Habinek,2005-07-27 In this bold work Thomas Habinek offers an entirely new theoretical perspective on Roman cultural history Although English words such as literature and religion have their origins in Latin the Romans had no such specific concepts Rather much of the sense of these words was captured in the Latin word *carmen* usually translated into English as song Habinek argues that for the Romans song encompassed a wide range of ritualized speech including elements of poetry storytelling and even the casting of spells Habinek begins with the fraternal societies or *sodalitates* which predated the Republic and endured into the Imperial era and whose rites although adapted over time to different deities and cults were from the beginning centered on song perhaps most notably in the ancient *Carmen Saliare* He goes on to show how this early use of song became a paradigm for cultural reproduction throughout Roman history Ritual mastery of the chaos of everyday life embodied and enacted in song produced and transmitted the beliefs on which Roman culture was founded and by which Roman communities were sustained By the emergence of the Empire song in all of its senses served in particular to reproduce the power of the state organizing relations of power at every level of society Johns Hopkins University Press *Bibliographie Parémiologique.
