James Jennings,2004-07 As U S cities compete for economic resources many city leaders adopt business friendly policies which boost opportunities for big businesses and institutions in their area This progrowth strategy proposes to generate jobs for residents and higher tax revenues for local government As a result according to the logic of progrowth economic benefits will trickle down to improve the living conditions in working class and impoverished neighborhoods In spite of this strategy poverty rates among urban Latinos and Blacks is staggering even in cities that have pursued neoliberal policies These progrowth strategies seem to have had little or no impact on resolving problems like poverty unemployment homelessness and the alienation of youth from communities of color Community development has been and continues to be a response to these kinds of problems But local political struggles can determine the direction of community development towards neighborhood empowerment and representation of neighborhood interests versus community development on behalf of progrowth policies This issue of the ANNALS examines the interplay between progrowth politics community development and race It goes well beyond a broad brushstroke of the topic and examines several specific cities and how they have implemented these strategies and their impact on impoverished populations and race relations By using concrete examples the authors discuss how community development fits or does not fit within the framework of progrowth policies and politics The volume covers several important themes Community development is not politically neutral and must be discussed within a broad political economic and even global context Local politics play a major role in determining the direction nature and possibilities of community development A high level and sustained community participation is crucial for the representation of low income urban neighborhoods in cities pursuing progrowth policies Race remains a fundamental issue I city politics and influences the political interplay between progrowth strategies and community development Utilizing information and analysis across several disciplines this issue offers important research for students scholars and practitioners in areas of political science economics sociology urban studies and race relations      *The Creation of a Community Land Trust Program in Oakland, California* Amy Beth Cohen,2002      Georgia State University Law Review ,2005      Asset Building and

Community Development Gary Paul Green, Anna Haines, 2002 In Asset Building and Community Development Gary Paul Green and Anna Haines provide an engaging thought provoking interdisciplinary overview of the community development field They explore the history of the community development movement in the United States and in international settings Using an asset based approach that considers human physical social financial and environmental capital the authors skillfully demonstrate how local organizations are better able to meet community needs than governmental programs or market strategies

Levine, 2005 URBAN POLITICS POWER IN METROPOLITAN AMERICA mixes the best classic theory and research on urban politics with the most recent developments in urban and metropolitan affairs Six fundamental themes guide the book the importance of private power and the rise of public private partnerships the continuing role of formal rules and structures of government the importance of external affairs and intergovernmental relations in the modern city commonalties and differences among Frostbelt and Sunbelt cities the complexity of racial issues and the effect of the new immigration and the importance of the gendered city
