Representing The People:

Representing the People Kris Deschouwer, Sam Depauw, 2014-05-15 Modern democracy is organized as a representative democracy in which those representing the people are elected to office Political parties play a crucial role in this They select the candidates form or oppose governments and organize the work of the representatives in parliament This model of democracy is however being criticized Parties are hardly trusted and voters have become volatile How then do elected representatives of the people see and fulfil their role To study this a survey was organized among the members of statewide and sub state parliaments in fifteen countries Members of seventy three parliamentary assemblies were asked how they perceive their representative role what they do to keep in touch with voters how they behave and vote in parliament and how they will try to get re elected One of the ways in which candidates and elected members of parliament might react to the changing conditions in which they have to represent the people is by stressing more personal characteristics as opposed to the party label and party ideology Representation might then become more a matter of personal choice The results of the survey presented in this book do however confirm quite strongly that representation is very much shaped by the political institutions in which it is performed Representation differs between countries between different electoral systems between statewide and regional parliaments and depends strongly on the party to which a member of parliament belongs Representation depends not as much on who the representatives are as on where they are How Can You Represent Those People? A. Smith, M. Freedman, 2013-08-13 How Can You Represent Those People is the first ever collection of essays offering a response to the Cocktail Party Question asked of every criminal lawyer A must read for anyone interested in race poverty crime punishment and what makes lawyers tick **Representing the People** Kris Deschouwer, Sam Depauw, 2014 Based on interviews with members of over 70 parliamentary assemblies **Representing the People** explores how members of parliament perceive their role as representatives and shows that the way in which they represent depends very much on the party to which they belong Voices from Criminal Justice Heith Copes, Mark Pogrebin, 2016-11-25 Voices from Criminal Justice Second Edition gives students rich insight into the criminal justice system from the point of view of practitioners as well as outsiders citizens clients jurors probationers or inmates These qualitative and teachable articles cover all three components of the criminal justice system ensuring students will be better informed about the daily realities of criminal justice professionals in law enforcement courts and corrections At the same time the juxtaposition of insider and outsider views allows students to look beyond the actual content of the articles and develop their own views about the functions and flaws of the criminal justice system on a societal level This innovative reader now with seven new articles designed to stimulate discussions and promote critical thought is perfect for undergraduate criminal justice courses in the United States and has proven to be an effective companion or alternative to traditional introductory textbooks Voices from Criminal Justice Second Edition also offers a framework for more advanced students in special issues or capstone courses to synthesize

information from earlier courses and develop their own view of American justice Commentary on book I: Attica.
