Ethics and the English Novel from Austen to Forster Valerie Wainwright, 2016-05-13 Complicating a pervasive view of the ethical thought of the Victorians and their close relations which emphasizes the domineering influence of a righteous and repressive morality Wainwright discerns a new orientation towards an expansive ethics of flourishing or living well in Austen Gaskell Dickens Eliot Hardy and Forster In a sequence of remarkable novels by these authors Wainwright traces an ethical perspective that privileges styles of life that are worthy and fulfilling admirable and rewarding Presenting new research into the ethical debates in which these authors participated this rigorous and energetic work reveals the ways in which ideas of major theorists such as Kant F H Bradley or John Stuart Mill as well as those of now little known writers such as the priest Edward Tagart the preacher William Maccall and philanthropist Helen Dendy Bosanquet were appropriated and reappraised Further Wainwright seeks also to place these novelists within the wider context of modernity and proposes that their responses can be linked to the on going and animated discussions that characterize modern moral philosophy

Representing Realists in Victorian Literature and Criticism Daniel Brown, 2016-12-15 This book is about the historical moment when writers and critics first used the term realism to describe representation in literature and painting While scholarship on realism tends to proceed from an assumption that the term has a long established meaning and history this book reveals that mid nineteenth century critics and writers first used the term reluctantly with much confusion over what it might actually mean It did not acquire the ready meaning we now take for granted until the end of the nineteenth century In fact its first definitions came primarily by way of example and analogy through descriptions of current practitioners or through fictionalized representations of artists By investigating original debates over the term realism this book shows how writers simultaneously engaged with broader concerns about the changing meanings of what was real and who had the authority to decide this

Literature in a Time of Migration Josephine McDonagh, 2021-05-13 Literature in a Time of Migration offers a profound rethinking of British fiction in light of the new practices of human mobility that reshaped the nineteenth century world Building on the growing critical engagement with globalization in literary studies it confronts the paradox that at a time when transnational human movement occurred globally on an unprecedented scale British fiction appeared to turn inward to tell stories of local places that valorized stability and rootedness In contrast this book reveals how literary works from the end of the Napoleonic Wars to the advent of the New Imperialism were active components of a culture of colonization and emigration Fictional texts as print commodities were enmeshed in technologies of transport and communication and innovations in literary form were spurred by the conditions and consequences of human movement Examining works by Scott Charlotte Brontë Dickens and George Eliot as well as popular contemporaries Mary Russell Mitford John Galt and Thomas Martin Wheeler this volume demonstrates how literary texts overlap with an agenda set in public discussions of colonial emigration that they also helped to shape Debates about assisted emigration forced and free migration colonization settlement and the removal of native peoples figure in fictions in complex ways Read alongside writings by emigration theorists practitioners and enthusiasts for colonization fictional texts reveal a powerful and sustained engagement with British migratory practices and their worldwide consequences Literature in a Time of Migration is a timely reminder of the place and importance of migration within British cultural heritage
