Rendering The Regional Local Language In Contemporary Chinese Media:

Rendering the Regional Edward M. Gunn, 2006-01-01 For centuries the sub national languages of China have been a fundamental feature in daily life and popular culture while a standardized form of Mandarin has been adopted as the language of the state including education Suppressed during powerful movements to establish a modern national culture these local languages or dialects have nevertheless survived and their resurgence in the media and literature has caused tensions to surface Concerns for education law and commerce have all promoted a standard national language yet at the same time as local societies have undergone massive transformations the need to re imagine communities has repeatedly challenged the adequacy of a single language to represent them Moreover local languages have been presented in dramatically different and conflicted roles as symbols of the failure to assimilate to a cultural mainstream which in turn may be parodied as contingent and inadequate or asserting the identity of a community as a site of its own cultural production and not merely as a venue for transmitting a national culture Acknowledging local language as authentic may also reveal cultural hegemonies within regions and contested versions of communities This ground breaking study surveys in detail the sweep of local languages in television radio film and print culture of late twentieth century mainland China especially Beijing Shanghai Chongqing and Chengdu Hong Kong and Taiwan Focusing on these regions the analysis contrasts and compares these distinct communities to each other and to the ways in which they mediate culture as a national institution It draws on a wide range of critical cultural and media studies and explores how varied genres China in the Mix Ying Xiao, 2017-08-09 Scarce attention has been paid to the dimension of sound and its essential role in constructing image culture and identity in Chinese film and media China in the Mix fills a critical void with the first book on the sound languages scenery media and culture in post Socialist China In this study Ying Xiao explores fascinating topics including appropriations of popular folklore in the Chinese new wave of the 1980s Chinese rock n roll and youth cinema in fin de si cle China the political economic impact of free market imperatives and Hollywood pictures on Chinese film industry and filmmaking in the late twentieth century the reception and adaptation of hip hop and the emerging role of Internet popular culture and social media in the early twenty first century Xiao examines the articulations and representations of mass culture and everyday life concentrating on their aural oral manifestations in contemporary Chinese cinema and in a wide spectrum of media and cultural productions China in the Mix offers the first comprehensive investigation of Chinese film expressions and culture from a unique cohesive acoustic angle and through the prism of global media cultural exchange It shows how the complex evolving uses of sound popular music voice over silence noise and audio mixing in film and media reflect and engage the important cultural and socio historical shifts in contemporary China and in the increasingly networked world Xiao offers an innovative new conception of Chinese film and media and their audiovisual registers in the historiographical frame of China amid the global landscape **Made in Hong Kong** Anthony Fung, Alice Chik, 2020-04-19 Made in Hong Kong Studies in

Sonic Mobilities Adam Kielman,2022-04-20 A fascinating look at how the popular musical culture of Guangzhou expresses the city s unique cosmopolitanism Guangzhou is a large Chinese city like many others With a booming economy and abundant job opportunities it has become a magnet for rural citizens seeking better job prospects as well as

global corporations hoping to gain a foothold in one of the world's largest economies. This openness and energy have led to a thriving popular music scene that is every bit the equal of Beijing's. But the musical culture of Guangzhou expresses the city's unique cosmopolitanism. A port city that once played a key role in China's maritime Silk Road, Guangzhou has long been an international hub. Now new migrants to the city are incorporating diverse Chinese folk traditions into the musical tapestry. In *Sonic Mobilities*, ethnomusicologist Adam Kielman takes a deep dive into Guangzhou's music scene through two bands: Wanju Chuanzhang Toy Captain and Mabang Caravan, that express ties to their rural homelands and small town roots while forging new cosmopolitan musical connections. These bands make music that captures the intersection of the global and local that has come to define Guangzhou, for example by writing songs with a popular Jamaican reggae beat and lyrics in their distinct regional dialects mostly incomprehensible to their audiences. These bands create a sound both instantly recognizable and totally foreign, international and hyper local. This juxtaposition, Kielman argues, is an apt expression of the demographic, geographic, and political shifts underway in Guangzhou and across the country. Bridging ethnomusicology, popular music studies, cultural geography, and media studies, Kielman examines the cultural dimensions of shifts in conceptualizations of self, space, publics, and state in a rapidly transforming People's Republic of China.

