Five Generations of a Mexican American Family in Los Angeles Christina Chavez, 2007-04-09 Despite their citizenship and English monolingualism Mexican Americans have long been known to remain largely working class which academically has meant that they tend to be mostly high school graduates with low rates of college attendance and completion Attempting to understand this phenomenon Five Generations of a Mexican American Family in Los Angeles chronicles the home work and school lives of the author s multigenerational family throughout the twentieth century Using oral histories of 33 members across five generations the Fuentes story illuminates the interaction between race ethnicity and class at home in the labor market and in schools which circumscribe the opportunity and resources or lack thereof for academic success Generally findings show that these factors work together to reproduce the family s social standing over generations Equally important the analysis reveals how the persistence and strength of the Fuentes heritage cultural values buena educaci n and familism have insulated them from the continued threat of racial discrimination and economic hardship in American life The Fuentes story provides the reader with a keen view of the process by which Fuentes moved from immigrants to ethnic Americans and shows how they have gracefully survived the harsh and unpredictable nature of being of a racial minority and the working class

sense of ethnic pride and unity **How Race Is Made in America** Natalia Molina, 2014 *How Race Is Made in America* examines Mexican Americans from 1924 when American law drastically reduced immigration into the United States to 1965 when many quotas were abolished to understand how broad themes of race and citizenship are constructed. These years shaped the emergence of what Natalia Molina describes as an immigration regime which defined the racial categories that continue to influence perceptions in the United States about Mexican Americans' race and ethnicity. Molina demonstrates that despite the multiplicity of influences that help shape our concept of race, common themes prevail. Examining legal, political, social, and cultural sources related to immigration, she advances the theory that our understanding of race is socially constructed in relational ways that is in correspondence to other groups. Molina introduces and explains her central theory, racial scripts, which highlights the ways in which the lives of racialized groups are linked across time and space and thereby affect one another. *How Race Is Made in America* also shows that these racial scripts are easily adopted and adapted to apply to different racial groups.

Homeland Aaron E. Sánchez, 2021-01-21 Ideas defer to no border, least of all the idea of belonging. So where does one belong and what does belonging even mean when a border inscribes one's identity? This dilemma so critical to the ethnic Mexican community is at the heart of *Homeland*, an intellectual, cultural, and literary history of belonging in ethnic Mexican thought through the twentieth century. Belonging, as Aaron E. Sánchez sees it, is an interwoven collection of ideas that defines human connectedness and that shapes the contours of human responsibilities and our obligations to one another. In *Homeland*, Sánchez traces these ideas of belonging to their global, national, and local origins and shows how they have transformed over time. For pragmatic, ideological, and political reasons, ethnic Mexicans have adapted, adopted, and abandoned ideas about belonging as shifting conceptions of citizenship disrupted old and new ways of thinking about roots and shared identity around the globe. From the Mexican Revolution to the Chicano Movement in Texas and across the nation, journalists, poets, lawyers, labor activists, and people from all walks of life have reworked or rejected citizenship as a concept that explained the responsibilities of people to the state and to one another. A wealth of sources, poems, plays, protests, editorials, and manifestos demonstrate how ethnic Mexicans responded to changes in the legitimate means of belonging in the twentieth century. With competing ideas from both sides of the border, they expressed how they viewed their position in the region, the nation, and the world in ways that sometimes united and often divided the community. A transnational history that reveals how ideas move across borders and between communities, *Homeland* offers welcome insight into the defining and changing concept of belonging in relation to citizenship. In the process, the book marks another step in a promising new direction for Mexican American intellectual history.

A Place at the Nayarit Natalia Molina, 2024-02-13 In 1951 Doña Natalia Barraza opened the Nayarit, a Mexican restaurant in Echo Park, Los Angeles. With *A Place at the Nayarit*, historian Natalia Molina traces the life's work of her grandmother, remembered by all who knew her as Doña Natalia, a generous, reserved, and extraordinarily capable woman. Doña Natalia immigrated alone from Mexico to L.A.

adopted two children and ran a successful business. She also sponsored, housed, and employed dozens of other immigrants, encouraging them to lay claim to a city long characterized by anti-Latinx racism. Together, the employees and customers of the Nayarit maintained ties to their old homes while providing one another safety and support. [Routledge Handbook of Chicana/o Studies](#) Francisco A. Lomelí, Denise A. Segura, Elyette Benjamin-Labarthe, 2018-08-06 The Routledge Handbook of Chicana o Studies is a unique interdisciplinary resource for students, libraries, and researchers interested in the largest and most rapidly growing racial/ethnic community in the United States and elsewhere, which can either be identified as Chicano, Latino, Hispanic, or Mexican American. Structured around seven comprehensive themes, the volume is for students of American studies, the Social Sciences, and the Humanities. The volume is organized around seven critical domains in Chicana o Studies: Chicana o History and Social Movements, Borderlands, Global Migrations, Employment and Citizenship, Cultural Production in Global and Local Settings, Chicana o Identities, Schooling, Language and Literacy, Violence, Resistance, and Empowerment, International Perspectives. The Handbook will stress the importance of the historical origins of the Chicana o Studies field. Starting from myth of origins, Aztlan, alleged cradle of the Chicana o people, lately substantiated by the findings of archaeology and anthropology over Spanish Indigenous relations until the present time, Essays will explore cultural and linguistic hybridism and showcase artistic practices, visual arts, music, and dance through popular folklore or high culture achievements, museums, installations, highlighting the growth of a critical perspective grounded on key theoretical formulations including borderlands theories, intersectionalities, critical race theory, and cultural analysis. **The Oxford Encyclopedia of American Social History** Lynn Dumenil, 2012-06-07 The Oxford Encyclopedia of American Social History is the first reference work to eschew a narrow focus on past presidents, intellectuals, military heroes, and other exhaustively studied and well-remembered persons, and instead examine the history of ordinary Americans. The more than 450 entries in the Encyclopedia examine our shared history from the bottom up, with entries on the way automobiles shaped American lives, the westward movement of settlers and farmers in the eighteenth and nineteenth centuries, the transformation of work over time, the women's suffrage movement, counterculture, leisure activities, consumption patterns, voting habits, population movements, racial divides, and many more fascinating topics intended to help readers develop a richer framework for understanding the social experience of Americans throughout history. Moga, 2024-04-19 Steven Moga offers an unprecedented and multidisciplinary tour of urban lowlands, bringing a fresh perspective to the history of urban development in nineteenth and early twentieth-century America. Looking closely at the Harlem Flats in New York City, Black Bottom in Nashville, Swede Hollow in St. Paul, and The Flats in Los Angeles, Moga compares and contrasts patterns of land use, reactions to disease, and public health, the treatment of waste, and social discrimination against immigrants, ethnic groups, and African Americans. He creates an

Cinema between Latin America and Los Angeles Colin Gunckel, Jan-Christopher Horak, Lisa Jarvinen, 2019-02-08 Historically Los Angeles and its exhibition market have been central to the international success of Latin American cinema Not only was Los Angeles a site crucial for exhibition of these films but it became the most important hub in the western hemisphere for the distribution of Spanish language films made for Latin American audiences Cinema between Latin America and Los Angeles builds upon this foundational insight to both examine the considerable ongoing role that Los Angeles played in the history of Spanish language cinema and to explore the implications of this transnational dynamic for the study and analysis of Latin American cinema before 1960 The volume editors aim to flesh out the gaps between Hollywood and Latin America American imperialism and Latin American nationalism in order to produce a more nuanced view of transnational cultural relations in the western hemisphere
