participation both formal and informal in the creation of what we now call Spanish America is reflected in its literary legacy Stacey Schlau examines what women from a wide spectrum of classes and races have to say about the societies in which they lived and their place in them Schlau has written the first book to study a historical selection of Spanish American women's writings with an emphasis on social and political themes Through their words she offers an alternative vision of the development of narrative genres critical fictional and testimonial from colonial times to the present The authors considered here represent the chronological yet nonlinear development of women's narrative They include Teresa Romero Zapata accused before the Inquisition of being a false visionary Inés Suárez nun and writer of spiritual autobiography Gertrudis Gómez de Avellaneda author of an indigenist historical romance Magda Portal whose biography of Flora Tristán furthered her own political agenda Dora Alonso who wrote revolutionary children's books Domitila Barrios de Chungara political leader and organizer Elvira Orphé whose novel unpacks the psychology of the torturer and several others who address social and political struggles that continue to the present day Although the writers treated here may seem to have little in common all sought to maneuver through institutions and systems and insert themselves into public life by using the written word often through the appropriation and modification of mainstream genres In examining how these authors stretched the boundaries of genre to create a multiplicity of hybrid forms Schlau reveals points of convergence in the narrative tradition of challenging established political and social structures Outlining the shape of this literary tradition she introduces us to a host of neglected voices as well as examining better known ones who demonstrate that for women simply writing can be a political act

Moruzzi Kelly Oliver Tilottma Rajan Jacqueline Rose Allison Weir Mary Bittner Wiseman Ewa Ziarek Alchemy in Contemporary Art Urszula Szulakowska, 2017-07-05 Alchemy in Contemporary Art analyzes the manner in which twentieth century artists beginning with French Surrealists of the 1920s have appropriated concepts and imagery from the western alchemical tradition This study examines artistic production from c 1920 to the present with an emphasis on the 1970s to 2000 discussing familiar names such as Andre Breton Salvador Dali Yves Klein Joseph Beuys and Anselm Kiefer as well as many little known artists of the later twentieth century It provides a critical overview of the alchemical tradition in twentieth century art and of the use of occultist imagery as a code for political discourse and polemical engagement The study is the first to examine the influence of alchemy and the Surrealist tradition on Australian as well as on Eastern European and Mexican art In addition the text considers the manner in which women artists such as Leonora Carrington Remedios Varo and Rebecca Horn have critically revised the traditional sexist imagery of alchemy and occultism for their own feminist purposes Surrealism, Occultism and Politics Tessel M. Bauduin, Victoria Ferentinou, Daniel Zamani, 2017-10-16 This volume examines the relationship between occultism and Surrealism specifically exploring the reception and appropriation of occult thought motifs tropes and techniques by Surrealist artists and writers in Europe and the Americas from the 1920s through the 1960s Its central focus is the specific use of occultism as a site of political and social resistance ideological contestation subversion and revolution Additional focus is placed on the ways occultism was implicated in Surrealist discourses on identity gender sexuality utopianism and radicalism **Apollodoriana** Jordi Pàmias, 2017-09-25 A growing interest in myth over the last decades has brought to the fore the main mythographical manual that has come down to us from Antiquity Apollodorus Bibliotheca A number of recent editions shows this trend like the commented translations of Carrière Masson 1991 and Scarpi Ciani 1996 the translations of Guidorizzi 1995 Brodersen 2004 Dräger 2005 and Smith Trzaskoma 2007 or the critical text by Papathomopoulos 2010 The publication of the first two volumes 2010 and 2012 of Cuartero's massive critical and commented bilingual edition for the Fundació Bernat Metge series seemed the occasion to address this text from innovative scholarly perspectives The origins of the present volume lay in a colloquium held at the Universitat Autònoma de Barcelona in 2013 Despite its crucial interest for the scientific study of ancient myth no conference devoted to this engaging text was held prior to that one And to this date no monographic volume on Apollodorus mythology exists either To cover a broader scope of analysis three further papers have been commissioned to other specialists This collection of essays is meant to be a homage to Francesc J.
