Roberts,Barry Ferguson,Mathias Bös,2013-02-01 Contrary to mid twentieth century predictions ethnic pluralism has increased dramatically in North America and significantly in Europe Neither the post 9 11 emphasis on international border security nor anti immigration and anti multiculturalism movements have affected the fifty year trend of increasing labour mobility and sustained levels of migration The ethnic pluralism accompanying this powerful trend has fueled academic research and public debate Contributors report on and develop a conceptualization of ethnic social incorporation and multiculturalism in Canada the United States Germany Greece Bulgaria and Italy This group of countries displays a remarkable variety of both ethnic diversity and public policy responses to ethnic social incorporation over the past four decades It includes two countries Canada and the United States built upon very large scale immigration over the course of more than a century two countries Greece and Italy which until recently were characterized by large scale emigration but now are grappling with immigration one country Bulgaria that was until the 1990s insulated from extensive migration and faces a demographic slump and one Germany that has experimented with isolating temporary populations but is now addressing the responsibilities of permanent immigration Multicultural Variations includes national reports describing each of the six countries under investigation and is book ended by introductory and concluding chapters that present a new understanding of and synthesis on multiculturalism that is distinct from either enthusiastic support or ideological critiques Contributors include Mathias B s Philipps Universit t Marburg Germany Antonio Chiesi Universit degli Studi di Milano Italy Jason Edgerton University of Manitoba Canada Barry Ferguson University of Manitoba Canada Nikolai Genov Freie Universit t Berlin Germany Louis Hicks St Mary s College of Maryland USA Paul Kingston University of Virginia USA Laura Maratou Alipranti National Centre for Social Research Athens Greece Lance W Roberts University of Manitoba Canada Sonia Stefanizzi Universit degli Studi di Milano Bicocca Italy and Susanne von Below Johann Wolfgang Goethe Universit t Frankfurt Germany *Counterpreservation* Daniela Sandler,2016-12-15 COUNTERPRESERVATION Contents List of Illustrations Preface Acknowledgments Introduction 1 Counterpreservation as a Concept 2 Living Projects Collective Housing Alternative Culture and Spaces of Resistance 3 Cultural Centers History Architecture and Public Space 4 Decrepitude and Memory in the Landscape 5 Counterpreservation in Reverse 6 Destruction and Disappearance East German Ruins Conclusion Toward an Architecture of Change Index **Teaching the American Civil Rights Movement** Julie Buckner Armstrong,Susan Hult

Crime, Risk and Insecurity Tim Hope, Richard

Sparks,2012-11-12 This book presents new empirical and conceptual work on the questions of fear anxiety risk and trust both as problems of everyday living and as key themes in the culture and politics of contemporary Western societies The volume includes contributions from distinguished social researchers from Britain the United States Germany and Italy and will be of interest to academics and students in the areas of criminology and sociology Imagined Homes Hans Werner,2012-10-18 Imagined Homes Soviet German Immigrants in Two Cities is a study of the social and cultural integration of two migrations of German speakers from Eastern Europe and the Soviet Union to Winnipeg Canada in the late 1940s and Bielefeld Germany in the 1970s Employing a cross national comparative framework Hans Werner reveals that the imagined trajectory of immigrant lives influenced the process of integration into a new urban environment Winnipeg s migrants chose a receiving society where they knew they would again be a minority group in a foreign country while Bielefeld s newcomers believed they were going home and were unprepared for the conflict between their imagined homeland and the realities of post war Germany Werner also shows that differences in the way the two receiving societies perceived immigrants and the degree to which secularization and the sexual and media revolutions influenced these perceptions in the two cities were crucially important in the immigrant experience **Leviathan Transformed**

Gaming the Iron Curtain Jaroslav Svelch,2023-09-19 How amateur programmers in 1980s Czechoslovakia discovered games as a medium using them not only for entertainment but also as a means of self expression Aside from the exceptional history of Tetris very little is known about gaming culture behind the Iron Curtain But despite the scarcity of home computers and the absence of hardware and software markets Czechoslovakia hosted a remarkably active DIY microcomputer scene in the 1980s producing more than two hundred games that were by turns creative inventive and politically subversive In *Gaming the Iron Curtain* Jaroslav velch offers the first social history of gaming and game design in 1980s Czechoslovakia and the first book length treatment of computer gaming in any country of the Soviet bloc velch describes how amateur programmers in 1980s Czechoslovakia discovered games as a medium using them not only for entertainment but also as a means of self expression Sheltered in state supported computer clubs local programmers fashioned games into a medium of expression that unlike television or the press was neither regulated nor censored In the final years of Communist rule Czechoslovak programmers were among the first in the world to make activist games about

