Realities Of The Universe:

The Human Reality Valentin Matcas, 2016-04-20 There is a difference between the material objective world and the actual human reality since the human reality is very vast formed of this physical objective world and much more Since there is a difference between the actual human reality and the current knowledge about the human reality while by altering the knowledge itself about the human reality it remains separated into the consensual human reality and the actual normal objective human reality While if you lack awareness of all these you end up exploited as a human being in a human world Because you cannot study the human reality without comprehending those controlling the knowledge about the human reality and how they do so forcefully consensually or through stereotypes set in place since Aristotle and long before since this is how they end up controlling you and the entire world Furthermore you cannot form an accurate model of the universe if you do not understand yourself if you do not understand exactly your needs driving you to perform this study if you do not understand your mind constituting your means of understanding the universe and if you do not understand Life altogether spanning the universe actively involved in its structure shape behavior and development At the same time understanding the world around is the key to understanding yourself your life and your meaning in life and in the world closing this circle of knowledge Since this is why we consider the most relevant circumstances behind the famous studies of the world we find true ideas and how they influence the understanding of the world throughout time we seek to understand how and why people accept consensual scientific and ideological models of this world and how this influences their life interconnectivity and development while we discover systematically this entire world Furthermore we use this study of the human reality to test all significant knowledge and ideas including human reasoning past civilizations indoctrination Einstein astral planes of existence ideologies Renaissance the Brotherhood ideological control ages of Earth cosmogony social and mind control Giordano Bruno consensual interconnectivity Relativity human origins and development Copernicus the Consensual Matrix the Big Bang Theory dreams ancient wars stereotypes Galileo Galilei conscious reasoning Schrodinger his cat Creationism alternate realities and much more the entire human reality This book studies systematically the human reality focusing on accurate truth while discarding beliefs and errors of reasoning correlating with all relevant knowledge from physics religion spirituality society education history psychology and more If you want to learn more about everything surrounding you and everything that you really are this book is for you *The Theosophical Review* ,1905 **The British Quarterly Review** Henry Allon,1885 Ontology; Or, The Theory of Being Peter Coffey,1926 **Natural Theology, Or, Rational Theism** Milton Valentine,1891 *Proceedings at the ... nihilism As an atheist Dawkins strives to develop a scientific alternative to theism and while he declares that science is not a
religion he also proclaims it to be a spiritual enterprise His books are filled with fragmentary sketches of this spiritual
atheism resembling a great unfinished cathedral This book systematises and completes Dawkins arguments and reveals their
deep roots in Stoicism and Platonism Expanding on Dawkins ideas Steinhart shows how atheists can develop powerful ethical
principles compelling systems of symbols and images and meaningful personal and social practices Believing in Dawkins is a
