Real World Ethics Frameworks For Educators And Human Service Professionals:

"Real World" Ethics Robert J. Nash, 2002-01-01 Now more than ever with the explosion of new technologies and human service delivery systems innovative teaching methodologies and assessment instruments classic ethical questions and problems still remain The Second Edition of Robert Nash's bestseller expands on his earlier work with the addition of an extensive question and answer epilogue where Nash responds to questions about the first edition This new chapter incorporates the latest research in applied ethics teaching and in resolving ethical dilemmas in the professions The only applied ethics book written for both educators and human service professionals Real World Ethics is essential reading for everyone who find themselves faced with making critical ethical decisions in their work [Advancing the Integrity of Professional Practice](#) Robert B. Young, 2011-10-18 Defining integrity as the combination of attributes and actions that makes people and organizations coherent consistent and potentially ethical the editor and contributing authors illustrate how student affairs administrators can understand and implement integrity in their institutions Early chapters explore the organizational integrity of student affairs Transactional and transformational leadership perspectives are discussed in the second section Other contributing authors tie education to integrity In their chapter Dennis Roberts and Trudy Banta engage in a dialogue about the way student development theory should guide practice and how its assessment is essential to maintain the integrity of our practice Sue Saunders and Jennifer Lease Butts consider how we should teach integrity to graduate students and new professionals Final chapters explore challenges to integrity ranging from those in the normal work routines such as resident hall directors confronting late night parties or interoffice dynamics to those faced in extraordinary circumstances such as the ones faced in the wake of Hurricane Katrina Readers of this volume will learn how integrity affects the trustworthiness of their organizations and operations They will have the opportunity to read about the highest goals and the best practices of leadership and gain ideas about some practical strategies that can help them deal with challenges to organizational and individual integrity This is the 135th volume of the Jossey Bass quarterly report series New Directions for Student Services An indispensable resource for vice presidents of student affairs deans of students student counselors and other student services professionals New Directions for Student Services offers guidelines and programs for aiding students in their total development emotional social physical and intellectual **Towards Professional Wisdom** Cecelia Clegg, 2016-02-24 People professions such as social work teaching nursing ministry and counselling are at heart ethical or moral enterprises Much recent theorizing has been concerned to show that effective professional deliberation and judgement cannot be reduced either to technical rationality or to simple obedience to general occupational procedures or prescriptions Professional judgement would seem to require the development of a distinctive mode of practical ethical reflection or wisdom perhaps along the lines of Aristotle's phronesis or practical wisdom Reflection is required to address such key professional concerns as What is the impact of official prescription and regulation on professional

judgement How should conflicts of professional judgement and public political accountability be resolved How might one reconcile tensions between universal justice and equality and particular client need What is the role of emotion and or affect in people professional practice This ground breaking work addresses in a thoroughly multidisciplinary way the central question of the nature of professional judgement and deliberation that has recently come to the fore in the academic literature of profession and professionalism It proposes a marked shift in theory practice and policy making away from technical rational approaches to professional decision making in favour of reflection and deliberation informed by responsible moral judgement This reflects a significant progressive trend in this literature by taking practical wisdom rather than technical rationality to lie at the heart of professional judgement It is unique in bringing together key authors from different professional fields to address the issue of professional wisdom in a cross professional and multidisciplinary way

Teaching Business Ethics for Effective Learning Ronald R. Sims, 2002-05-30 The key to teaching business ethics successfully says Sims is to start with clear goals and a sensible expectation of outcomes and with a true knowledge and appreciation of how people actually learn Seems obvious enough he says but the surprise is that so few understand this Thus the teaching of business ethics is often an unproductive frustrating exercise in futility Sims hopes to change that Proceeding with the conviction that open communications between teacher and student before during and after the teaching experience is vital Sims identifies key teaching processes gives practical advice on designing and planning the curriculum and offers guidance on how to develop a climate conducive to effective learning He highlights the importance of creating a classroom climate that encourages open dialogue good moral conversation and conversational learning And throughout he emphasizes that learning styles and experiential learning theory are cornerstones of teaching business ethics thus taking an approach unlike any in the literature An important guide for those who are new to teaching this essential subject Sims book will also be helpful for more experienced teachers who are wondering why their own methods do not always work or do not work as well as they believe they should Sims identifies important processes that must be managed if business ethics is to be taught and learned successfully processes such as creating stakeholder commitment to the goals purposes and outcomes of the teaching effort and curriculum design and planning that are attuned to individual differences in learning styles motivation and values Also included in Sims processes are the development of individual school outcomes and expectations and the assessment procedures that can measure them He discusses the importance of incorporating debriefing into an experiential learning exercise or discussion and goes on to give an in depth discussion of the pedagogical approaches that allow teachers to teach the practical and theoretical components of the subject simultaneously Well illustrated with examples such as an interdisciplinary approach to teaching and a way to institutionalize outcomes assessment by means of total quality management Sims book returns constantly to his major theme that to teach business ethics effectively the teacher must first create a climate of trust and sharing within and between students and between students and teacher and that the teacher

