Film Theory Philip Simpson, Andrew Utterson, Karen J. Shepherdson, 2004 This major new collection identifies the critical and theoretical concepts which have been most significant in the study of film and presents a historical and intellectual context for the material examined *British films of the 1970s* Paul Newland, 2015-11-01 British films of the 1970s offers

highly detailed and insightful critical analysis of a range of individual films of the period This analysis draws upon an innovative range of critical methodologies which place the film texts within a rich variety of historical contexts The book sets out to examine British films of the 1970s in order to get a clearer understanding of two things the fragmentary state of the filmmaking culture of the period and the fragmentary nature of the nation that these films represent It argues that there is no singular narrative to be drawn about British filmmaking in the 1970s other than the fact that these films offer evidence of a Britain and ideas of Britishness characterised by vicissitudes While this was a period of struggle and instability it was also a period of openings of experiment and of new ideas Newland looks at many films including Carry On Girls O Lucky Man That'll be the Day The Shout and The Long Good Friday *Portrayals of Children in Popular Culture* Vibiana Bowman

Popular Cinema of the Third Reich Sabine Hake, 2010-01-01 Too often dismissed as escapist entertainment or vilified as mass manipulation popular cinema in the Third Reich was in fact sustained by well established generic conventions cultural traditions aesthetic sensibilities social practices and a highly developed star system not unlike its Hollywood counterpart in the 1930s This pathfinding study contributes to the ongoing reassessment of Third Reich cinema by examining it as a social cultural economic and political practice that often conflicted with contradicted and compromised the intentions of the Propaganda Ministry Nevertheless by providing the illusion of a public sphere presumably free of politics popular cinema helped to sustain the Nazi regime especially during the war years Rather than examining Third Reich cinema through overdetermined categories such as propaganda ideology or fascist aesthetics Sabine Hake concentrates on the constituent elements shared by most popular cinemas famous stars directors and studios movie audiences and exhibition practices popular genres and new trends in set design the reception of foreign films the role of film criticism and the representation of women She pays special attention to the forced coordination of the industry in 1933 the changing demands on cinema during the war years and the various ways of coming to terms with these filmic legacies after the war Throughout Hake's findings underscore the continuities among Weimar Third Reich and post 1945 West German cinema They also emphasize the codevelopment of German and other national cinemas especially the dominant Hollywood model

Building a New China in Cinema Laikwan Pang,2002 Building a New China in Cinema introduces English readers for the first time to one of the most exciting left wing cinema traditions in the world This unique book explores the history ideology and aesthetics of China's left wing cinema movement a quixotic film culture that was as political as commercial as militant as sensationalist Originating in the 1930s it marked the first

systematic intellectual involvement in Chinese cinema In this era of turmoil and idealism the movement's films were characterized by fantasies of heroism intertwined with the inescapable spell of impotency thus exposing the contradictions of the filmmakers underlying ideology as their political and artistic agendas alternately fought against or catered to the taste and viewing habits of a popular audience Political cinema became a commercially successful industry resulting in a film culture that has never been replicated Drawing on detailed archival research Pang demonstrates that this cinema movement was a product of the era's social economic and political discourses The author offers a close analysis of many rarely seen films richly illustrated with over eighty stills collected from the Beijing Film Archive With its original conceptual approach and rich use of primary sources this book will be of interest not only to scholars and fans of Chinese cinema but to those who study the relationship between cinema and modernity
