Office of Education, 1875 *The Illegible Man* Will Kanyusik, 2025-01-07 How does the sudden onset of disability impact the sense of self in a person whose identity was at least in part predicated on the possession of what is culturally understood to be an able body How does this experience make visible the structures enabling society's shared notions of heteronormative masculinity In the United States the Second World War functioned as a key moment in the emergence of modern understandings of disability demonstrating that an increased concern with disability in the postwar period would ultimately lead to greater incoherence in the definitions

and cultural meanings of disability in America The Illegible Man examines depictions of disability in American film and literature in twentieth century postwar contexts beginning with the first World War and continuing through America's war in Vietnam Will Kanyusik searches for the origin of discourse surrounding disability and masculinity after the Second World War examining both literature and film both fiction and documentary their depictions of disability and masculinity and how many of these texts were created by the relationship between the culture industry and the Office of War Information in the 1940s Supported by original archival research The Illegible Man presents a new understanding of disability masculinity and war in American culture

Bureau of Education, 1874 Report on the War Richard Brevard Russell, 1943 **Amchitka and the Bomb** Dean W. Kohlhoff, 2011-07-01 More than a quarter century has now passed since the United States set off the last of three underground atomic blasts in the remote wilderness of the Aleutian islands off the coast of Alaska Cannikin as this third test was called exploded as planned on November 6 1971 on Amchitka Island The first test Project Long Shot 1965 was designed to determine whether the blast's shock waves could be distinguished from earthquakes Milrow the second 1969 and Cannikin were part of the U S anti ballistic missile development program Amchitka and the Bomb looks at how these nuclear explosions were planned and conducted by the U S Department of Defense and the Atomic Energy Commission in spite of vehement protests by political and civilian groups In addition to demonstrating the feasibility of a new generation of weapons the government defended the nuclear tests on Amchitka as providing U S presidents and especially Richard Nixon with negotiating power to force the Soviet Union to accept a satisfactory arms limitation agreement Dean Kohlhoff traces the enormous environmental impact of the blasts on the Aleutian wildlife refuge system He also examines the social and political fallout from the tests on Aleut civilian populations As the tests inexorably went forward an emerging environmental movement was galvanized to action Passionate but ultimately futile attempts to stop the blasts were made by such nascent groups as Greenpeace Friends of the Earth and the Wilderness Society Although Alaskan Aleuts sued to halt Cannikin and environmental groups joined them for an injunction against the test a split U S Supreme Court eventually approved the 5.1 megaton explosion Amchitka and the Bomb tells a harrowing story of the struggle of private citizens and small environmental groups to counter the weight of the federal government It adds immeasurably to our understanding of the nuclear history of the United States Its concise interweaving of the military scientific economic and social implications surrounding the nuclear explosions on Amchitka Island exposes the unpleasant consequences of allowing treasured national values to become victim to political necessity Kohlhoff has contributed a vital chapter to Alaska's history and to the history of the American environmental movement *Report of the*