The Culture of Language in Ming China Nathan Vedal, 2022-04-13 Winner 2023 Morris D Forkosch Prize Journal of the History of Ideas. The scholarly culture of Ming dynasty China (1368-1644) is often seen as prioritizing philosophy over concrete textual study. Nathan Vedal uncovers the preoccupation among Ming thinkers with specialized linguistic learning, a field typically associated with the intellectual revolution of the eighteenth century. He explores the collaboration of Confucian classicists and Buddhist monks, opera librettists, and cosmological theorists who joined forces in the pursuit of a universal theory of language. Drawing on a wide range of overlooked scholarly texts, literary commentaries, and pedagogical materials, Vedal examines how Ming scholars positioned the study of language within an interconnected nexus of learning. He argues that for sixteenth and seventeenth century thinkers, the boundaries among the worlds of classicism, literature, music, cosmology, and religion were far more fluid and porous than they became later. In the eighteenth century, Qing thinkers pared away these other fields from linguistic learning, creating a discipline focused on corroborating the linguistic features of ancient texts. Documenting a major transformation in knowledge production, this book provides a framework for rethinking global early modern intellectual developments. It offers a powerful alternative to the conventional understanding of late imperial Chinese intellectual history by focusing on the methods of scholarly practice and the boundaries by which contemporary thinkers defined their field of study.

A Companion to Modern Chinese Literature Yingjin Zhang, 2015-08-13 This wide-ranging Companion provides a vital overview of modern Chinese literature in different geopolitical areas from the 1840s to now. It reviews major accomplishments of Chinese literary scholarship published in Chinese and English and brings attention to previously neglected important areas. Offers the most thorough and concise coverage of modern Chinese literature to date, drawing

attention to previously neglected areas such as late Qing Sinophone and ethnic minority literature. Several chapters explore literature in relation to Sinophone geopolitics, regional culture, urban culture, visual culture, print media, and new media. The introduction and two chapters furnish overviews of the institutional development of modern Chinese literature in Chinese and English scholarship since the mid twentieth century. Contributions from leading literary scholars in mainland China and Hong Kong add their voices to international scholarship.

The Columbia Anthology of Modern Chinese Drama Xiaomei Chen, 2014-03-25. This condensed anthology reproduces close to a dozen plays from Xiaomei Chen's well received original collection *The Columbia Anthology of Modern Chinese Drama* along with her critical introduction to the historical, cultural, and aesthetic evolution of twentieth century Chinese spoken drama. Comprising representative works from the Republican era to postsocialist China, the book encapsulates the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty and vividly portrays the uncertainty and anxiety brought on by modernism, socialism, political conflict, and war. Chosen works from 1919 to 1990 also highlight the formation of national and gender identities during a period of tremendous social, cultural, and political change in China, and the genesis of contemporary attitudes toward the West. PRC theater tracks the rise of communism, juxtaposing ideals of Chinese socialism against the sacrifices made for a new society. Post Mao drama addresses the nation's socialist legacy, its attempt to reexamine its cultural roots, and postsocialist reflections on critical issues such as nation, class, gender, and collective memories. An essential, portable guide for easy reference and classroom use, this abridgment provides a concise yet well rounded survey of China's theatricality and representation of political life. The original work not only established a canon of modern Chinese drama in the West but also made it available for the first time in English in a single volume.

Dialect, Voice, and Identity in Chinese Translation Jing Yu, 2023-07-12. *Dialect, Voice, and Identity in Chinese Translation* is the first book length attempt to undertake a descriptive investigation of how dialect in British and American novels and dramas is translated into Chinese. Dialect plays an essential role in creating a voice of difference for the regional, social, or ethnic Others in English fiction. Translating dialect involves not only the textual representation of a different voice with target linguistic resources but also the reconstruction of various cultural, social, and ethnic identities and relations on the target side. This book provides a descriptive study of 277 Chinese translations published from 1931 to 2020 for three fictions: *The Adventures of Huckleberry Finn*, *Tess of the d'Urbervilles*, and *Pygmalion*, with a special focus on how the Dorset dialect, African American Vernacular English, and cockney in them have been translated in the past century in China. It provides a comprehensive description of the techniques, strategies, tendencies, norms, and universals, as well as diachronic changes and stylistic evolutions of the language used in dialect translation into Chinese. An interdisciplinary perspective is adopted to conduct three case studies of each fiction to explore the negotiation, reformulation, and reconstruction via dialect translation of the identities for Others and Us and their relations in the Chinese context. Shanghai Mundane Lei Ping, 2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society's persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era Shanghai Mundane offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism

Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and middle class Lei Ping discovers the city's persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology throughout the entire history of the People's Republic of China Ping argues that despite the socialist remolding of capitalist industry and commerce the post 1949 Chinese state failed to eradicate bourgeois heritage in the domain of everyday life in the Mao era which ironically contributed to its controversial policy reversals in the post Mao era from Deng to Xi What lies at the heart of the major intellectual conundrum namely the survival and revival of bourgeois sentiments is what Ping calls the unremovable Shanghai mundane This captivating and provocative account sheds new light on understanding the larger questions as to the crisis ridden practices of Chinese socialism and the raison d'être of the Chinese Communist Party in the twenty first century
