pond There is a chapter on collections of cars put together by seemingly eccentric owners who never got around to restoring them before their death The author is not critical of any of these owners and is grateful for the number of cars they have saved from almost certain destruction *Morris Restoration/Performance* ,

American Book Publishing Record ,1987 *Cars & Parts* ,1986 **Superhobby Investing** Peter Temple,2004 What is superhobby investing Superhobby Investing is at the intersection of investing collecting and other serious hobbies It's about examining how you can ratchet up a hobby or a collecting passion into an investment option If you are a stock market investor this book will show how you can use the tangible assets that are normally part and parcel of collecting as a means of diversifying your portfolio Or maybe you already own or have inherited some superhobby assets a stamp collection or a set of first editions say but never thought of them as potential investments Using this book you can find out how to assess their value and how to convert them into a durable and profitable portfolio This book shows you why developing one or more superhobbies can be a good idea and looks at various forms this tangible asset investing can take In each case the book explains how the markets operate what the risks are what returns can be expected and what knowledge and skills are required Each asset profile includes The history of investment in the asset The basic characteristics and features of the

market The examination of long term returns with detailed figures The tax angles if applicable The major issues How to buy and sell including major dealers and auctioneers Sources of information *Autocar*, 2005 How to Restore Classic Car Bodywork Martin Thaddeus, 2012 A guide to body and chassis restoration offers advice on all aspects of restoration for metal bodied cars including patching panels removing dents and protecting against rust All Hands to the Harvest Martin Wainwright, 2012-06-05 The twentieth century saw two world wars and countless other conflicts whose effects on society have been well documented Here you will find the less familiar story of how these international struggles managed to reach into the quietest corners of the British countryside From Battle of Britain vapour trails looping over summer cornfields and affecting local hawks and waterfowl to the lone ringed bird who limped in from invaded Czechoslovakia diarists note down and discuss the momentous changes wrought by wars on British country life Women and children fetching in the harvest as their menfolk fight in Flanders Italian prisoners of war singing opera in Herefordshire orchards Mobilising the Women s Institute to make jam for the war effort Beautifully written and subtly observed these rediscovered treasures reveal how for all its soft beauty Britain s rural landscape has been shaped in part by man at war with man
