Campbell, Stephanie Wellman, 2023-12-19 Justice Indigenous Peoples and Canada A History of Courage and Resilience brings together the work of a number of leading researchers to provide a broad overview of criminal justice issues that Indigenous people in Canada have faced historically and continue to face today Both Indigenous and Canadian scholars situate current issues of justice for Indigenous peoples broadly defined within the context of historical realities and ongoing developments By examining how justice is defined both from within Indigenous communities and outside of them this volume examines the force of Constitutional reform and subsequent case law on Indigenous rights historically and in contemporary contexts It then expands the discussion to include theoretical considerations particularly settler colonialism that help explain how ongoing oppressive and assimilationist agendas continue to affect how so called justice is administered From a critical perspective the book examines the operation of the criminal justice system through bail specialized courts policing sentencing incarceration and release It explores legal frameworks as well as current issues that have significantly affected Indigenous peoples such as the Truth and Reconciliation Commission the Inquiry into Missing and Murdered Indigenous Women and Girls human rights resurgence and identity This unique collection of perspectives exposes the disconcerting agenda of historical and modern day Canadian federal government policy and the continued denial of Indigenous rights to self determination It is essential reading for those interested in the struggles of the Indigenous peoples in Canada as well as anyone studying race crime and justice      **Report of the Aboriginal Justice Inquiry of Manitoba** Manitoba. Talking Back to the Indian Act Mary-Ellen Kelm, Keith D. Smith, 2018-01-01. Talking Back to the Indian Act is a comprehensive how-to guide for engaging with primary source documents. The intent of the book is to encourage readers to develop the skills necessary to converse with primary sources in more refined and profound ways. As a piece of legislation that is central to Canada's relationship with Indigenous peoples and communities and one that has undergone many amendments, the Indian Act is uniquely positioned to act as a vehicle for this kind of focused reading. Through an analysis of thirty-five sources pertaining to the Indian Act addressing governance, gender enfranchisement, and land, the authors provide readers with a much better understanding of this pivotal piece of legislation as well as insight into the dynamics involved in its creation and maintenance.

**Decolonising Indigenous Child Welfare** Terri Libesman, 2013-12-04. During the past decade, a remarkable transference of responsibility to Indigenous children's organisation has taken place in many parts of Australia, Canada, the USA, and New Zealand. It has been influenced by Indigenous peoples' human rights advocacy at national and international levels by claims to self-determination and by the globalisation of Indigenous children's organisations. Thus far, this reform has taken place with little attention from academic and non-Indigenous communities. Now, *Decolonising Indigenous Child Welfare: Comparative Perspectives* considers these developments and evaluating law reform with respect to Indigenous child welfare. It asks whether the pluralisation of responses to their welfare and well-being within a cross-cultural post-colonial context can improve the lives of Indigenous children. The legislative frameworks for the delivery of child welfare services to Indigenous children are assessed in terms of the degree of self-determination which they afford Indigenous communities. The book draws upon interdisciplinary research and the author's experience collaborating with the peak Australian Indigenous children's organisation for over a decade to provide a thorough examination of this international issue. Dr Terri Libesman is a Senior Lecturer in the Law Faculty at the University of Technology Sydney. She has collaborated, researched, and published for over a decade with the peak Australian Indigenous children's organisation.

Developing Restorative Justice Jurisprudence Tony Foley, 2016-04-22. What are the requirements for a just response to criminal wrongdoing? Drawing on comparative and empirical analysis of existing models of global practice, this book offers an approach aimed at restricting the current limitations of criminal justice process and addressing the current deficiencies. Putting restoration squarely alongside other aims of justice responses, the author argues that only when restorative questions are taken into account can institutional responses be truly said to be just. Using the three primary jurisdictions of Australia, New

Zealand and Canada the book presents the leading examples of restorative justice practices incorporated in mainstream criminal justice systems from around the world In conclusion the work provides a fresh insight into how today s criminal law might develop in order to bring restoration directly into the mix for tomorrow This book will be of interest to undergraduates postgraduate researchers and lecturers as well as lawyers who work in the field of criminal law criminologists social scientists and philosophers interested in ideas of wrongdoing and criminal justice responses to criminal offending

Restructuring Relations Rauna Kuokkanen, 2019-03-01 Adopted in 2007 the UN Declaration on the Rights of Indigenous Peoples establishes self determination including free prior and informed consent as a foundational right and principle Self determination both individual and collective is among the most important and pressing issues for Indigenous women worldwide Yet Indigenous women s interests have been overlooked in the formulation of Indigenous self government and existing studies of Indigenous self government largely ignore issues of gender As such the current literature on Indigenous governance conceals patriarchal structures and power that create barriers for women to resources and participation in Indigenous societies Drawing on Indigenous and feminist political and legal theory as well as extensive participant interviews in Canada Greenland and Scandinavia this book argues that the current rights discourse and focus on Indigenous state relations is too limited in scope to convey the full meaning of self determination for Indigenous peoples The book conceptualizes self determination as a foundational value informed by the norm of integrity and suggests that Indigenous self determination cannot be achieved without restructuring all relations of domination nor can it be secured in the absence of gender justice As a foundational value self determination seeks to restructure all relations of domination not only hegemonic relations with the state Importantly it challenges the opposition between self determination and gender created and maintained by international law Indigenous political discourse and Indigenous institutions Restructuring relations of domination further entails examining the gender regimes present in existing Indigenous self government institutions interrogating the relationship between Indigenous self determination and gender violence and considering future visions of Indigenous self determination such as repatriation of Indigenous governance and an independent statehood **The 325:**
