Williams identified As Williams might have expected there is a great deal of disagreement on selected points and even on the particular approach used But in their commitment to a reflective and always somewhat skeptical outlook the authors here continue a tradition that Williams felt was vital *Contemporary Debates in Metaphysics* Theodore Sider, John Hawthorne, Dean W. the oldest yet still one of the most active areas of philosophical research today There currently exists many annotated tomes of primary sources and a handful of single authored introductions to the field but there is no book that captures epistemology's dynamic growth and lively debates for a student audience In this volume eight leading philosophers debate four topics central to recent research in epistemology The A Priori C S I Jenkins and Michael Devitt The A Posteriori Richard Fumerton and Nicholas Silins The Regress of Justification Declan Smithies and Peter Klein Skepticism Anthony Brueckner and Ernest Sosa Ram Neta's introduction to the volume descriptions of each chapter annotated bibliographies for each controversy and supplemental guide to further controversies in epistemology with bibliographies help provide clearer and richer views of active controversies for all readers *The Bloomsbury Companion to Metaphysics* Neil A.
