**Impressionists and Politics** Philip Nord,2014-04-04

Impressionists and Politics is an accessible introduction to the current debates about Impressionism Was the artistic movement really radical and innovative Is the term Impressionism itself an adequate characterization of the movement of painters and critics that took the mid nineteenth century Paris art world by storm By providing an historical background and context the book places the Impressionists roots in wider social and economic transformations and explains its militancy both aesthetic and political Impressionists and Politics is a concise history of the movement from its youthful inception in the 1860s through to its final years of recognition and then crisis

A more powerful innovation which seeks to discover not how things work but why we need things The standard text on innovation advises would be innovators to conduct creative brainstorming sessions and seek input from outsiders users or communities This kind of innovating can be effective at improving products but not at capturing bigger opportunities in the marketplace In this book Roberto Verganti offers a new approach one that does not set out to solve existing problems but to find breakthrough meaningful experiences There is no brainstorming which produces too many ideas unfiltered but a vision subject to criticism It does not come from outsiders but from one person's unique interpretation The alternate path to innovation mapped by Verganti aims to discover not how things work but why we need things It gives customers something more meaningful something they can love Verganti describes the work of companies including Nest Labs Apple Yankee Candle and Philips Healthcare that have created successful businesses by doing just this Nest Labs for example didn't create a more advanced programmable thermostat because people don't love to program their home appliances Nest's thermostat learns the habits of the household and bases its temperature settings accordingly Verganti discusses principles and practices methods and implementation The process begins with a vision and proceeds through developmental criticism first from a sparring partner and then from a circle of radical thinkers then from external experts and interpreters and only then from users Innovation driven by meaning is the way to create value in our current world where ideas are abundant but novel visions are rare If something is meaningful for both the people who create it and the people who consume it business value follows

**Twilight of the Belle Epoque** Mary McAuliffe,2014-03-16

Mary McAuliffe's Dawn of the Belle Epoque took the

reader from the multiple disasters of 1870-1871 through the extraordinary re-emergence of Paris as the cultural center of the Western world. Now in *Twilight of the Belle Époque*, McAuliffe portrays Paris in full flower at the turn of the twentieth century where creative dynamos such as Picasso, Matisse, Stravinsky, Debussy, Ravel, Proust, Marie Curie, Gertrude Stein, Jean Cocteau, and Isadora Duncan set their respective circles on fire with a barrage of revolutionary visions and discoveries. Such dramatic breakthroughs were not limited to the arts or sciences as innovators and entrepreneurs such as Louis Renault, André Citroën, Paul Poiret, François Coty, and so many others, including those magnificent men and women in their flying machines, emphatically demonstrated. But all was not well in this world remembered in hindsight as a golden age and wrenching struggles between Church and state as well as between haves and have-nots shadowed these years, underscored by the ever more ominous drumbeat of the approaching Great War, a cataclysm that would test the mettle of the City of Light even as it brutally brought the Belle Époque to its close. Through rich illustrations and evocative narrative, McAuliffe brings this remarkable era from 1900 through World War I to vibrant life.

*A Companion to Impressionism* André Dombrowski, 2028-08-14

The 21st century's first major academic reassessment of Impressionism, providing a new generation of scholars with a comprehensive view of critical conversations. Presenting an expansive view of the study of Impressionism, this extraordinary volume breaks new thematic ground while also reconsidering established questions surrounding the definition, chronology, and membership of the Impressionist movement. In 34 original essays from established and emerging scholars, this collection considers a diverse range of developing topics and offers new critical approaches to the interpretation of Impressionist art. Focusing on the 1860s to 1890s, this Companion explores artists who are well represented in Impressionist studies, including Monet, Renoir, Degas, and Cassatt, as well as Morisot, Caillebotte, Bazille, and other significant yet lesser-known artists. The essays cover a wide variety of methodologies in addressing such topics as Impressionism's global predominance at the turn of the 20th century, the relationship between Impressionism and the emergence of new media, the materials and techniques of the Impressionists, and the movement's exhibition and reception history. Part of the acclaimed Wiley-Blackwell Companions to Art History series, this important new addition to scholarship in this field reevaluates the origins, chronology, and critical reception of French Impressionism. Discusses Impressionism's account of modern identity in the contexts of race, nationality, gender, and sexuality. Explores the global reach and influence of Impressionism in Europe, the Middle East, East Asia, North Africa, and the Americas. Considers Impressionism's relationship to the emergence of film and photography in the 19th century. Considers Impressionism's representation of the private sphere as compared to its depictions of public issues such as empire, finance, and environmental change. Addresses the Impressionist market and clientele, period criticism, and exhibition displays from the late 19th century to the middle of the 20th century. Features original essays by academics, curators, and conservators from around the world, including those from France, Germany, the United States, the United Kingdom, Japan, Turkey, and Argentina. *The Wiley-Blackwell Companion to*
