Ferreboeuf, F. Noble, T. Plunkett, 2016-04-08 Combining a range of content with self reflexive examination by scholars and practitioners this edited volume interrogates the contemporary significance of the avant garde Rather than focusing on a particular region period or movement the contributors bring together case studies to examine what constitutes the avant garde canon Writing Performance, Identity, and Everyday Life Ronald J. Pelias, 2018-03-13 *Writing Performance Identity and Everyday Life* invites the reader into Ronald J Pelias world of artistic and everyday performance Calling upon a broad range of qualitative methods these selected writings from Pelias submerge themselves in the evocative and embodied in the material and consequential often creating moving accounts of their topics The book is divided into four sections Foundational Logics Performance Identity and Everyday Life Part I addresses the methodological underpinnings of the book focusing on the touchstones that inform Pelias work performative autoethnographic poetic and narrative methods These directions push the researcher toward empathic engagement a leaning toward others using the literary to evoke the cognitive and affective aspects of experience and an ethical sensibility located in social justice Parts II IV focus on artistic and everyday life performances including discussions of the disciplinary shift from the oral interpretation of literature to the field of performance studies empathy and the actor s process conceptions of performance the performance of race gender and sexuality and performances in interpersonal relations and academic circles By the end readers will see Pelias demonstrate the power of qualitative methods to engage and to present alternative ways of being Pelias work shows us how to understand and feel the evocative strength of thinking performatively **Performance** Ronald J Pelias, 2016-09-16 *Performance* uses the alphabet as an organizational device to present a series of short pieces that approach performance from multiple perspectives and various compositional strategies Pelias s essays poetry dialogue personal narratives quick speculations and other literary genres explore the key themes in this field encapsulating the essence of performance studies for the novice and providing food for thought for the expert Its brief evocative and reflexive pieces introduce performative writing as a method of research for those in performance and many other fields *Insane Devotion* Mihaela Moscaliuc, 2016-05-16 Gerald Stern has been a significant presence and an impassioned and idiosyncratic voice in twentieth and twenty first century American poetry *Insane Devotion* is a retrospective of his career and features fourteen writers critics and poets examining the themes stylistic traits and craft of a poet who has shaped and inspired American verse for generations The essays and interviews in *Insane Devotion* paint a broad picture of a man made whole by the influence of the written word They touch on the contentious and nuanced stance of Judaism in the breadth of Stern s work and explore Stern s capacious memory and his use of personal history to illuminate our common humanity What is

revealed is a poet of complexity and heart often tender often outraged As Philip Levine writes in his lyrical foreword to the volume Stern is both sweet and spiky a born teacher who can teach me to see the universe in an acorn and hear the music of the lost in an empty Pepsi can      **Threat** Georgina Evans, 2010 This collection of essays arises from the 7th annual Cambridge French Graduate Conference held July 4 5 2005 whose theme was threat      **Comparative Criticism: Volume 18, Spaces: Cities, Gardens and Wildernesses** E. S. Shaffer, 1996-11-07 Addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives      **Nonfictional Romantic Prose** Steven P. Sondrup, Virgil Nemoianu, 2004-03-31 Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth They stand in contrast to better known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self referential fanciful creation Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary Travel narratives pamphlets religious and theological texts familiar essays autobiographies literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and

more Nor are the discursive dimensions of imaginative literature neglected in the closing volume *Romantic Prose Fiction* where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to *Romantic Prose Fiction* explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age *Contract with the Skin* Kathy O'Dell, 1998 Having oneself shot Putting out fires with the bare hands and feet Biting the body and photographing the marks Sewing one's own mouth shut all in front of an audience What do these kinds of performances tell us about the social and historical context in which they occurred Fascinating and accessibly written *CONTRACT WITH THE SKIN* addresses the question in relation to psychoanalytic and legal concepts of masochism 34 photos **Some Other Frequency** Larry McCaffery, 1996 McCaffery converses with the young recklessly daring and furiously productive William Vollmann and with Marianne Hauser who published her first novel nearly sixty years ago with Native American trickster novelist Gerald Vizenor and guerrilla writer Harold Jaffe whose literary technique is to plant a bomb sneak away with stark minimalist Lydia Davis and text and collage artist Derek Pell with muscular pop icon Mark Leyner and proto punk diva Kathy Acker They are a diverse lot shaped by very different literary and personal influences and addressing divergent readerships

*Representing Jazz* Krin Gabbard, 1995 Traditional jazz studies have tended to see jazz in purely musical terms as a series of changes in rhythm tonality and harmony or as a parade of great players But jazz has also entered the cultural mix through its significant impact on novelists filmmakers dancers painters biographers and photographers *Representing Jazz* explores the other history of jazz created by these artists a history that tells us as much about the meaning of the music as do the many books that narrate the lives of musicians or describe their recordings Krin Gabbard has gathered essays by distinguished writers from a variety of fields They provide engaging analyses of films such as *Round Midnight* *Bird* *Mo'Better Blues* *Cabin in the Sky* and *Jammin' the Blues* the writings of Eudora Welty and Dorothy Baker the careers of the great lindy hoppers of the 1930s and 1940s Mura Dehn's extraordinary documentary on jazz dance the jazz photography of William Claxton painters of the New York School the traditions of jazz autobiography and the art of vocalese The contributors to this volume assess the influence of extramusical sources on our knowledge of jazz and suggest that the living contexts of the music must be considered if a more sophisticated jazz scholarship is ever to evolve Transcending the familiar patterns of jazz history and criticism *Representing Jazz* looks at how the music actually has been heard and felt at different levels of American culture With its companion anthology *Jazz Among the Discourses* this volume will enrich and transform the

literature of jazz studies Its provocative essays will interest both aficionados and potential jazz fans Contributors Karen Backstein Leland H Chambers Robert P Crease Krin Gabbard Frederick Garber Barry K Grant Mona Hadler Christopher Harlos Michael Jarrett Adam Knee Arthur Knight James Naremore

**Del fotoconceptualismo al fototableau** Juan ALBARRÁN DIEGO, 2012-07-01 Interactions between photography and performance during a chronological period ranging from the so called nuevos comportamientos art sticos Spanish conceptual art at the beginnings of 70s to the definitive institutionalization of the tableau form in the 80s are analyzed in this research This is a complex and not lineal trip with particular interest in the Spanish context since some important changes affecting political and cultural life took place during this period conditioning the process object of the present work The work tries to discuss those performance theories that emphasize the liveness and doing so pushed the photography into the background By putting those controversies in the scope of nuevos comporamientos we have created a frame of reference to explain those activities near conceptual art and then we have looked for their continuity in certain works carried out during the 80s with neither media visibility nor critical mediators With the enthusiastic attitudes of the movida as a background photography becomes institutionalized whereas performance gets outside of the official aesthetics The origin of a cultural identity projecting some festive stereotypes onto contemporary art can be placed in the 80s being those stereotypes the starting point for a relational Hispanic tradition empowered by the cultural policies in the 90s By means of restructuring a complicated net of critical genealogies we have tried to explore some interesting strains related to the legitimacy of the action in the institutional scene located in the cross between photography and performance in that decade