must have a concrete way to measure the impact of the teaching effort s results **Ethics and Professional Issues in Couple and Family Therapy** Megan J. Murphy,Lorna Hecker,2016-10-04 Ethics and Professional Issues in Couple and Family Therapy Second Edition builds upon the strong foundations of the first edition This new edition addresses the 2015 AAMFT Code of Ethics as well as other professional organizations codes of ethics and includes three new chapters one on in home family therapy a common method of providing therapy to clients particularly those involved with child protective services one chapter on HIPAA and HITECH Regulations that practicing therapists need to know and one chapter on professional issues in which topics such as advertising professional identity supervision and research ethics are addressed This book is intended as a training text for students studying to be marriage and family therapists **Handbook of Moral and Character Education** Larry Nucci,Darcia Narvaez,2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more **Ethics and Professional Issues in Couple and Family Therapy** Lorna Hecker,2012-07-26 While on some issues couple and family therapists have an exquisitely clear direction from professional codes of ethics others fall under gray areas that instead rely on therapists making reasoned ethical decisions Therapists need to develop ethical sensitivity to potential ethical issues in order to decrease their risk in practice and increase their maneuverability in the therapy room In Ethics and Professional Issues in Couple and Family Therapy Lorna Hecker and her contributing authors address various clinical scenarios that demonstrate the complex ethical situations couple and family therapists face every day Some points discussed in this holistic book include boundary power and privilege issues along with unique ethical issues in practicing therapy with children Risk issues when working with potential danger suicide and partner violence are also explored Each chapter sensitizes readers to potential ethical issues and provides a model for ethical decision making that best promotes good on behalf of clients Couple and family therapists will find this text an invaluable and inexhaustible resource *Now What? The Active/Ethical Professional Michael G. Gunzenhauser, 2012-03-08 A winner of the 2012 Critics Choice Book Award of the American Educational Studies Association AESA The Active Ethical Professional proposes an ethical framework for educators and school leaders who find their practice constrained by the demands of policies and structures created in response to accountability legislation The framework is derived from Michel Foucault's theories of discipline surveillance resistance and care of the self Gunzenhauser asserts that an educator's dual position of being normalized especially in relations with those above them in the education hierarchy and normalizing especially in relations with their students can be troubling and difficult The book argues that this position requires educators to be both ethical and active To be ethical educators not only need to resolve ethical dilemmas in defensible ways but they also need to recognize themselves as powerful in relation to others To be active educators need to be vigilant for moments when they are placed in the position to be reactive to normalizing pressures and they also need to develop clear notions of how they may create opportunities for the cultivation of educational selves that are rich ethically aesthetically epistemologically and politically

Justice and Caring Michael S. Katz, Nel Noddings, Kenneth A. Strike, 1999-04-09 This thought provoking volume confronts the expected tension between care and justice as moral orientations These original essays by renowned educators reveal how these two moral orientations can work together to produce wiser and more practical policies and practices The authors explore problems at every level of education and tackle tough questions in theory practice and policy making Using real life examples they illustrate the great value of theoretical collaboration instead of competing with each other justice and care should complement each other in both moral theory and practice Contents and Contributors PART I Theory of Justice and Caring 1 Care Justice and Equity Nel Noddings 2 Justice Caring and Universality In Defense of Moral Pluralism Kenneth A Strike 3 Justice and Caring Process in College Students Moral Reasoning Development Dawn E Schrader PART II Pedagogical Issues 4 Teaching About Caring and Fairness May Sarton's The Small Room Michael S Katz 5 The Ethical Education of Self Talk Ann Diller 6 Caring Justice and Self Knowledge William L Blizek PART III Public Policy Issues 7 School Vouchers in Caring Liberal Communities Rita C Manning 8 Ethnicity Identity and Community Lawrence Blum 9 School Sexual Harassment Policies The Need for Both Justice and Care Elizabeth Chamberlain and Barbara Houston

The Cultural and Social Foundations of Educational Leadership Romuald Normand, Leif Moos, Min Liu, Pierre Tulowitzki, 2021-07-12 This book identifies the cultural and moral foundations of country specific educational governance and school leadership and presents the principles of justice and the diversity of common goods that guide leadership practices in schools It contributes to an existing research field that studies diversity and ethical leadership in schools The social dimension of school leadership is not limited to issues related to equality and equity or social inclusion The capacity of leaders to promote civic mindedness and social cooperation consensus

and acceptance of others the right balance between freedom and duties and reciprocity of obligations are essential to maintain democratic rights and facilitate the life together while respecting ethnic and cultural differences Therefore the book gathers contributions from a range of international authors capable of reporting these moral and cultural features while broadening the research perspectives on school leadership *What Do Philosophers of Education Do?* Claudia Ruitenberg, 2010-05-18 This volume of essays demonstrates and comments on philosophical methods in educational research Offers a clear picture of what philosophers do when they study education Brings together a series of essays from an international cast of contributors from Canada UK Finland and Cyprus Examines a range of new and established philosophical methods which can be used in educational research Demonstrates how philosophy of education can be understood methodologically Draws from both Continental and Analytical traditions Fills a gap in the research methods literature in education and the social sciences
