

50 Crucial Tips In Rebuilding Your Relationship – 101waystogetexback.com

dedication, and a new direction can begin anew what you once enjoyed.

22. **Make a plan together.** You must decide how your relationship will proceed from here. Use every opportunity available to you to begin the process of rebuilding. Just like rebuilding a house after a terrible storm destroys it, you must begin at the foundation and work your way up to the concepts that have been damaged in your relationship.
23. **Laugh and have fun with each other.** You need to share a hobby or find an activity that interests both of you and have fun with it. This might be a time to try something new that you both have discussed in the past but never made time to do. Now is the time to make time! Laughter is medicine for the soul. Give your souls a good dose of laughter as often as possible.
24. **Understand that you will rebuild a new relationship.** The rebuilding process is not to recapture the relationship you had. This crisis was caused by whatever was wrong in the old relationship; this is the time for a new direction. Use different approaches and strategies to form a relationship that is much stronger and healthier than the old one was.
25. **Begin to think like a couple thinks.** You want to be an effective team during this rebuilding process so you must begin to think like an efficient team. You can't be selfish nor can you be so independent that you won't give up ideas that an individual would use in problem solving or other situations that might arise. You want to approach everything as a couple so together you can reap double the rewards.

[Crossing into Manhood: A Men's Studies Curriculum](#)

Christopher P. Mason, 2006 Many scholars have documented and decried the crisis in American masculinity There is a preponderance of evidence showing that males suffer from many physical emotional and social ills due to the gender scripts with which they were raised and which continue to govern men's lives Throughout the millennia and across cultures

initiation rites of passage have been utilized as an effective means of transitioning young males into manhood. Modern culture suffers from a dearth of rites of passage leaving many boys stuck in puerile attitudes and behaviors and unable to make a wholesome transition into mature masculinity. *Crossing into Manhood* is a much needed guide on assisting late adolescent boys transition into manhood. It proposes a school based curriculum and rite of passage paradigm to help young men make the difficult passage into manhood. Utilizing resources from diverse academic disciplines, this book surveys the psychoanalytic, the social constructionist and the essentialist perspectives on masculine gender. As a result, a men's studies curriculum has been formulated, one that offers a balanced bio-psycho-social conceptualization of masculine identity. Educators will find the contents of this book helpful in providing the key conceptual information necessary to teach a men's studies course to late adolescent boys. This book will provoke further dialogue and work among educators and other adults in this important area.
