Hale, 2006-01-01 Both teachers and students are indebted to Professor Hale for this up to date comprehensive and high quality text Kenneth Kernaghan Brock University *From UI to EI* Georges Campeau, 2005 Established in 1940 in response to the Great Depression the original goal of Canada's system of unemployment insurance was to ensure the protection of income to the unemployed Joblessness was viewed as a social problem and the jobless as its unfortunate victims If governments could not create the right conditions for full employment they were obligated to compensate people who could not find work While unemployment insurance expanded over several decades to the benefit of the rights of the unemployed the mid 1970s saw the first stirrings of a counterattack as the federal government's Keynesian strategy came under siege Neo liberals denounced unemployment insurance and other aspects of the welfare state as inflationary and unproductive Employment was

increasingly thought to be a personal responsibility and the handling of the unemployed was to reflect a free market approach This regressive movement culminated in the 1990s counter reforms heralding a major policy shift The number of unemployed with access to benefits was halved during that time From UI to EI examines the history of Canada s unemployment insurance system and the rights it grants to the unemployed The development of the system its legislation and related jurisprudence are viewed through a historical perspective that accounts for the social political and economic context Campeau critically examines the system with emphasis upon its more recent transformations This book will interest professors and students of law political science and social work and anyone concerned about the right of the unemployed to adequate protection Literary History of Canada William H. New, Carl Berger, Alan Cairns, Frances G. Halpenny, Henry Kreisel, Douglas Lochhead, Philip Stratford, Clara Thomas, 1990-12-15 This new volume of the Literary History of Canada covers the continuing development of English Canadian writing from 1972 to 1984 As with the three earlier volumes this book is an invaluable guide to recent developments in English Canadian literature and a resource for both the general reader and the specialist researcher The contributors to this volume are Laurie Ricou David Jackel Linda Hutcheon Philip Stratford Barry Cameron Balachandra Rajan Robert Fothergill Brian Parker Cynthia Zimmerman Frances Frazer Edith Fowke Bruce G Trigger Alan C Cairns Douglas Williams Carl Berger Shirley Neuman Raymond S Corteen and Frances G Halpenny

Intergovernmental Relations,1989 **The State, Business, and Industrial Change in Canada** Michael M. Atkinson,William D. Coleman,1989-12-15 The late twentieth century has seen profound changes in the character of the international economic order According to the authors of this study Canada has failed to come to terms with those changes Our industrial policy is diffuse ad hoc and sectoral Michael Atkinson and William Coleman argue that in order to analyse Canada s industrial policy effectively particular attention must be given to industry organization state structures and systems of interest intermediation at the sectoral level To make such an analysis they introduce the concept of policy network and apply it to three types of industrial sectors the research intensive sectors of telecommunications manufacturing and pharmaceuticals the rapidly changing sectors of petrochemicals and meat processing and the contracting and troubled sectors of textiles clothing and dairy processing Through the lens of these sectors Coleman and Atkinson shed considerable light on the intersection of political considerations and policy development and offer a new base on which to move forward in planning for economic growth **The Art of the State** Thomas J. Courchene,Donald J. particular form of political organization for a complex society with multiple economic political geographic cultural and national divides faces important challenges The political realignment that brought the Conservative Party to power in the last quinquennium has set in motion a significant transformation of the Canadian state and its federal system of governance The contributors in this collection focus on three recurrent themes the issues arising from the management of ethno cultural diversity the existence of internal nations in Canada the First Nations and the Quebec nation in Quebec the presence of linguistic minorities French and English and the questions of identity linked to citizenship in a federal context that allows for the presence of multiple loyalties and the specific challenges raised by globalization and the extension of economic integration particularly between the United States and Canada This collection of studies on the role of the state reveals that our understanding of the evolution of the Canadian state and of the ensuing impact on federalism and federal provincial relations is not as complete as it should be
