Report Of The Miller Center Commission On The Presidency And Science Advising:

Report of the Miller Center Commission on the Presidency and Science Advising Miller Center Commission on the Presidency and Science Advising, 1989-01 The commission consisting of nine highly placed public officials scientists educators science advisers and science writers looked at science advising as a presidential question rather than one of science policy The core proposition of this report is that the president needs a strong system of science advising which includes a skilled chief science adviser assisted by well qualified staff and with ready access to nongovernmental sources of advice and knowledge Furthermore the commission recommends that a new president consider a spectrum of possible roles for this very flexible staff position and select the roles that best satisfy his needs rather than accept a particular historical model of science advice A major responsibility of a science adviser is to give the president access to the expertise he needs from the science and engineering community inside and outside government Co published with the Miller Center of Public Affairs The Presidency and Science Advising Kenneth W. Thompson, 1986 The unifying theme of the present volume on the presidency and science advising is experience past and present Contributors who include A Hunter Dupree Wolfgang Panofsky Solomon J Buchsbaum William Graham Norman Hackerman Alvin Weinberg and Robert Quarles Marston examine science advising practices and problems from the times of the Founding Fathers to the Reagan administration Underpinning this collection of papers is an emphasis on continuity and change As in the area of political and legal thought the quality of scientific thinking of the founders stands out Co published with the Miller Center of Public Affairs The Miller Center Papers Pat Dunn, 1998 **Kenneth W. Thompson, The Prophet of Norms** F. Rajae, 2013-03-12 The aim of this book is to capture the international thought and practice of Kenneth W Thompson His career embodied three roles in which he revealed his thoughts and practice as a facilitator of space for encouraging debates scholarship and practice as an educator and most importantly as a theorist of international relations Miller Center Journal , 1995 Science & Government Report , 1989 **Science Trends** , 1988-11 **Worldwide Science and Technology Advice to the Highest Levels of Governments** William T.