current political events anticipating trends observed decades later in independent or experimental titles Drawing from extensive interviews as well as political economic and social history Gaming the Iron Curtain tells a compelling tale of gaming the system introducing us to individuals who used their ingenuity to be active be creative and be heard **Martin Kippenberger** Chris Reitz, 2023-06-06 An illuminating study of the work of artist Martin Kippenberger whose art expressed the enthusiasms and frustrations of the West German middle class Martin Kippenberger Everything Is Everywhere is the first scholarly monograph in English on West German artist Martin Kippenberger 1953 1997 one of the most prominent German artists of the 1980s In this book Chris Reitz shows that the condition of Kippenberger's art was an endless enthusiastic searching constrained by the impossibility of fulfillment A child during West Germany's Wirtschaftswunder the economic miracle of the 1950s and 1960s and a young adult during the economic recession and political tumult of the 1970s Kippenberger belonged to the first truly postwar generation But largely uninterested in the legacy of National Socialism that had occupied his predecessors Kippenberger instead pursued a hyperproductive artistic practice that reflected the dreams and fears of the ascendent 1980s West German middle class Kippenberger's ambitions took him everywhere he founded a museum in Greece invested in a fashion business and a restaurant and even bought a gas station in Brazil He made art in a dizzying range of genres from paintings to poetry from posters to stickers He made art out of his appetites too producing art on the theme of his own alcoholism Intensely entrepreneurial Kippenberger carried out an artistic practice in which his diverse endeavors and the people who joined him in them were all connected in a sprawling network Reitz deftly presents Kippenberger's career as an allegory of the neoliberal networks of capital technology and culture that spanned Europe and America in the 1980s The Handbook of Community Practice Marie Weil, Michael S. Reisch, Mary L. Ohmer, 2013 Written by some of the most influential scholars in the field this Handbook covers community development organizing planning and social change as well as key issues fields of practice and global approaches *Perverse Incentives* Theodore Caplow, 1994-08-30 Problems considered include careless design social technology health care public schools welfare criminal justice and compensation of injuries *Convergence Or Divergence?* Simon Langlois, Theodore Caplow, Henri Mendras, Wolfgang Glatzer, 1994 A cross national study of social trends in the United States Germany France and Quebec Convergence or Divergence is a revealing exploration of the patterns of social evolution in modernized societies The analyses in this volume are based on the four national profiles already published in the Comparative Charting of Social Change series Borderlines in a Globalized World G. Preyer, Mathias Bös, 2013-11-11 Scholars of different schools have extensively analyzed world systems as networks of communication under the fashionable heading globalization Our collected new research pushes the argument one step further Globalization is not a homogenization of all social life on earth It is a heterogeneous process that connects the global and the local on different levels To understand these contemporary developments this book employs innovative concepts strategies of research and explanations Globalization is a metaphor for

different borderstructures new borderlines and conditions of membership which emerge in a global world system As a world system expands it incorporates new territories and new peoples The process of incorporation creates frontiers or boundaries of the world system These frontiers or boundary zones are the locus of resistance to incorporation ethnogenesis ethnic transformation and ethnocide Transatlantic Divide Alberto Martinelli, 2007-11-08 The book describes interprets and analyzes the key features of European society and American society and major social trends in the United States and in the European Union in the last 50 years The United States of America and the European Union are the two strongest economic powers in the contemporary world roughly equivalent in terms of GNP market size and scientific potential but asymmetrical in terms of political influence and military might The US and the EU can be both seen as successful examples of economic development and of political and cultural modernization But they have followed different paths to reach such a position They can be considered as two variants of Western modernity The systematic description of trends for the US and the EU taken as whole societies and the interpretation of similarities and differences and of major changes over time would be already a significant scientific work since they would fill a void in today's social science literature In fact there are several studies comparing the US with one or more European countries but there is no comparative study of the United States with the European Union taken as a single society The importance of the comparison is self evident for discussing such questions as what kind of society the US and the EU constitute how similar and how different are they are they two variants of Western modernity or two wholly distinct models of society American exceptionalism and European uniqueness are the two societal models converging or diverging which are the distinctive features the American model of society is it departing from its core culture and institutions is there a European society in the making how diverse are the member countries of the EU which are the distinctive features of the European project which model of society seems more reactive to the challenges of globalization The approach is new insofar as it assumes the countries of the European Union as increasingly forming a single society with gradually converging trends and common features and considers the differences among member countries as regional differences within the European society The conclusion is that in spite of different foreign policy perspectives and different national priorities however the US and the EU are bound not only to compete but also to work together Although the relationship will be more or less turbulent more or less friendly according to the events of global politics and to the characters of governments and leaders of the two unions it will remain a close relationship for long time As any sea the Atlantic ocean not only divides but also unites the peoples on its shores
