Rebuilding The House Of Israel Architectures Of Gender In Jewish Antiquity Divinations:

Rebuilding the House of Israel Cynthia M. Baker, 2002 This book investigates the mappings of ideas about sexual and ethnic difference in Galilee during the centuries following the last Jewish revolt against the Roman Empire centuries that saw major socioeconomic changes in the region as well as the development of that small community of Jewish authors authorities known as the rabbis It examines aspects of Jewish identity as these were constructed both in the earliest rabbinic texts and on the ground through practices that created or contested topographies of self vs other male vs female and insider vs outsider Three sociospatial sites which the author explores through texts and archaeology ground this study house marketplace and courtyard alleyway The book questions long standing historical narratives that have cast ancient Jewish women as private housebound creatures and Jewish men as public social mobile agents Offering useful strategies for working with and combining literary and nonliterary material remains it fleshes out a richer narrative of Jewish antiquity

Religion and Female Body in Ancient Judaism and Its Environments Géza G. Xeravits, 2015-04-24 The volume publishes papers read at the ninth International Conference on the Deuterocanonical Books Budapest 2012 The title of the conference and the issuing volume covers an on the one hand extremely important and on the other hand regrettably neglected aspect particularly of the ancient Jewish and Christian traditions Traditional manifestations of both Judaism and Christianity are predominantly masculine theological constructions Despite their harsh masculine orientation however neither Judaism nor Christianity lacks elaboration on the female principle When an ancient author chooses female imagery in order to make his message more emphatic the female body as such forms an integral part of their metaphors The contributions in this volume explore this phenomenon within the literature of early Judaism and within its broad environments

Gender in the Book of Ben Sira Teresa Ann Ellis, 2013-10-30 *Gender in the Book of Ben Sira* is a semantic analysis and also an investigation of hermeneutical pathways for performing such an analysis A comparison of possible Greek and Hebrew gender taxonomies precedes the extensive delineation of the target category gender The delineation includes invisible influences in the Book of Ben Sira such as the author's choices of genre and his situation as a member of a colonized group within a Hellenistic empire When the Book of Ben Sira's genre constrained invectives against women and male fools are excluded the remaining expectations for women and for men are mostly equivalent in terms of a pious life lived according to Torah However Ben Sira says nothing about distinctions at the level of how living according to Torah would differ for the two groups His book presents an Edenic ideal of marriage through allusions to Genesis 1 to 4 and a substantial overlap of erotic discourse for the female figures of Wisdom and the intelligent wife creates tropes similar to those of the Song of Songs In addition Ben Sira's colonial status affects what he says and how he says it by writing in Hebrew he could craft the Greek genres of encomium and invective to carry multiple levels of meaning that subvert Hellenistic Greek claims to cultural superiority

The Birth of Doubt Moshe Halbertal, 2020-04-08 A systematic attempt to understand the rabbinic world through its approach to confronting uncertainty In the history of halakhah the treatment of uncertainty became one of the most complex fields of intense study In his latest book Moshe Halbertal focuses on examining the point of origin of the study of uncertainty in early rabbinic literature including the Mishnah Tosefta and halakhic midrashim Halbertal explores instructions concerning how to behave in situations of uncertainty ranging from matters of ritual purity to lineage and marriage to monetary law and to the laws of forbidden foods This examination of the rules of uncertainty introduced in early rabbinic literature reveals that these rules were not aimed at avoiding but rather at dwelling in the midst of uncertainty thus rejecting the sectarian isolationism that sought to minimize a community's experience of and friction with uncertainty Features A thorough investigation of the principles concerning how to behave in cases of uncertainty An examination of two distinct modes for coping with uncertainty

Rabbis as Romans Hayim Lapin, 2012-07-02 Conventionally the history of the

rabbinic movement has been told as a distinctly intra Jewish development a response to the gaping need left by the tragic destruction of the Jerusalem Temple in 70 CE In Rabbis as Romans Hayim Lapin reconfigures that history by drawing sustained attention to the extent to which rabbis participated in and were the product of a Roman and late antique political economy Rabbis as a group were relatively well off literate Jewish men an urban sub elite in a small generally insignificant province of the Roman empire That they were deeply embedded in a wider Roman world is clear from the urban orientation of their texts the rhetoric they used to describe their own group mirroring that used for Greek philosophical schools their open embrace of Roman bathing and their engagement in debates about public morals and gender that crossed regional and ethnic lines Rabbis also form one of the most accessible and well documented examples of a nativizing traditionalist movement in a Roman province It was a movement committed to articulating the social ritual and moral boundaries between an Israelite us and the nations To attend seriously to the contradictory position of rabbis as both within and outside of a provincial cultural economy says Lapin is to uncover the historical contingencies that shaped what later generations understood as simply Judaism and to reexamine in a new light the cultural work of Roman provincialization itself

Urban Religion Jörg Rüpke, 2020-02-24 So far religion has been seen as cause for dramatic developments in the history of cities it has contributed to the monumentalisation of centres and or has given importance to ex centric places Very recently anthropologists have been discovering religion in the contemporary global city But still awaiting historical investigation is the specific urban character of religious ideas practices and

institutions and the role of urban space shaping this very religion in the course of history The time span from the Hellenistic age to Late Antiquity was crucial in the establishment of concepts and institutions of religion and witnessed extended waves of urbanisation Rome being central to this In addressing this problem this book fills a significant gap in the scholarship on urban religion across time Taking seriously the proposition that space is condition medium and outcome of social relations the development of urban religion in lived urban space and urban culture or urbanity offers a lens onto processes of religious change that have been neglected for the history of religion and for the study of urbanism The key thesis is that city space engineered the major changes that revolutionised religions This stimulating book makes use of archaeology and history to address religion as an essential component of urban life in both the past and the present With a strong basis in the ancient Mediterranean as well as an insightful view of modern urban life R pke emphasizes that the practice and performance of religion at the everyday level is as essential in the creation of an urban ethos as the grand temples and institutions promulgated by the elite Monica L Smith author of *Cities The First 6 000 Years* J rg R pke offers a characteristically original and learned series of reflections on some of the many ways in which the history of religions and the history of cities might be entangled Urban Religion offers no single overarching thesis but it is consistently thought provoking and suggests many intriguing lines of investigation for the future Greg Woolf Institute of Classical Studies London
